

2022

ALASKA DENTAL SOCIETY ANNUAL MEETING

May 13-14, 2022 | Anchorage Sheraton Hotel

FRIDAY ALL DAY

Real World Endo® presents Safety and Simplicity in Root Canal Instrumentation and Obturation: myths, metal and motion

Nearly 28 years since the introduction of Nickel Titanium Rotary Files to endodontics, we've learned much about the clinical strengths and

limitations of these great instruments. As a result of recent improvements in metallurgy, enhanced designs, and innovative rotary file motions, we now need to understand how these changes affect clinical instrumentation. Furthermore, in parallel to improvements in instrumentation technology, root canal obturation has been revolutionized in the area of cement/sealer technology. These obturation improvements are allowing more efficient obturation techniques at lower costs. Finally, combining improvements on both instrumentation and obturation front is now allowing us to create more efficient instrumentation and

obturation techniques that are safe, simple, and predictable. During this course, Dr. Fleury will talk about these points with specific emphasis on access, irrigation, instrumentation, and obturation.

Dr. Alex Fleury has served on the Scientific Advisory Board of the Journal of Endodontics, and as well serves as the Director of Educational Resources for Real World Endodontics. He is in full-time private practice in Dallas.

FRIDAY ALL DAY

A Best Bet Compliance Trifecta: OSHA, HIPAA, and COVID-19

This presentation addresses the issues, methods and means of responding to OSHA's mandates, HIPAA's directives, and the CDC's COVID guidelines all at one setting interlaced with nearly 30 years of actual dental office situations, amusing anecdotes and attendee participation. This is not like any other compliance presentation you've ever taken and, it's definitely not boring.

Terre Harris, President/CEO, founded HARRISBIOMEDICAL which has provided OSHA, HIPAA, and Infection Control compliance programs to more than 7000 dental practices and training to nearly 215,000 dental professionals.

SATURDAY A.M. SESSION

Improve Your Systems Dental Metrics & The Wizard Of Oz

Numbers and metrics and goals, Oh My! Master the numbers and stats in your office to grow your practice and avoid the flying monkeys. Learn

how to stay on the yellow brick road by utilizing the numbers in your practice for forecasting and decision-making. Penny makes the numbers make sense in this highly informative and entertaining session.

Penny Reed is a nationally renowned speaker, author, and dental coach. Penny makes a positive impact with her witty, up-tempo and powerful presentations. Her ability to educate, inspire and excite in a fun learning environment is why she is a highly, sought-after dental educator.

SHERATON ANCHORAGE HOTEL & SPA

With a stay at Sheraton Anchorage Hotel & Spa, you'll be centrally located in Anchorage, a 6-minute walk from Anchorage Museum and 11 minutes by foot from Anchorage 5th Avenue Mall. This spa hotel is

0.9 mi (1.5 km) from Alaska Center for the Performing Arts and 1 mi (1.6 km) from Dena'ina Civic and Convention Center. Make yourself at home in one of the 370 guestrooms featuring refrigerators and LCD

televisions. Your pillowtop bed comes with down comforters and premium bedding. Complimentary wireless Internet access keeps you connected, and cable programming is available for your entertainment.

2022 ALASKA DENTAL SOCIETY ANNUAL MEETING

MAY 13-14, 2022 | ANCHORAGE SHERATON HOTEL

SATURDAY P.M. SESSION

PM Session Common Sense Isn't So Common: Basic Foundations of Dental Practice Success

With today's emphasis on SEO, statistical metrics, and myriad other analytical tools for managing a modern dental practice, the common sense factors too often get overlooked. Paying attention to the basic low-tech foundations of success, such as patient experience, staffing, communication and word-of-mouth marketing is as important today as it was back in the era of pegboards, typewriters and spittoons; and long before extreme PPE was ever thought of.

Practice management doesn't have to be complicated. Following common sense policies, principles, and protocols will ensure a rewarding and stress-free practice for all team members on a daily basis.

This course is designed for anyone who has or wants to have leadership responsibility over any aspect of dental practice in all various venues. It can help create a better work environment which will attract and retain quality employees, and thus attract appreciative patients.

Dr. Barry recently retired from a 42-year career of running a general practice in downtown Seattle. His practice started out as a small 2- operator office, and now is a successful 11-operator group practice. Dr. Barry taught professional ethics at UW dental school for 30 years. He and

his wife, Lisa, make their home in Gig Harbor, WA.

SATURDAY ALL DAY

Cutting Edge Techniques and Materials to Maximize Success of Posterior Composite Resin Restorations

The use of composite resin material as a direct restorative for anterior and posterior restorations has dramatically increased in the market place. With self-etching technology emerging as a viable alternative to traditional techniques and the development of new technology to assist clinicians with bulk fill techniques, it is easy to be get confused and fall behind. What materials will you advocate for use in your practice? What has the literature been revealing on materials in current use? Should practitioners change their current techniques? What preparation design will you utilize?

This lecture/hands-on will attempt to make sense of all of the products and techniques available in today's market place and will focus on materials and their applications as well as a brief review of some of the literature. Emphasis will be placed on new developments in the composite area as well as outline what developments to watch for in the coming years.

During this program practitioners will understand:

- Self-etching principles and how they are applied to composite resins.

- What is required of materials to be utilized for bulk-filled and the differences between several current materials.
- How to successfully and predictably place a bulk-filled restoration.
- Proper placement techniques that maximize clinical outcomes and esthetics.
- How to select and place an appropriate matrix system.
- How to create and maintain correct posterior anatomy and contours.

Dr. Marc Geissberger attended the University of the Pacific, School of Dentistry, earning a Doctor of Dental Surgery degree in 1991. Dr. Geissberger has practiced in Marin since 1991. He splits his time equally between his private practice and educating practicing dentists. He is an Adjunct Clinical Professor in the Department of Preventive and Restorative Dentistry and served as the Chair of the Department of Integrated Reconstructive Dental Sciences at the University of the Pacific, School of Dentistry for 15 years. Dr Geissberger teaches many continuing education courses and sits on the board of Catapult Education. He has presented 350 lectures and hands-on workshops to colleagues in the United States, Canada, Australia, New Zealand, China, Peru and Taiwan. He has co-authored and published numerous scientific papers and a textbook entitled Esthetic Dentistry in Clinical Practice for Wiley-Blackwell.
