Schedule

Day One

7:30 am Registration and Coffee
 8:00 am Basic Physics
 9:30 am Informal Discussion and Break
 9:40 am Breast Anatomy and Physiology
 11:10 am Benign and Malignant Features
 12:10 pm Lunch
 1:00 pm Instrumentation and Technique (Part 1)
 2:30 pm Informal Discussion and Break
 2:40 pm Instrumentation and Technique (Part 2)
 4:00 pm Artifacts
 4:30 pm Lecture Ends
 4:30-6:00 pm Hands-on Workshop
 (on-site students only)

Day Two

7:30 am Coffee
 8:00 am Benign Lesions (Part 1)
 8:30 am Benign Lesions (Part II)
 9:30 am Informal Discussion and Break
 9:40 am Malignant Lesions
 11:10 am Invasive Procedures
 12:10 pm Lunch
 1:00 pm Other Imaging Modalities
 2:00 pm Emerging Technologies
 3:00 pm Lecture Ends
 3:00-4:00 pm Hands-on Workshop (if needed)
 (on-site students only)

~ **schedule subject to change**

16 hours of structured education related to the
 content specifications as outlined by the ARRT.

Course Credit:

This program provides **17 hours of Category A+** continuing education credit for radiologic technologists approved by ASRT and recognized by the ARRT and various licensure states. ARRT Category A+ credit is also recognized by CAMRT's Continuing Education Credit Approval Program for CE credit in Canada. You must attend the entire program to receive your certificate of completion. ASRT meets the requirements of the ARDMS Accepted Continuing Education Evaluation Model System (AACEEMS).

The Medical Technology Management Institute is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Medical Technology Management Institute designates this live activity for a maximum of **16 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity

About this Course

This course will provide increased knowledge of the technical and clinical aspects of breast ultrasound as well as practical hands-on training of ultrasound imaging of the breast. An overview of the basic principles and techniques utilized in breast ultrasound will be presented. This course will be helpful for mammographers and sonographers who are directly involved in breast imaging and physicians whose practice includes women's health. Participants should have an understanding of the basic concepts of mammography. If you are a mammographer looking for training in breast ultrasound or a sonographer wanting to review basic breast imaging skills, this course is for you. Sonographers and physicians wanting to learn breast ultrasound techniques would also benefit from this course.

This course will utilize a combination of lecture sessions and hands-on positioning workshops taught by an experienced sonographer and technologist. Instruction in patient scanning is stressed with hands-on demonstrations using clinical ultrasound scanners, tissue equivalent breast phantoms and live models.
