

Metastatic Spinal Cord Compression

Wednesday 20th March 2019

Education Centre (Dept 17), The Christie, Manchester, M20 4BX

Overview

The 6th Christie Metastatic Spinal Cord Compression Study Day is an opportunity for attendees to better understand how to manage patients with suspected or confirmed metastatic spinal cord compression throughout the pathway.

Topics Covered

- Red Flags and recognising early signs & symptoms
- Management including investigations and treatments
- Rehabilitation including spinal stability, collars / bracing, mobility status

Intended Audience

Health professionals in all settings where patients with MSCC may present. This includes doctors at all levels (GPs, Consultants, Registrars, Junior doctors), Radiologists, AHPs and Nurses
