

Georgia Society of Oral and Maxillofacial Surgeons

SUMMER MEETING

August 12-14

RITZ-CARLTON REYNOLDS: LAKE OCONEE, GA

"Bone Grafting to Facilitate Implant Placement: Sinus Lift Procedures and Ridge Augmentation Procedures"

George R. Deeb, DDS, MD, FACS

*"Soft Tissue Grafting Around Teeth and Implants
Peri Implantitis: Etiology and Treatment"*

Janina Golob Deeb, DMD, MD

"Medication Related Osteonecrosis of the Jaws"

Eric R. Carlson, DMD, MD, EdM, FACS

OUR SPEAKERS AND PROGRAM

George R. Deeb, DDS, MD, FACS

Dr. George R. Deeb is a Professor in the Department of Oral and Maxillofacial Surgery at Virginia Commonwealth University School of Dentistry, where he serves as the Vice Chairman and Director of the Graduate and Undergraduate Dental Implant Programs.

Dr. Deeb earned his Doctor of Dental Surgery at the University of Colorado Health Sciences Center, graduating in 1995. He continued his education at Oregon Health Sciences University, where he graduated with a Doctor of Medicine in 1998 and received his certificate in Oral and Maxillofacial Surgery in 2001. Prior to joining VCU in 2013, Dr. Deeb practiced in Tucson, Arizona as a partner in a group surgery practice. Highly engaged in his profession, Dr. Deeb has published over 40 peer reviewed articles and book chapters, and lectured at national and international meetings. He is a Diplomat of the American Board of Oral and Maxillofacial Surgery, Fellow of the American College of Surgeons, and a Fellow in the Academy of Wilderness Medicine.

"Bone Grafting to Facilitate Implant Placement: Sinus Lift Procedures and Ridge Augmentation"

Bone Grafting: Inadequate bone volume is a common finding in dental implant reconstruction. This lecture will review evidence-based procedures and minimally invasive approaches available to the oral and maxillofacial surgeon to perform sinus lifts procedures and horizontal ridge preservation and augmentation.

Sinus Lift Procedures: Topics will include pt evaluation, CBCT interpretation, contraindications to treatment, traditional lateral window approach, crestal techniques, grafting materials and the role of biologics.

Ridge Augmentation: Topics will include "open" grafting, ridge expansion and horizontal ridge augmentation using particulate graft with GBR/tenting screws, tunneling techniques and bone cores/blocks. Case presentations and technique videos will include discussion of cone beam computed tomography anatomic considerations, the role of barriers and biologics as well as materials utilized for the procedures.

Janina Golob Deeb, DMD, MD

Dr. Janina Golob Deeb received her dental degree from the University of Ljubljana, Slovenia in 1996. Following graduation she completed a year of internship at University of Ljubljana. She continued her education

at Oregon Health Sciences University. She received a certificate in Periodontology in 2000 and a Masters degree in Oral and Molecular Biology in 2001.

Dr. Golob Deeb practiced in Vancouver, Washington and Tucson, Arizona for 13 years before moving to Richmond, Virginia in 2013, where she continued her career in academic dentistry at Virginia Commonwealth University School of Dentistry. Dr. Golob Deeb is director of Predoctoral Periodontics at VCU and works as clinical faculty in AEGD and undergraduate and graduate periodontal clinics.

Dr. Golob Deeb is a board certified periodontist and holds licenses in Virginia, Arizona, Oregon and her native Slovenia. She continues to practice part-time in the Faculty intramural practice at the Virginia Commonwealth University.

"Soft Tissue Grafting and Peri-Implantitis: Diagnosis and Treatment Options"

Soft Tissue Grafting

The presence of healthy soft tissue surrounding implants is accomplished through careful planning and a variety of corrective grafting procedures. Materials of autogenous, allogenic and xenogenic sources are used to modify deficient soft tissue and can be performed during all stages of surgical or restorative therapy. The lecture will describe classifications of soft tissue defects, techniques and materials used for grafting to augment soft tissue, enhance esthetic outcomes and correct soft tissue deficiencies around implants.

Peri-Implantitis: Diagnosis and Treatment Options

Understanding the etiology, indications and treatment modalities for peri-implantitis to achieve optimal esthetics, function and maintenance of implants is an essential component of implant practice. The lecture will describe diagnosis and etiology of peri-implantitis and review treatment modalities and prognosis for implants affected by peri-implantitis.

Eric R. Carlson, DMD, MD, EdM, FACS

Dr. Eric R. Carlson is Professor and the Kelly L. Krahwinkel Endowed Chairman of the Department of Oral and Maxillofacial Surgery at the University of Tennessee Graduate School of Medicine in Knoxville where he also directs the fellowship program in head and neck oncologic

surgery. He is a native of Newton, Massachusetts and obtained his bachelor's degree in biochemistry from Connecticut College. He obtained his dental degree from the University of Pennsylvania and his medical degree from the University of Miami. He performed his oral and maxillofacial surgery residency training at Allegheny General Hospital in Pittsburgh and his fellowship training in oral/head and neck tumor surgery at the University of Miami/Jackson Memorial Hospital. He completed his general surgery training at the University of Tennessee Medical Center in Knoxville. Dr. Carlson is a fellow of the American Association of Oral and Maxillofacial Surgeons and a fellow of the American College of Surgeons. In 2018 he received his master's degree in education at Harvard University, the focus of which was faculty development.

"Medication Related Osteonecrosis of the Jaws"

Medication related osteonecrosis of the jaws (MRONJ) represents an enigmatic and highly controversial pathologic entity that is very familiar to oral and maxillofacial surgeons. It is the purpose of this lecture to discuss the history, pathogenesis, staging, and treatment of this fascinating diagnosis seen in cancer and osteoporotic patients. In doing so, the recently published American Association of Oral and Maxillofacial Surgeons' fourth edition of the MRONJ Position Paper will

be discussed. An emphasis will be placed on what we have forgotten about osteonecrosis of the jaws in general, while emphasizing consideration for, and execution of surgery for this diagnosis.

Learning Objectives:

At the end of this session, the participant should be able to:

(1) Discuss the history of medication related osteonecrosis of the jaws, including its original discovery and nomenclature;

(2) Enumerate the suggested pathophysiologic mechanisms for MRONJ; (3) Discuss the significance of medical comorbidity in determining treatment strategies for MRONJ; (4) Formulate treatment options for MRONJ patients; (5) Distinguish the success rates of surgical vs. non-surgical therapy for MRONJ; and (6) Discuss the selection of soft and hard tissue reconstruction of defects of the maxilla and mandible for MRONJ patients.

SCHEDULE

FRIDAY, AUGUST 12

3:00 pm - 5:00 pm

Exhibitors Setup

3:00 pm - 5:00 pm

Registration

6:00 pm

Welcome Reception (all welcome)

SATURDAY, AUGUST 13

7:00 am - 8:00 am

Registration, Breakfast with Exhibitors

8:00 am - 10:00 am

Session: Bone Grafting to Facilitate Implant Placement: Sinus Lift Procedures and Ridge Augmentation

George R. Deeb, DDS, MD, FACS

Director of Resident and Undergraduate Dental Implant Program

Professor, Department of Oral and

Maxillofacial Surgery

Virginia Commonwealth University

School of Dentistry

Richmond, VA

10:00 am - 10:30 am

Break with Exhibitors

10:30 am - 12:30 pm

Session: Soft Tissue Grafting and Peri-Implantitis: Diagnosis and Treatment Options

Janina Golob Deeb, DMD, MD

ABP, Diplomate

Associate Professor

Director, Predoctoral Periodontics

Department of Periodontology

VCU School of Dentistry

Richmond, VA

12:30 pm - 1:30 pm

Business Session

Lunch Provided for those who attend

SUNDAY, AUGUST 14

7:00 am - 8:00 am

Registration, Breakfast with Exhibitors

8:00 am - 10:00 am

Session: Medication Related Osteonecrosis of the Jaws

Eric R. Carlson, DMD, MD, FACS

Professor and Chair

Department of Oral and Maxillofacial Surgery

University of Tennessee Graduation School of Medicine

Knoxville, TN

10:00 am - 10:30 am

Break with Exhibitors

10:30 am - 12:30 pm

Session: Medication Related Osteonecrosis of the Jaws continues

Eric R. Carlson, DMD, MD, FACS

12:30 pm

Conference Adjourns

GENERAL INFORMATION

Ritz-Carlton Reynolds, Lake Oconee
1 Lake Oconee Trail
Greensboro, GA 30642

HOTEL ACCOMODATIONS

We have reserved a block of rooms at the Ritz Carlton Lodge featuring several restaurants, a championship golf course, tennis center, pool, a full service spa, fitness center, on site cultural and historical center with activities, children and teen programs, water sports, a nearby equestrian center and clay shooting range.

Set on 8,000 wooded acres along the banks of Lake Oconee, the Ritz-Carlton Lodge, Reynolds Plantation draws on local history and tradition. With its spectacular natural settings, and gracious Southern hospitality, it's an experience like no other. We encourage all of our members to stay overnight in order to participate in all that the resort has to offer. For the Ritz-Carlton experience, long onto www.ritzcarlton.com The concierge may also assist you with any amenity you choose. 706.467.7130.

Deadline for hotel reservations is **June 27** or until the room block is full. Rooms are limited, so we urge you to respond today.

For hotel reservations, register online at:

<https://bit.ly/3MrKHfw>

or call 706-47-7109. Room rate is \$499 for single/double occupancy.

RESORT ACTIVITY PACKAGE

The Ritz-Carlton Lodge offers an optional Resort Activity Package for \$40 per room, per night plus state and local taxes that includes these amenities: overnight valet parking for one vehicle; guest internet access; local, long distance and domestic phone calls; 24-hr. use of the business center; tennis court usage (reservations required); scheduled daily morning fitness class; bicycles; non-motorized lake activities (kayaks, canoes, yolo boards); dock and bank side fishing in the lake; shuttle service to the golf courses; and access to driving ranges, putting greens, range balls and Taylormade golf club rentals.

CONFERENCE REGISTRATION

To register for the GSOMS summer meeting, please type the link into your browser and follow the directions.

<https://bit.ly/38FjirJ>

or go to the GSOMS website www.ga-oms.org.

You must indicate if you are a member of the GSOMS Educational Trust. Please register your spouse and all guests. If you do not know, please contact the administrative office at 770.271.0453.

GSOMS Educational Trust Member: \$200
(Contributed or pledged \$1,000 or more to Trust)

Member, Non Trust: \$300 (you have not contributed \$1,000 to Trust)

Associate Member: \$200

Retired / Life Member: \$150

Provisional Member (Candidates for Membership)
No Charge

AAOMS Officer: \$150

Non-Member: \$350

CONTINUING EDUCATION

A continuing education certificate for 8.0 hours will be available at the end of the seminar.

CONFERENCE ATTIRE

Business casual attire is appropriate throughout the conference.

TRAVEL

The Ritz-Carlton Lodge is located just more than an hour from Atlanta. Detailed directions can be located on their website at www.ritzcarlton.com/resorts/reynolds_plantation/.
