Biological Basis of Cancer Therapy

Part A: Pharmacology, Chemotherapy & Molecular Biology (FRCR 1)

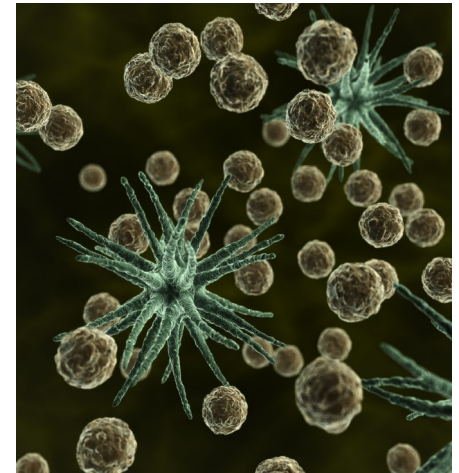

The Christie
School of Oncology

Introduction

The Cancer Studies Research Group based at The Christie School of Oncology & Cancer Research UK Manchester Institute play a major role in allowing Specialist Registrars in Clinical & Medical Oncology to fulfil the academic side of their training. This programme is run as a 5 day lecture series and includes examination practice sessions. Monday and Tuesday will focus on pharmacology and chemotherapy and Wednesday to Friday will cover molecular biology & immunotherapy

Bookings options are available to attend all/part of the programme
