Audience

This program is designed for primary care physicians, physician assistants and nurse practitioners. Nurses and other members of the care team may also find it beneficial.

Conference overview

Hundreds of millions of people worldwide are affected by neurological disorders. As the prevalence of neurologic conditions continues to rise, primary care clinicians are increasingly encountering and managing these conditions. In parallel, the complexity of treating patients with neurological disorders is rapidly changing as new research and treatments impact practice.

Neurology Update will provide a broad review on the emerging approaches to the diagnosis, treatment, management and prevention of neurological disease and disorders. Experts will share practical pearls on conditions relevant to daily practice. Topics include the management of neurologic emergencies, dizziness and vertigo, concussion, headache, pain, neuropathy, sleep, Parkinson's disease, tremors and dementia.

Tour the new Neuroscience Center!

Care, rehab and research – all under one roof. HealthPartners Neuroscience Center cares for individuals with brain and spine conditions. Prior to the start of the conference, participants will have the opportunity to tour the center. Sign up on the registration form. Shuttle service between the hotel and the center will be available.

Educational objectives

Following this learning activity, participants will be able to:

- Apply evidence-based strategies in diagnosing and managing common neurological conditions
- Recognize and appropriately evaluate neurological emergencies
- Identify neuroscience resources in order to facilitate best care for patients with neurological conditions

Cost/Registration

Registration includes continental breakfast, lunch and refreshments. Presentations will be available for download from the conference website. Participants have the option of purchasing a printed syllabus for \$30. Please see registration form to order.

If you have any special needs or dietary requirements, please notify us when registering so we can make arrangements to accommodate you.
