COURSE INTRODUCTION

Course Overview

Viral hepatitis is the seventh leading cause of death in the world, killing more people than traffic injuries, HIV and AIDS, or diabetes. Every year chronic viral hepatitis, of which hepatitis B and C are the most common forms, kills a million people, roughly 20,000 of them in the United States. These deaths could be prevented. Hepatitis B vaccine conveys 95 percent immunity, and new therapies for hepatitis C cure the vast majority of patients. A report from the National Academies of Sciences, Engineering, and Medicine, released on April 11, 2016 concluded that both hepatitis B and C could be rare diseases in the United States, but there are substantial obstacles to meeting this goal. Many of those obstacles have implications for public policy -- which has clearly not kept pace with the depth of the problem.

Eliminating hepatitis B as a public health problem in the US presents some critical factors and some crosscutting barriers to be addressed. Those that bear a direct relationship to public policy include training physicians to manage hepatitis B. Similarly, with hepatitis C, its elimination as a public health problem in the US also presents critical factors and crosscutting barriers that will need to be addressed. Among those that are public policy oriented are increasing access to treatment and raising hepatitis C as a public priority.

The lack of awareness about the prevalence of chronic viral hepatitis in the United States and about the proper methods and target populations for screening and medical management of chronic hepatitis B and hepatitis C contributes to continuing transmission; missing of opportunities for prevention, including vaccination; missing of opportunities for early diagnosis and medical care; and poor health outcomes in infected people.

The Scripps National Hepatitis B & C Training Program and Treatment Update will contribute towards increasing the number of health care practitioners educated on the prevalence of chronic viral hepatitis, as well as those properly preventing, diagnosing, treating, and/or referring patients with chronic illness; therefore contributing towards prevention of new cases and improved management of already infected patients.

Educational Objectives

After attending this live activity, participants should be able to:

- Discuss the prevalence and incidence of acute and chronic hepatitis B and hepatitis C both in the general US population and in at-risk populations.
- Review the history, epidemiology, demographics, natural history, histology, immunology and pathophysiology of the viral infection.
- Discuss state-of-the-art diagnostic and treatment guidelines for both hepatitis B and C.
- Formulate and/or implement strategies for preventing, diagnosing, treating, and/or referring patients with HBV and/or HCV.
- Evaluate the multidisciplinary team approach to care of patients with hepatitis B and C.
- Establish a local network of practitioners for information sharing, referrals, etc.
- Improve the health of patients infected with the HBV and/or HCV virus.

Accreditation

Physicians (MD/DO)

Scripps Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Scripps Health and SC Liver Research Consortium. Scripps Health is accredited by the ACCME to provide continuing medical education for physicians.

Scripps Health designates this live activity for a maximum of 7 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Nurses

For the purpose of recertification, the American Nurses Credentialing Center accepts *AMA PRA Category 1 Credit(s)*[™] issued by organizations accredited by the ACCME. For the purpose of relicensure, the California Board of Registered Nursing accepts *AMA PRA Category 1 Credit(s)*[™]. The majority of state boards accept *AMA PRA Category 1 Credit(s)*[™] as meeting continuing education requirements for license renewal. Nurses should check with their state's Board of Registered Nursing regarding use of CME credit.

Physician Assistants

The American Academy of Physician Assistants accepts Category 1 credit from *AMA Category 1 CME* organizations accredited by the ACCME.

Disclosure

Commercial Support

This course is supported, in part, by educational grants from industry, in accordance with ACCME accreditation Standards for Commercial Support. Appropriate acknowledgement will be given to all supporters at the time of the educational activity.

FACULTY & LOCATION INFORMATION

July 23, 2016

San Diego, California

San Diego Marriott La Jolla
4240 La Jolla Village Dr
La Jolla, CA 92037
Phone: (858) 587-1414

Paul Pockros, MD

Faculty Disclosure

In accordance with the ACCME Standards for Commercial Support, course directors, planning committees, faculty and all others in control of the educational content of the CME activity must disclose all relevant financial relationships with any commercial interest that they or their spouse/partner may have had within the past 12 months. If an individual refuses to disclose relevant financial relationships, they will be disqualified from being a part of the planning and implementation of this CME activity. Owners and/or employees of a commercial interest with business lines or products relating to the content of the CME activity will not be permitted to participate in the planning or execution of any accredited activity.

ABOUT US

Scripps Health, a nonprofit health care system based in San Diego, California, includes more than 2,600 affiliated physicians and over 13,000 employees at five acute-care hospital campuses, home health care services and a network of clinics, physician offices and outpatient centers. Scripps is committed to contributing to the future of medicine through its clinical research trials, graduate medical education and continuing medical education programs. More information can be found at www.scripps.org.

SC Liver Research Consortium (SCLRC) is an organization of physicians specializing in hepatology and gastroenterology clinical research. Our mission is to team research sponsors and our network of over 85 research sites together to provide faster, higher-quality research results compared to the "conventional" sponsor-site arrangement. We provide access to our scientific expertise in study design, efficient site selection, streamlined contract and budget negotiations, and management assistance throughout the clinical trial. www.scliver.com

2016 NATIONAL HEPATITIS B & C TRAINING PROGRAM

Hepatitis C

We will review the virology, genotypes, modes of infection of HCV and characteristics of the clinical illness caused by acute and chronic infections. Birth-cohort screening will be outlined. Tests for HCV, including PCR assays and genotyping, interpretations and indications for liver biopsies and complications of cirrhosis will all be discussed. We will show how to initiate and monitor patients during treatment with all-oral antiviral treatments for hepatitis C, manage drug-drug interactions and deal with various patient populations including Pre- and Post-liver transplant, HIV-coinfected and interferon-intolerant patients. New drugs in development including protease inhibitors, nucleoside/tide and non-nucleoside polymerase inhibitors, NS5A inhibitors, and other novel agents will be discussed. We will outline all-oral regimens in development and discuss their likely approval indications.

- 7:30 a.m.** Registration, Breakfast and View Exhibits
- 8 a.m.** **Review of Viral Hepatitis, Discovery of HCV and Natural History**
- 8:50 a.m.** **Diagnostic Testing, Screening, Histology, Cirrhosis and Liver Biopsy**
- 9:45 a.m.** Break & View Exhibits
- 10:15 a.m.** **All Oral IFN-Free Regimens**
- 11 a.m.** **Updated Data from EASL 2016**
- 11:30 a.m.** **Clinical Case Studies: HCV**

Hepatitis B

We will summarize the history and discovery of HBV infection, discuss the modes of infection and prevalence of disease, and differentiate between acute and chronic infections. We will discuss protective antibodies, vaccination, complications of cirrhosis and hepatocellular carcinoma, tests for HBV, including PCR assays, genotyping and mutation analysis. Update the latest results of trials with nucleoside and nucleotide analogues for the treatment of chronic HBV including entecavir, tenofovir pegylated interferons and combination regimens. We will include the latest AASLD guidelines for diagnosis, screening and treatment of chronic hepatitis B.

- 12:30 p.m.** Lunch & View Exhibits
- 1:30 p.m.** **Diagnostic Testing, Liver Biopsy, Cirrhosis and Hepatocellular Carcinoma**
- 2 p.m.** **Nucleoside/Nucleotide Analogues & Pegylated Interferons for HBV**
- 2:40 p.m.** **Guidelines for the Prevention, Care and Treatment of Persons with Chronic Hepatitis B Infection**
- 3 p.m.** Break & View Exhibits
- 3:30 p.m.** **Hepatitis B: The Slow March Towards a Cure**
- 4 p.m.** **Case Studies in Hepatitis B**
- 5 p.m.** Final Adjournment

REGISTRATION

2016 NATIONAL HEPATITIS B&C TRAINING PROGRAM and TREATMENT UPDATE

Includes: Course tuition, access to online conference materials, internet in meeting space, breakfast, breaks and lunch

Does not include: Travel costs, lodging and parking

	Pre-Registration	Onsite Registration
Registration Fees	\$90 ends Tuesday prior to program date	\$105 begins Wednesday prior to program date
Locations:	San Diego, CA - July 23, 2016 Irvine, CA - September 10, 2016 Weehawken, NJ - September 17, 2016 Los Angeles, CA - October 8, 2016	New Orleans, LA - August 27, 2016 Denver, CO - September 17, 2016 Dallas, TX - October 1, 2016 Chicago, IL - October 15, 2016

Register Online

Questions

Scripps Conference Services & CME
858-652-5400

Attendance Policies

Attendee Cancellation, Substitution, Refund

The course tuition is refundable, minus a \$25 processing fee, if your cancellation is received in writing no later than one week prior to the conference date. Attendee substitutions are allowed, but notification must be made in writing within one week of conference date. After this date, under no circumstances will refunds, credits, or substitutions be granted. No refunds or credits will be given to "no shows."

Scripps Conference Modification or Cancellation

Scripps reserves the right to modify the course's schedule or program as necessary. Scripps also reserves the right to cancel this conference, in which case a full refund of the registration fee will be provided. We are unable to refund any travel costs (flight, hotel, etc.) in the case of Scripps cancellation.
