Taub Loop, Houston, TX 77030

**PROVIDENCE, RI - October 11-12 (Greater Boston area)**

Details for site beng finalized

# Suzanne McMurtry Baird DNP, RN

## Perinatal Expert, Author, Consultant, and Acclaimed Educator

Suzanne has specialized in high risk and critical care obstetrics throughout her career, and is currently the Nursing Director Clinical Concepts in Obstetrics, LLC, a High Risk and Critical Care Obstetrics, Women's Services Consulting service, Director of Maternal Quality Improvement, Tennessee Initiative for Perinatal Quality Care, and a staff nurse in Labor and Delivery at Vanderbilt University Medical Center Nashville, Tennessee. Suzanne has authored or coauthored multiple journal articles and text chapters focusing on the high risk and critically ill mother. She is one of the editors of the recently released Intrapartum Management Modules, 4th edition textbook and will be serving as an editor for AWHONN's High Risk and Critical Care Obstetrics, 4th edition text. Suzanne has served on numerous AWHONN advisory panels and educational programs and currently serves on the board of editors for the Journal of Perinatal and Neonatal Nursing. She has presented numerous webinars and both international and national seminars and brings her passion and extensive clinical, research, and education experience to the PEC courses with the goal to improve outcomes for the high risk and critically ill woman.

## WHAT PEOPLE ARE SAYING

*"Loved every minute of it, I have a new favorite speaker!"*

*"Suzanne is a fantastic, inspiring teacher, her passion for mothers is so genuine."*

*"Complex topics were made simple enough for me to sit in class for 8 hours and not lose interest! What an excellent speaker!!"*

*"Took away alot from the case studies, and stories of her vast experience in CCOB"*

*"Visual slides were great!"*

### GUARANTEE - CANCELLATION - TAXES

**GUARANTEE:** If you are not satisfied with the content and presentation of this program, notify the registrar by 12 noon on 1st day of attendance for refund of registration fees.

**CANCELLATIONS:** Up to 7 days before the program choose: Registration fee refund minus \$25 per day administrative fee or full value credit letter.

**Cancellation within 7 days:** No monetary refund. Send a substitute or request a credit letter (minus \$25/day administrative fee) which will allow you to apply fees to a future program of your choice. If program cannot be held due to circumstances beyond our control (natural disaster, strike, etc.) the seminar will be rescheduled if possible. Registrants may choose free admission to the rescheduled program, credit voucher good for any future PEC program: No cash refund. PEC reserves the right to substitute qualified speaker(s) in response to emergency circumstances beyond our control. **CE tuition, travel/meal expenses are tax deductible.** Consult your tax advisor for details.

## Why YOU Must Attend!

### OB Complications & Maternal Deaths are INCREASING in the US and Canada Every OB Provider MUST...

- Understand Risks, Hazards & Warning Signs
- Recognize disease states that increase risk status for pregnant women
- Understand measures to improve oxygen transport and tissue perfusion
- Recognize the compromised woman and implement Life Saving Care

*"Preparation and Understanding are the key factors for safe practice of Obstetric Nursing & Maternal-Fetal well-being."*

## PROGRAM OBJECTIVES:

### Following comprehensive lecture, case studies, & discussion, you will be able to:

- Discuss current issues related to care of critically ill obstetric woman, the most common causes of maternal critical illness, compromise, and outline measures to improve outcomes.
- Review normal physiologic changes in pregnancy and the impact of these on care management of the critically ill woman.
- List the purpose and indications for hemodynamic monitoring, and potential complications of invasive monitoring.
- Identify interventions based on hemodynamic profile.
- Understand the components of cardiac output and identify normal hemodynamic parameters in pregnancy and how to optimize values.
- Discuss the components of oxygen transport physiology, consumption and measures to improve oxygen transport and tissue perfusion. Interpret oxygen transport values.
- Discuss technology use to monitor adult hemodynamics and the needs when setting up a critical care OB program.
- Interpret patient care data presented from selected case studies and utilize critical thinking concepts to critique clinical management based on the pathophysiology of hemodynamic instability, hypovolemia from hemorrhage, severe preeclampsia and HELLP.
- Compare cardiogenic and noncardiogenic pulmonary edema.
- Explain the pathophysiologic responses associated with pulmonary embolus, and management strategies and goals associated with care of the obstetric woman with an acute pulmonary complication.
- Outline the most common causes of hemorrhage in pregnancy.
- Discuss the pathophysiology of hypovolemia and DIC.
- Review management of hemorrhage and DIC; volume resuscitation principles and blood component therapy.
- Discuss classification of hypertension in pregnancy.
- Review pathophysiology and clinical presentation of severe preeclampsia and HELLP syndrome, and review algorithms for management of severe hypertension.
- Outline the types of cardiac disease/lesion and pregnancy risk.
- Identify management concepts for cardiac disease in pregnancy.
- Review the definitions for range of diseases known as sepsis and their common causes and diagnostic markers.
- Discuss the sepsis bundles and how it is used in pregnancy.
- Discuss collaboration between healthcare services/agencies when a mother becomes critically ill during the OB course.
- Discuss initial and ongoing education including simulation and skills validation.

# HIGH RISK and CRITICAL CARE OBSTETRICS:

## Critical Elements in OB Safety

### Day One -

**7:30 Check In - Continental Breakfast**

- 8:00 • INTRODUCTION and Overview of Maternal Morbidity and Mortality**
- **BUILDING the Foundation: Understanding Physiologic Changes in Pregnancy**
  - **ASSESSMENT of Hemodynamics: Non-invasive and Invasive Parameters**
  - **OPTIMIZING Oxygen Transport and Tissue Perfusion**
  - **TECHNOLOGY Used in Critical Care**
  - **CRITICAL Care Case Studies: Interpreting Assessment Data and Management Principles**
  - **RESPIRATORY Compromise**

**4:00 Adjourn**

### Day Two -

**7:30 Check In - Continental Breakfast**

- 8:00 • HEMORRHAGE, DIC, and Volume Resuscitation**
- **CASE STUDIES in Volume Resuscitation**
  - **MULTISYSTEM Disease Effects of Preeclampsia**
  - **CASE STUDIES in Hypertension Management**
  - **CARDIAC Disease in Pregnancy**
  - **INFECTION Leading to Sepsis**
  - **IMPLEMENTING a Critical Care Obstetrics Program**
- 4:00 Adjourn**

**Lunch is provided 12:00 - 12:45 both days**

### REGISTRATION: High Risk & Critical Care OB

NAME \_\_\_\_\_

### High Risk & Critical Care OB

- ♦ Maternal "Near Deaths" Who's at Risk?
- ♦ Critical Maternal Conditions
- ♦ New! Changes in GH Management
- ♦ Case Studies: Review Management
- ♦ Massive Hemorrhage and Transfusion
- ♦ Cardiac Disease in Pregnancy
- ♦ Sepsis Risk and Care Management

Visit our website to register and for complete course information. See all of our offerings including Cruise Educational Opportunities!  
[www.proedcenter.com](http://www.proedcenter.com)

**CE CREDITS:** Nurses - 16 CE Credit Hours (8/day); (1.5 CE Pharmacology)

**Physicians:** Category II CME can be self submitted.

This program has been designed to meet Board of Nursing CE requirements for license renewal in all 50 states. Professional Education Center (PEC) is a provider approved by the California Board of Registered Nursing, Provider #9890, Florida FBN #2219 for 15 (7.5day) Contact Hours. Meets Texas Type I criteria.

Neither program planners nor presenters have any commercial conflict of interest.
