Your key to MOC success

Build your confidence and review the content you need to pass your MOC exam at this supercharged 2-day course. Your faculty are set to deliver evidence-based, content-packed lectures structured around the testable material you need to know. Prepare to pass and “check-up” on your current knowledge and recent advances in every area of orthopaedics, with post-course online study supplements and recordings included.

Take advantage of face-time with speakers to ask follow-up questions and get clarification on challenging topics.

Continue the challenge until the exam!

- **New! Course recording** – Watch the entire course again, or pick and choose lectures to review as needed until the exam in August/September
- **Course syllabus** – faculty-provided content and handouts
- **1700+ online self-assessment questions** with discussion, preferred response, and recommended readings – available through September 15

“This was one of the best CME courses that I’ve attended – it was direct, no nonsense and very valuable.” – Past Course Participant
