

40TH ANNUAL MEETING
FLORIDA SOCIETY OF
DERMATOLOGIC SURGEONS

ADVANCES IN DERMATOLOGIC SURGERY™

THE BREAKERS
OCTOBER 29-31, 2021

APPROVED FOR AMA PRA CATEGORY 1 CREDITS™

A MESSAGE FROM OUR PRESIDENT

As the President of the Florida Society of Dermatologic Surgeons, it is with great pleasure to invite you to attend the 40th Annual Meeting of the Florida Society of Dermatologic Surgeons, "Advances in Dermatologic Surgery" in Palm Beach, Florida from October 29-31. This meeting is based at The Breakers, Palm Beach. It is an understatement to say that this has been a challenging year for all of us. The burden of COVID-19 on our practices and patients has taken a toll but this meeting confirms a sense of optimism and is a wonderful chance for FSDS friends and colleagues to all meet again to exchange ideas and meet in fellowship together. The majority of the presentations that we will hear were planned over a year ago and were to take place in 2020. This meeting is going to be twice as fantastic with a culmination of two years of planning.

I want to thank Shawna Flanagan for her leadership last year, FSDS Program Chairs, Terrence A. Cronin, Jr., MD, Keyvan Nouri, MD and the FSDS Board of Directors for their hard work in putting together an outstanding program. This program includes exceptional keynote speakers, diverse panel discussions, and a combination of presentations and videos that will bring the latest in dermatologic surgery to better yourself and your practice. This meeting will have everything from medical dermatology to dermatologic surgery, to cutaneous oncology to cosmetics and practice management all covered by our nationally renowned speakers as well as our home-grown experts.

The 2021 FSDS Annual Meeting will feature celebrity Dermatologist and pop-cultural phenom Sandra Lee, M.D. also known as Dr. Pimple Popper. In addition to her popular show on TLC, Dr. Lee has been on several other television shows including "The Doctors", "Hallmark's Home and Family" and "Studio 11 L.A.". We anticipate a thoroughly entertaining and educational presentation at our meeting this October.

This meeting is based at the Breakers Resort in Palm Beach, an original 1890's Henry Flagler creation that has been re-built and remodeled through the years hosting early 20th Century industrialist, bankers, United States Presidents and world leaders. Take advantage of its luxury, first-class service and all the amenities during your stay!

Drawing a parallel to a worldwide pandemic a century ago and another in our midst currently we will celebrate the emergence from this disaster by welcoming in "The Roaring 20's", just as our ancestors did just over 100 years ago! Be prepared to celebrate! I strongly encourage you to attend, it will be a wonderful weekend!

A handwritten signature in black ink, which appears to read "James J. DeVoursney". The signature is fluid and cursive, with a large loop at the end.

James J. DeVoursney, M.D.
President, Florida Society of Dermatologic Surgeons

PROGRAM INFORMATION

Course Overview

Advances in Dermatologic Surgery™

- An educational program designed to give dermatologic surgeons the opportunity to gain knowledge on the latest and most advanced techniques of dermatologic surgery.
- Includes didactic lectures presented by national and international experts, live demonstrations plus time for informal sharing of information.
- Topics include the diagnosis and treatment of various skin cancers, wound closures, reconstructive surgery, advances in injectables and fillers, Mohs surgery, laser treatments for skin conditions, dermatopathology and other related topics.

Target Audience

This course is designed for Dermatologic Surgeons, Dermatology Residents, Otolaryngologists, Plastic Surgeons and Ophthalmologists who are interested in dermatologic surgery.

Practice Administrators should plan to attend the program dedicated to their specialty. Please visit <https://fsds.org/event/pradmin2021> for more information.

Course Objectives

Upon conclusion of this program, participants should be able to:

- incorporate new laser treatments for more effective treatment of skin conditions
- discuss the advantages/disadvantages of various reconstruction options
- identify new filler techniques and discuss how to treat reactions caused by fillers
- interpret aesthetics in dermatology
- integrate new ideas for treating various skin cancers for optimal patient outcome

Disclosure and Conflict of Interest Resolution

All conflicts of interest of any individual(s) in a position to control the content of this CME activity will be identified and resolved prior to this educational activity being provided. Disclosure about provider and faculty relationships, or the lack thereof, will be provided to learners.

Services for the disabled

If special arrangements are required for an individual with a disability to attend this conference, contact Florida Society of Dermatologic Surgeons at 904.292.0051 or fsds@fsds.org

CME Credit Hours

This activity has been approved for AMA PRA Category 1 Credits™

PROGRAM INFORMATION

We look forward to providing the opportunity for continuing education and connecting in 2021!

What's Included
