Who Should

Attend

The Course would be of interest to Healthcare Professionals involved in managing diabetes, its complications and associated diseases, including:

- Medical & Surgical Specialists
- Medical and Health Officers
- Pharmacists
- Diabetes Educators
- Medical Assistants
- General Practitioners
- Trainee Lecturers
- Nursing Practitioners
- Dietitians / Nutritionists

Clinic Diabetes is an interactive Course to be conducted by Key Opinion Leaders (KOLs) in the respective fields. It will be based on discussion of relevant clinical cases to define best option in the management of diabetes, associated diseases and complications.

CPD points
will be applied

Audience participation Participants Input

The audience is expected to participate in the discussion by asking questions and providing opinions orally or via Slido.

Participants are encouraged to submit their (problem, interesting) cases for discussion.

Participants whose cases are **ACCEPTED** for discussion will be given free registration to attend the Course. He/she will also be invited to provide additional information as resource person, during the case discussion.

Twelve sessions are planned *

- Session #1: Diagnosing IFG, IGT and Diabetes
- Session #2: Treating Diabetes 1: Oral Medications
- Session #3: Treating Diabetes 2: Injectables
- Session #4: Managing Diabetes in Pregnancy
- Session #5: Diabetes in Children
- Session #6: Treating Associated Conditions: Hypertension and Hyperlipidaemia
- Session #7: Treating Associated Conditions: Obesity in Diabetics
- Session #8A: Microvascular Complications: The Eyes
- Session #8B: Microvascular Complications: The Feet
- Session #9: Diabetic Kidney Disease: Prevention and Management
- Session #10: Strategies for Diabetes Remission
- Session #11: Diabetes with Heart Disease
- Session #12: The Complicated Cases: Prioritising and Optimising Management

*Subject to change

The Course is divided into Sessions. Each session shall start with short presentation to highlight specific features and significance of a condition followed by presentation of 1-3 relevant cases for discussion by a Panel of KOLs in the specific field(s) of interest.
