FOREWORD

Dear Physician,

The 12th Global Musculoskeletal Ultrasound with Basic MRI Correlation Congress for Physicians & GP's will be held from 5th-6th April 2020 at Holiday Inn Beach Resort, Penang Island, Malaysia.

Here are the key features of the Congress:

1. All physicians will receive a chance to be tutored by senior Musculoskeletal Radiologists who are experts at Musculoskeletal Ultrasound. The practical session will start with a demonstration by the Musculoskeletal Radiologists in the first hour. Subsequently, each participant will be given 10-15 minutes initially to practise the technique shown by the radiologist on the model until all participants in the group have attempted and have been shown how to do the technique correctly. This is strictly monitored by an appointed group leader. After this, all participants are free to move to any of the groups and free tables with models to practice and ask any of the faculty if they face any difficulty.
2. There are also opportunities to be trained under expert Rehabilitation Ultrasound specialist, Dr Kavitha Ratnalingam. This should be of interest to delegates who would like to learn how to identify injured muscles and subsequently administer PRP or prolotherapy treatment. Upper limb and lower limb nerve anatomy can also be shown. For Rehabilitation specialists, this is a good chance to gain a quick refresher on cross-sectional muscle identification for botulinum injections and nerve blocks, etc.
3. As a bonus, renowned Rheumatologist sonographer, Professor Dr George Bruyn, who is also an expert MSK Orthopaedic sonographer, will also be on-site for delegates who are interested in learning rheumatology screening.
4. Faculty to participant ratio is 1 faculty to 7 participants. There is plenty of time for hands-on practice as we have extra tables and models for each session. Please note that only limited places are available to enable quality training.
5. All groups are combined during lectures and are only split according to subspecialty and level of expertise during the practical sessions. It is advised that you register early if you are keen on joining the 2020 congress as places fill up fast.
6. When applying for level of training using the online registration form, please note that Basic level means you have not attended any Basic MSK Ultrasound course and are not doing MSK USS weekly. Intermediate level means you have attended a Basic MSK USS course and are practising MSK USS weekly on patients. Advanced level means that you are highly experienced in MSK USS and would like more specific teaching of different joints. Please apply for the correct grouping to ensure effective training.
7. MSK MRI and MSK Ultrasound videos are shown during the MRI & Ultrasound video sessions to complement the lectures. The Ultrasound pathology using static images and videos will only be taught after the practical session. This is to ensure that one understands the various imaging planes and images expected of normal ligaments, tendons, muscles and other structures. The abnormal images of pathology will then be easily appreciated as one has already been accustomed to seeing the normal appearance in the standard planes during the practical session. This will lead to a huge appreciation of pathology without the need for actual patients.
8. Opportunities for oral paper presentations are available. Kindly submit your standard abstract (not more than 250 words) to the Secretariat for consideration by the Scientific Committee. Further details will be provided following your submission.
9. For ease of registration fee payment, credit card payment options are available for overseas delegates. Upon online registration, you will be sent a credit card payment link for the amount due which will be valid for 7 days.
10. We have negotiated for special room rates with Holiday Inn valid from 29th March-9th April 2020. The hotel booking form will be sent to you via email. Please fill it and send directly to the hotel as per instructions on the booking form. Kindly note that no commissions are taken by the conference organizers for room bookings to keep the room rates low. Hotel booking can be made using credit card and you will not be charged until check-in. Hotel booking can be cancelled up to 24 hours before check-in with no penalty and you will not be asked for your CVC number.

By attending the Global MSK USS with MRI congress, you will gain confidence in performing MSK Ultrasound. So don't think twice. Register for the Penang MSK MRI & Ultrasound Congress using the online registration form available at www.penangmskrad.com today.

Yours sincerely,

Prof Dr John George

"Comprehensive, with good materials and lectures provided, and ample hands-on practice sessions for learning by very patient and experienced facilitators/faculty members standing by to show us the ropes."

Dr Pek Eu Way, Malaysia

"An incredibly insightful hands-on course. Provided a new way of looking at pathology and being able to visualize the underlying anatomy."

Dr Tamara Pooke, South Africa

"This conference is beneficial to improve basic MSK ultrasound skills as it is very comprehensive and practical. Keep up the good work. The hands-on sessions are good and all the instructors are very helpful. The video sessions on pathology are good as well."

Dr Salmina Rifin, Malaysia

"This is an event that I stumbled upon on Google but was sure it will have a mark in my medical profession for a very, very long time. Thank you Prof for the exciting and stimulating experience!"

Dr Joon Moon, South Korea

"Learning how to read the ultrasound images really enhanced my understanding of the pathological conditions and how to differentiate them. Clear explanations, patient presenters and correlation to clinical conditions."

Dr Katey Paczek, Malaysia

"Great workshop! This is my first ultrasound workshop and I'm glad to be here. Lots of stations for workshop with real human models and experts to teach. Everyone can practice until he's feeling comfortable."

Dr Chut Nakornchai, Thailand

"I learned many tips and practical methods to use in MSK ultrasound, and also the pitfalls that I have to be careful of. The knowledge I gain from the course will surely be applied in my practice."

Dr Faisal Parlindungan, Indonesia

"This is my first formal training on MSK ultrasound and it is recommended by my colleagues. This is much more above my expectation with the good materials and supervision from experts."

Dr Chiu, Wing Fat, Hong Kong

"This course was wholesome as it covered many important MSK related pathologies. The instructors were very patient and motivated to teach us. It was definitely worth it. I enjoyed it."

Dr Arvin Raj, Malaysia
