17th Annual

International Symposium on Stereotactic Body Radiation Therapy and Stereotactic Radiosurgery

February 21–23, 2025

Disney's Grand Floridian Resort, Lake Buena Vista, FL

About the Symposium

The 17th Annual International Symposium on Stereotactic Body Radiation Therapy (SBRT) and Stereotactic Radiosurgery (SRS) in Lake Buena Vista, Florida, will bring together world leaders in brain-, spine- and body-targeted stereotactic radiation modalities and techniques. Faculty and participants will have three days to discuss advances in the treatment of benign and malignant tumors involving multiple organ sites. A broad range of organ-specific technical and clinical experience will be presented with opportunities to interact with faculty and system vendors.

Scientific abstracts will be solicited from attendees for poster presentation sessions.

Target Audience

Radiation Oncologists, Neurosurgeons, Neuro-Oncologists, Medical Oncologists, Spine Surgeons, Neurologists, Medical Physicists, Dosimetrists, and other disciplines including Physician Assistants and Nurse Practitioners.

Learning Objectives

- Identify and discuss stereotactic radiation treatments for benign and malignant tumors
- Describe novel targeting and imaging advances as they relate to CNS Radiosurgery and Stereotactic Body Radiation Therapy
- Discuss how to integrate technology into clinical practice
