HANDS-ON WORKSHOPS 2023 SARASOTA

**R-1 Howard S. Glazer D.D.S.” I Have It...You Need It!”**

This is a program about real dentistry for real people by a real dentist! See a potpourri of materials and techniques that will make your day at the office easier, more productive and fun! Topics may include Composites, Adhesives, Bio-Active Materials & Techniques, Impression & Provisional Materials, Rotary Cutting Instruments, Lasers, Curing Lights, Patient Communication Tools, and Cements. Learn how to integrate these new concepts into your practice to enhance patient outcomes and profitability.

**R-2 Brandon Kofford D.D.S., M.S. “Smart Denture Conversions”**

Patients with dentures are seeking more retentive fitting dentures to improve function and appearance. Learn the basic elements in the successful use of the Smart Denture Conversion system to significantly reduce conversion time and produce a stronger, more attractive provisional prosthetic with ideal occlusion. See and understand how these benefits yield a better experience for the patient and improve the efficiency and predictability of the practitioner’s workflow.

**R-3 Marcos Vargos D.D.S., M.S. “Anterior Composites: A Blueprint for Daily Success”**

Patient demands for aesthetic, conservative dentistry have driven the need to produce imperceptible anterior restorations. Modern resin composite materials have the potential to create functional, long-lasting, cost effective, predictable anterior restorations. This hands-on will demonstrate shade selection, cavity preparation design, resin composite manipulation, contouring, surface characterization, and polishing to predictably create highly aesthetic restorations.

**F-1 John Comisi D.D.S. “Tooth and Consequences: Restorative Challenges and Solutions”**

Patients present daily with remarkable challenges. The caries onslaught can be overwhelming to the patient and to us as restorative dentists. Solutions are needed to help us get the patient off the endless cycle of secondary caries and restorative failure. In this class we will provide solutions to this challenge from the restorative perspective. We will explore the world of antibacterial materials, bioactive materials, and other potential solutions to give you the competitive advantage in this battle of “De-Bond.”

**F-2 George Freedman D.D.S. “3-D Printing: The Future is Here and Will Change Your Practice”**

3-D printing will change the dental world far more than the cosmetic/esthetic revolution did a generation ago and far more quickly. The challenges lie in the new materials, new technologies and limitless applications. How to bond, cement, impress (yes!) for the ultimate digital workflow. Innovative diagnostic technologies are also equipping the dental profession with ever greater latitude for treatment and maintenance opportunities.

**Fay Goldstep D.D.S. “The Oral/Systemic Link Demystified: Tell Your Mom You are a Real**

Doctor!” This program will explain and simplify the downward spiral of periodontal disease—from beneficial acute inflammatory response to chronic unresolved inflammation with its direct impact on systemic health. Learn about the new rapid chairside test for early detection of oral inflammation and evaluation of periodontal treatment outcomes. Try it yourself—what is your oral inflammatory load?

**S-1 Michael Gelb D.D.S., M.S. “Airway Centric® Workflow”**

This hands-on session will give you the opportunity to see how the airway can be stabilized with nightguards and devices and can be enhanced with orthodontic appliances and clear aligners. The focus will be on a digital workflow beginning with diagnosis and recognition and include bite taking, design and insertion of these devices. Learn how to implement these new techniques and devices into your practice and improve the quality of life for your patients.

**S-2 Marcos Vargos D.D.S., M.S. “Daily Posterior Composites Made Easy”**

Posterior composite resin restorations are a daily procedure in practice. Sometimes they can be challenging to perform in an efficient matter and obtain sensitive free restorations with great proximal contact and shape. This hands-on will provide the practitioner with tips and techniques to efficiently perform posterior composite restorations in daily practice. Learn step-by-step procedures from a master in direct composite restorations.

2023 SARASOTA FEATURED SPEAKERS

Adamo Notarantonio D.D.S. and Amanda Seay D.D.S. “Create and Capture”
Irwin Smigel Keynote Speakers

We are excited to hear from two of the most popular trending aesthetic speakers. Just as Dr. Smigel was ahead of his time teaching new concepts, they present comprehensive hands-on multi-day modular programs designed to enhance your abilities and your practice. They will demonstrate many new ways of motivating, marketing and achieving aesthetic excellence. You will not want to miss this outstanding morning.

The art of creating beautiful composite restorations may seem daunting, but with some key concepts the process can be broken down into simple, straightforward steps. The importance of natural morphology, color and light all affect the harmony of composite restorations. The finer details such as texture and luster are just some of the pieces that make recreating nature possible. Come explore the beauty and art of resin. Finally, let's learn how we can capture the beautiful dentistry we have created! Learn the ways photography can not only help you throughout the process of treatment, but also the ways to market and advance your brand as a clinician.

Matt Roberts C.D.T. and Michael Roberts “Digital Aesthetics: The Impact of Digital Design on Aesthetic and Reconstructive Dentistry”

Digital workflow is changing the way we approach reconstructive Aesthetic Dentistry today. It offers many advantages over our previous analog systems, providing us with predictable treatment for our patients. With advanced CAD software, 3D printing and the newest milling machines, we have a formidable arsenal of tools to work with. This presentation will explore how we can use these new digital tools to predictably treat today's patients who have demanding aesthetic and reconstructive needs.

Frank Celenza D.D.S. “Ortho/Perio in the Aligner Age”

Historically certain orthodontic movements such as forced eruption, molar uprighting, embrasure management, root torqueing, and implant interactions were employed using fixed appliance mechanotherapy for their beneficial impact upon the periodontium. Aligner therapy has developed to a level of sophistication that allows these movements to be accomplished utilizing removable appliances in preparation for the whole spectrum of restorative treatments. This presentation will delineate the philosophy behind these movements, the periodontal benefit, and display clinical cases that illustrate these methods.

Oliver Pin-Harry D.D.S., M.S. “Integrating Digital Workflows from Single Tooth to Full Mouth Reconstructions: 2023 Perspective”

Digital Implant and Restorative workflows, combined with 3-D radiographic data, provide increased options and quicker treatment times while maintaining or exceeding the quality of a conventional approach. Learn how to achieve long-term biomechanical stability and biocompatibility with implants. This lecture will help clinicians integrate digital technology into everyday practice to achieve precision, productivity, and ideal aesthetics.

Rob Ritter D.M.D. “Digitized Conversion: A Journey into the Future of Presence and Acceptance”

Traditional methods of marketing are dying and have been supplanted by interactive digital communication. How does one become ranked on the first page of Google? How does a dentist gain interaction on social media sites? What is conversion and how should you track and measure this critical data point for practice growth? Learn how to use and leverage social media interaction to attract patients seeking high quality aesthetic dentistry.

PROGRAM SCHEDULE

Wednesday, November 1, 2023

3:30-5:00 pm Registration
6:30-8:00 pm Welcome Reception

Thursday, November 2, 2023

7:30-8:30 am Breakfast and Registration EXHIBITS OPEN
8:30-8:45 am Welcome-Dr Dan Ward, Meeting Chair
8:45-10:15 am **Irwin Smigel Keynote Speakers**
Adamo Notarantonio DDS and Amanda Seay DDS
"Create and Capture" Part 1
10:15-10:45 am Break EXHIBITS OPEN
10:45am-12:15 pm Adamo Notarantonio DDS, Amanda Seay DDS
Irwin Smigel Keynote Speakers
"Create and Capture" Part 2
12:15-2:00 pm Lunch Buffet-EXHIBITS OPEN
2:00-5:00 pm Hands-On Workshops (Pre-Registration Required)
(R-1) Howard S Glazer DDS "I Have It.. You Need It"
(R-2) Brandon Kofford DDS MS "Smart Denture Conversions"
(R-3) Marcos Vargos DDS MS "Anterior Composites: A Blueprint for Daily Success"
7:00-9:30pm Honors Buffet Reception and Dinner, ABAD Induction Ceremony

Friday, November 3, 2023

7:30-8:30 am Breakfast and Registration EXHIBITS OPEN
8:30-10:00 am Matt Roberts CDT & Michael Roberts "Digital Aesthetics: The Impact of Digital Design on Aesthetic and Reconstructive Dentistry Century Dentistry"
10:00-10:30 am Break-EXHIBITS OPEN
10:30am-Noon Frank Celenza DDS "Ortho/Perio in the Aligner Age"
Noon-6:00 pm Golf Tournament (Pre-Registration Required)
1:00-4:00 pm Hands-On Workshops (Pre-Registration Required) (Box Lunches provided beginning at 12:30 for workshop participants)
(F-1) John Comisi DDS "Tooth and Consequences: Restorative Challenges and Solutions"
(F-2) George Freedman DDS "3D Printing: The Future is Here and Will Change Your Practice!"
Fay Goldstep DDS "The Oral/Systemic Link Demystified: Tell Your Mom You are a Real Doctor!"

Saturday, November 4, 2023

7:30-8:30 am Breakfast and Registration EXHIBITS OPEN
8:30-10:00 am Oliver Pin-Harry DDS MS "Integrating Digital Workflows from Single Tooth to Full Mouth Reconstructions: 2023 Perspective"
10:00-10:30 am Break EXHIBITS OPEN
10:30am-Noon Rob Ritter DMD "Digitized Conversion: A Journey into the Future of Presence and Acceptance"
Noon-2:00 pm Lunch-EXHIBITS OPEN
2:00-5:00 pm Hands-On Workshop (Pre-Registration Required)
(S-1) Michael Gelb DDS MS "Airway Centric® Workflow"
(S-2) Marcos Vargos DDS MS "Daily Posterior Composites Made Easy"
6:30-7:15pm Reception
7:00pm Commemorative Group Portrait
(Accredited Members and Fellows)
7:15-10:30 pm **Directors Dinner Dance and Induction Ceremony for New Members and Fellows**

2023 SARASOTA CONFERENCE REGISTRATION

(please print) Each participant must complete a separate registration form including contact information. Guest's names should be added to the attendee registration. Hotel registration is separate.

Name (Last) _____ (First) _____ (MI) _____

Address _____

City _____ State _____ Zip _____ Country _____

Daytime Phone (_____) _____ Fax (_____) _____

E-mail Address _____ AGD# _____

Name on Badge _____ Special Needs _____

Guest Name (1) _____ (2) _____

Guest Information: Guests must register to attend meals and social functions. Please include payment for your guests. If your guest is also in the dental profession, please register him/her as a dental professional so he/she will have access to courses.

Tuition: All fees are US Dollars. Refunds before October 1, 2023 include \$100 cancellation fee. No refunds after October 1, 2023.

Conference Events	Registration Fee	Quantity	Total Amount
ASDA Member	\$1595		
Non-Member	\$1795		
Dental Team Member	\$595		
Recent Graduate (19-23), Active Military, Special	\$795		
Spouse/Guest (non-dentist)	\$695
