

NEXT GENERATION Genomic Technologies & Bioinformatics

01 - 02 March 2019 • Chandigarh, India

EXCLUSIVE TRAINING ON NGS TECHNOLOGY

About:

This training program not only aims to make participants walk-through arena of NGS by genome experts but also to create an genomic ecosystem for experiential learning in real time including **live-demo of sample loading in NGS instrument, obtaining results and data analysis.**

Training Course Topics:

- Next Generation Genomics and Future Workforce
- Demonstration: Sample collection, DNA isolation, and Quality Check
- NGS Library Preparation and Sequencing
- Intellectual property Rights and Genomics
- Introduction to Digital Genomics & Bioinformatics
- Linux/Ubuntu/Computing Languages
- Whole Genome Sequencing Assembly and Annotation
- Genome Browser and other essential software Navigation through NCBI/Genbank

Who Should Attend:

The training course is designed for Students, Faculty and Scientists from Academia & Industries including Life Sciences, Biology, Computer, Medicine, Agriculture, Veterinary, Environmental Science & any other disciplines.

Registration:

- Student/Research Scholar/Resident Doctor INR 5000
- Faculty/Academic Scientist/Lab Delegate INR 8000
- Industry Scientist INR 12000

The prices are subject to GST @ 18% which will be added to the above mentioned rates.

Resource Persons

- **Dr Malali Gowda**
The University of Trans-Disciplinary Health Sciences & Technology, India
- **Dr Pruthvi Chakravarthi T** Bangalore Genomics Centre, India
- **Ms Divya RB**
The University of Trans-Disciplinary Health Sciences & Technology, India

Venue

HOMETEL CHANDIGARH

Plot No. 147, 148,
Industrial Area
Phase I,
Chandigarh
