Neurosurgeon
Greifswald/Germany

Hans Rudolf Briner, MD
Rhinosurgeon
Zurich/Switzerland

Nicholas Thomas, MD
Neurosurgeon
London/UK

Peter Kurucz, MD
Resident Neurosurgery
Stuttgart/Germany

The ENDOMIN College team is pleased to announce this new generation dissection course on endoscopic and minimally invasive neurosurgery which is dedicated to neurosurgeons with valuable basic neuroendoscopic experience.

Practically oriented lectures, extensive hands-on dissection on special human cadavers and transmission of interesting live surgeries provide valuable knowledge and important tips and tricks to improve neuroendoscopic skills and give instructions for avoiding surgical complications.

ORGANIZATION

Bianca Weimert
COO ENDOMIN-College GmbH
Stuttgart/Germany

VENUE

KARL STORZ GmbH & Co. KG
Visitor and Training Center Berlin
Scharnhorststraße 3, 10115 Berlin

COURSE OBJECTIVES & HIGHLIGHTS

- hear practically oriented lectures on modern minimally invasive neurosurgery
- participate in a step by step planning of complex procedures
- learn practical tips and tricks to avoid complications
- perform extensive hands-on dissection on special human cadavers
- practice various transcranial, ventricular and transnasal keyhole approaches
- experience a new full HD camera platform during dissections
- understand how to introduce neuroendoscopy in your particular practice
- watch live surgeries transmitted from Endomin Center Hirslanden Zurich
- benefit from the experience of the course directors in teaching 500 participants
- enjoy an intensive exchange with a distinct international faculty

COURSE FEE

- Course fee **1.490 €** + VAT 19%
