Go **ANESTHESIOLOGY**[®] 2016

Dear friends,

The ANESTHESIOLOGY 2016 annual meeting offers unparalleled educational, networking and business development opportunities. This five-day meeting is so highly regarded that more than 15,000 attendees travel from 90 countries to attend and participate – making it the largest educational event in anesthesiology in the world. We're excited to invite you to be part of it.

To ensure attendees have a valuable experience year after year, we have responded to feedback by expanding, enhancing and creating new educational offerings in 2016. This year, we will be highlighting:

- **A renewed focus on science.** Mark your calendars for the Severinghaus and Rovenstine lectures presented by Drs. Daniel I. Sessler and David H. Chestnut, leaders in the scientific community. Journal events such as the Major Trials session, Best of Basic and Clinical Science Sessions, the Journal symposium, as well as the Celebration of Research will showcase recent discoveries and advances. Over 1200 Abstract e-Posters and 1,100 Medically Challenging Cases will be presented by members of the scientific community. Twitter feeds will be available for Young Scholars, residents and medical students to facilitate networking and an exchange of ideas within the scientific community.
- **We are very excited to welcome our 2016 Keynote Speaker**, Michael E. Porter from the Harvard Business School who will be speaking on *The Future Perioperative Physician: Leaders in Value-Based Health Care Delivery*. Mr. Porter has brought economic theory and strategy concepts to bear on many of the most challenging problems facing corporations and societies.
- **The newly improved meeting flow** with concurrent sessions and featured morning lectures will allow attendees to start the day together. By popular demand there are two new clinical tracks with additional educational offerings – Geriatric Anesthesia and Perioperative Medicine.
- **Come Together for a Cause!** Enjoy a night of fun, food, friends and fundraising benefiting the Anesthesia Patient Safety Foundation, ASA Charitable Foundation, Foundation for Anesthesia Education and Research, and the Wood-Library Museum of Anesthesiology. This “Sixties” themed event will provide a great opportunity to meet new friends and reconnect with colleagues while supporting our foundations.
- **Coffee breaks and lunches** are planned for the Connection Center so attendees can recharge in the Connection Lounge, explore the Exhibit Hall and visit the ASA Resource Center.

- **Foreign Language PBLDs** will be offered for the first time in Spanish, Portuguese, Chinese and Japanese for our international and foreign-language attendees.
- **The very popular Self-Study Program** will be continued to help attendees maximize their time and continuing medical education (CME) while at the meeting. These immersive self-study opportunities are designed to help attendees increase their competence in their clinical area of focus.
- **Use the NEW! Educational Program Planner** to browse sessions and make your wish list itinerary.
- **Make sure to download the ASA® My Meeting app** to navigate the meeting and enhance your overall experience. Available early October.

The goal of the ASA is to respond to the changing educational needs of its members whether this is through additional workshops, simulation or electronic media. ASA is committed to providing attendees with an amazing experience. The ANESTHESIOLOGY 2016 annual meeting is sure to exceed your expectations in every way. With over 600 educational sessions that cross 12 clinical tracks, you are invited to participate in seminars, refresher course lectures, panels, pro-con debates, clinical forums, hands-on workshops, scientific abstract posters and presentations, and medically challenging cases. This meeting offers something for everyone.

We look forward to seeing you there,

Daniel J. Cole, M.D.
ASA President

Brenda A. Gentz, M.D.
Chair, Committee on Annual Meeting Oversight

Welcome from your local host

Dear Friends,

I am excited to invite you to Chicago – the “Windy City.” With 18 miles of lakeshore trails, high-end shops and a variety of restaurants famous for their food, Chicago is a beautiful city that offers fun attractions for all ages.

As your local host, I encourage you to take advantage of the tours ASA has arranged. If those tours don't appeal to you, a few of my favorite local attractions include:

- Chicago architecture tours
- The Field Museum – Home to more than 20 million artifacts and specimens including the world's most complete Tyrannosaurus Rex Skeleton
- The Art Institute of Chicago
- Shedd Aquarium and Adler Planetarium
- Michigan Avenue offers 460 stores and 275 restaurants

These are all within 15 minutes of the hotels. If these don't interest you, you can browse the meeting website for additional attractions. Chicago is a great city, so grab your colleagues and head out for a night on the town. Be sure to pack good walking shoes.

I'll see you when you get here,

Jeffrey L. Apfelbaum, M.D.
ANESTHESIOLOGY 2016 Local Host

Be part of it!

Take a look at what's new or enhanced at the various opportunities to connect with your peers, and be part of the ANESTHESIOLOGY 2016 experience.

- **Come Together for a Cause** and enjoy a night of fundraising, food and fun with friends. Learn more on page 12.
- **Two NEW Clinical Tracks** (full Clinical Track listing on page 7) Geriatric Anesthesia and Perioperative Medicine.
- **Save \$100** book your hotel with the ASA housing block.
- **Self-Study Program** – Maximize your CME while at the meeting.
- **ASA My Meeting app** – Navigate the meeting with ease using the newly enhanced ASA My Meeting app! Available early October.
- **Welcome and Wine Reception** – Kick off the annual meeting during this enjoyable affair and meet other attendees, visit with ASA Corporate Supporters and engage with exhibitors to learn about the latest in anesthesiology.
- **Affiliated Subspecialty Society Pavilion** – Connect with affiliated subspecialty societies and learn more about their meetings, activities and membership opportunities.

NEW! Educational Program Planner – Explore educational sessions, Scientific Abstracts and Medically Challenging Cases to create your wish list before accessing the registration site using the new Educational Program Planner! Search by day, track or presenter to make registration faster and easier.

EXPERIENCE **ANESTHESIOLOGY 2016**

Keynote Speaker

Michael E. Porter
Harvard Business School
*Author of **Redefining Health Care: Creating Value-based Competition on Results***

Widely recognized as the father of modern business strategy, Professor Michael Porter is a renowned economist and according to Fortune “the most famous and influential business professor who has ever lived.” A leading authority on company strategy and strategic approaches

to societal problems, Professor Porter's work is renown in governments, corporations, non-profits and academic circles across the globe. A sought after teacher and the author of 19 books and more than 125 articles, his research has received numerous awards, and he is the most cited scholar today in economics and business. While Professor Porter is, at the core, a scholar, his work has also achieved remarkable acceptance by practitioners across multiple fields.

Welcome Reception

Saturday, October 22 | 5:15-6:30 p.m.

Kick off ANESTHESIOLOGY 2016 with your colleagues during this enjoyable affair within the Connection Center at McCormick Place. The Welcome and Wine Reception is your chance to meet other attendees, visit with ASA Corporate Supporters and engage with exhibitors to learn about the latest in anesthesiology.

A Global Perspective

More than 100 world-class presenters and notable physician anesthesiologists from around the world gather to educate and unite the specialty on a global scale.

Brazilian Society of Anesthesia/São Paulo State Society of Anesthesiologists Panel

This international panel will provide an updated view of the POCD and delirium, with special emphasis on diagnosis and monitoring. Addressed will be the epidemiology of POCD, its time course, and measurement. Current knowledge regarding the association of POCD with delirium, surgical intervention, anesthetic technique and postoperative morbidity/mortality will be discussed, in addition to the importance of EEG monitoring to the prevention of POCD and delirium.

Chinese Society of Anesthesiology Panel (CSA Panel)

Presentations will provide a varied update on the latest development in anesthesiology in China, summarizing an overview describing how clinical research training is carried out in China. Address the present situation of education and basic research training in anesthesiology. Presenters will provide a valuable opportunity for anesthesiologists worldwide to have a deep knowledge on contribution and progress of China in anesthesia.

European Anaesthesiology Highlights 2016 (ESA Panel)

Presenters will describe and evaluate how anaesthesiologists are perceived in Europe, address the potential harm of widespread European medications in anaesthesiology, and discuss ongoing and future research under the umbrella of the European Clinical Trial network.

Pain Management – An International Perspective (WFSA Panel)

This session shares a global perspective about major opportunities and challenges in pain management. Speakers will address why acute pain becomes chronic pain; how to educate clinicians about pain management; the challenges in establishing a multidisciplinary approach to pain management; palliative pain management, a forgotten entity, and the challenges especially in Africa.

International Connection Lounge

Relax, enjoy a cup of coffee and talk to your colleagues in the International Connection Lounge. Interpreters and printed Certificates of Attendance will be available.

Global Scholars

The ASA Charitable Foundation Global Scholars Program supports young leaders in the specialty from low- and middle-income countries who want to participate in the ASA annual meeting. This program provides an opportunity to support the professional development of young leaders with fewer resources and the development of the medical specialty of anesthesiology overseas. The 2016 scholars will present posters from 3:15-5:15 p.m. on Saturday, October 22, as part of the Medically Challenging Cases, focusing on the practice of anesthesiology and patient safety in very different environments.

PLENARY LECTURES

Start the day together.

Ellison C. Pierce Memorial Lecture: Patient Safety Beyond Our Borders: Different and the Same

Saturday, October 22 | 10:45-11:45 a.m.

Presented by: Alexander A. Hannenberg, M.D.

The Pierce Lecture will focus on ways to improve the risks of anesthesia and surgery in low-resource settings, the opportunities to advance the safety of surgical patients in those settings and the ways in which they relate to safety initiatives, past and present, in the developed world.

Society for Airway Management Ovassapian Lecture: Airway Management in 2016 and Beyond: New Knowledge, New Drugs and New Techniques

Sunday, October 23 | 7:45-8:45 a.m.

Presented by: Michael S. Kristensen, M.D.

Airway management is rapidly changing. An abundance of new techniques calls for a paradigm-shift in airway evaluation and in the subsequent planning for airway management, including a clear understanding of the present role of awake intubation. Ultra-rapid reversal of neuromuscular blockade is now possible, presenting new possibilities, but can also lead to a false sense of safety. In the lecture, Dr. Kristensen will discuss what can and cannot be managed by these drugs. Access to the airway via the anterior neck is the ultimate escape in airway management, but the outcome of this procedure in the hands of physician anesthesiologists is unsatisfactory. New techniques, including bedside ultrasonography by the physician anesthesiologist, allow us to be better prepared for this solution.

Lewis H. Wright Memorial Lecture: America's Doctor Anaesthetists (1862-1936): Turning a Tide of Asphyxiating Waves

Sunday, October 23 | 8-9:15 a.m.

Presented by: George S. Bause, M.D., M.P.H.

By the 1920s, 100 percent nitrous oxide administered in 1- to 2-minute waves first induced general anesthesia and relaxed many patients' muscles. As Dr. Bause reflects, a New-York-based society of physician anesthetists transformed into the "American Society of Anesthetists" in 1936 before turning back those tides of asphyxiating waves.

The following WLM awards will be presented at the Wright Lecture: 2016 Laureate of the History of Anesthesia: George S. Bause, M.D., M.P.H., Distinguished Service Awards: Donald Caton, M.D., Elliott V. Miller, M.D., Charles C. Tandy, M.D.

Emery A. Rovenstine Lecture: On the Road to Professionalism

Monday, October 24 | 8-9:15 a.m.

Presented by: David H. Chestnut, M.D.

In this lecture, Dr. Chestnut will discuss challenges in defining, teaching, encouraging and maintaining professionalism in the practice of anesthesiology. Personal attributes, commitments, behaviors, interactions and influences that are important to the development and maintenance of physician professionalism will be discussed.

The following awards will be presented at the Rovenstine Lecture:

- Distinguished Service Award: Alexander A. Hannenberg, M.D.
- Excellence in Research
- Presidential Scholar
- Nicholas M. Greene, M.D., Outstanding Humanitarian Contribution Award

John W. Severinghaus Lecture on Translational Science: Lost in Translation

Tuesday, October 25 | 11 a.m.-Noon

Presented by: Daniel I. Sessler, M.D.

When surgical patients die, what kills them, and how can anesthesia reduce major complications and mortality? This lecture will examine factors that slow progression of new knowledge from bench to bedside — and how basic scientists, clinical investigators and clinicians can speed the process.

FEATURED LECTURES

History Panel: Great Anesthetic Disasters: Lessons From History
Sunday, October 23 | 9:50-11:50 a.m.
Presented by Douglas R. Bacon, M.D., M.A.
Explore several anesthetic disasters from history, and extrapolate changes in practice and quality assurance.

Celebration of Research

Monday, October 24 | 9:35-11:05 a.m.
The ASA Excellence in Research and Presidential Scholar awardees will present brief lectures about their research accomplishments, awards will be announced for the Academy of Anesthesiology Research Mentor and Resident Research Essay, and there will be a brief update about FAER activities. Don't miss this exciting session to see your peers being honored.

FAER Helrich Research Lecture: Harm Prevention in Critical Care: A Transprofessional Journey
Monday, October 24 | 1:10-2:10 p.m.
Presented by: Michael A. Gropper, M.D., Ph.D.
The intensive care unit (ICU) is a high-risk environment, with patients susceptible to multiple hospital-acquired conditions or harms. In the past several years, progress has been made in reducing individual harms such as catheter-associated bloodstream infection (CABSI)

and ventilator-associated harms (VAH) by focusing intently on the individual harm. Rather than relying on new technologies, these harm reductions have come from improved processes of care and teamwork. At the same time, we have come to recognize harm to patients in the form of failure to treat patients with respect and dignity, and failure to align the wishes of patients and families with providers. This presentation will discuss the above harms, along with an innovative approach to simultaneously prevent multiple harms in ICU patients, utilizing a trans-professional approach, new technology, and engaging patients and families in their own care.

WLM Patrick Sim Forum on the History of Anesthesiology: Intrathecal Anesthesia: The First 20 Years
Monday, October 24 | 2-4 p.m.
Moderated by: David B. Waisel, M.D.
Leaders in the fields of local anesthetics and intrathecal anesthesia will trace the contributions of pioneers who, through an understanding of the necessary physiologic and pharmacologic factors, were able to develop apparatus and drugs necessary for the clinical use of intrathecal anesthesia.

ASA My Meeting app – Available early October
Navigate ANESTHESIOLOGY 2016 with ease using the newly enhanced ASA My Meeting app! Now you'll be able to:

- Access the event schedule and customize your agenda with personal appointments
- Search for speakers and view their presentations
- Explore exhibitors and locate their booths using an interactive map
- Get important updates and exciting offers
- See who's attending, and share contact information by networking with other attendees

Visit goanesthesiology.org/app for download instructions.

Technology

Take advantage of all the tech-tools ASA offers at ANESTHESIOLOGY 2016:

- ASA My Meeting app – Your comprehensive yet compact guide to the annual meeting
- Complimentary high-speed Wi-Fi – Stay connected throughout the entire convention center
- Audience Response Systems – Get interactive in select sessions through our convenient audience response tool
- ePosters on Demand – Access any or all of the posters presented at the annual meeting at your convenience when you visit one of these kiosks
- RCL Download Stations – Download your favorite Refresher Course Lectures to your USB memory device

CONTINUING MEDICAL EDUCATION

Overall Learning Objectives – 2016

At the conclusion of this activity, participants should be able to:

- Assess the potential applications of emerging scientific advances that affect the practice of anesthesia
- Integrate technical knowledge about state-of-the-art procedures, advanced therapeutic agents and medical device uses into practice
- Apply contemporary practice management skills and knowledge of regulatory issues to the efficient and safe delivery of patient care
- Translate expanded knowledge into improvements in practice, patient outcomes and patient satisfaction

12 Clinical Tracks

Ambulatory anesthesia	Cardiac anesthesia
Critical care medicine	NEW! Geriatric anesthesia
Fundamentals of anesthesia	Neuroanesthesia
Obstetric anesthesia	Pain management
Pediatric anesthesia	NEW! Perioperative medicine
Professional issues	Regional anesthesia and acute pain

Accreditation and Designated Statements

The American Society of Anesthesiologists is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Society of Anesthesiologists designates this live activity for a maximum of 41.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Attend select Educational Sessions to Earn Credit Toward MOCA®

ANESTHESIOLOGY 2016 offers several opportunities to help fulfill your Maintenance of Certification in Anesthesiology (MOCA®) requirements. Sessions marked with the MOCA icon will count toward Part II Patient Safety or Part IV Improvement in Medical Practice requirements. Look for this icon to identify designated sessions.

Part II Patient Safety Courses

These activities help fulfill the CME requirement for Part II of the Maintenance of Certification in Anesthesiology Program (MOCA) of the American Board of Anesthesiology (ABA). Please consult the ABA website, www.theABA.org, for a list of all MOCA requirements.

NEW! Part IV Improvement in Medical Practices Courses

These activities contribute to the Part IV: Improvement in Medical Practice requirement of the American Board of Anesthesiology's (ABA) redesigned Maintenance of Certification in Anesthesiology Program® (MOCA®), known as MOCA 2.0™. Please consult the ABA website, www.theABA.org, for a list of all MOCA 2.0 Part IV requirements and their associated point values.

Please note: In order to claim CME for MOCA®, attendees are required to attend the entire session and complete the evaluation form when claiming CME credit.

Maintenance of Certification in Anesthesiology Program® and MOCA® are registered certification marks of the American Board of Anesthesiology®.

Program Features

ANESTHESIOLOGY 2016 offers several content formats to meet your educational needs, including:

Self-Study Program: Attendees can maximize their time and CME while at the meeting with these immersive self-study opportunities designed to help increase competence in several clinical areas of focus.

Problem-Based Learning Discussions (PBLDs): 60-minute sessions conducted in a roundtable format will be offered with opportunity for team-based interactive discussions with the session expert moderator using hypothetical case scenarios. Cases emphasize interesting teaching points and include controversies or a conflict in management. Detailed reference materials will be available to assist participants in the discussion and diagnosis of the case presented.

NEW! Foreign Language PBLDs: The Foreign Language PBLD sessions will be enhanced based on the success of last year's pilot program with offerings in Chinese, Japanese, Portuguese and Spanish throughout the week.

Scientific Abstract Sessions highlight the latest information, technology and procedures in the field of anesthesia. Sessions are presented in the following formats:

- Oral/slide – Thematically grouped sessions with six scientific presentations
- Poster discussion – Sessions include eight poster presentations providing an opportunity for in-depth discussions led by a moderator and audience interaction with poster presenters
- ePoster – Poster sessions with presentations displayed on high-definition monitors, grouped thematically

CME credit will be offered only for Oral and Poster Discussion sessions.

ePosters On Demand are available to registered attendees. The system will provide attendees with first-hand access to all scientific poster discussion and ePoster presentations throughout the conference and three months post-meeting.

Medically Challenging Cases will be presented in electronic format (ePosters) on high-definition monitors. Interact with colleagues and hear about the medically challenging cases they have encountered. **Medically Challenging Cases will not offer CME credit.**

Nursing contact hours: This unique opportunity promotes interprofessional education that leads to improved health care delivery and better patient outcomes.

NEW! International CME: ASA is proud to announce International CME is available in various countries. Learn more at goanesthesiology.org

Governance

All governance, committee and caucus meetings will be held at the Hyatt Regency McCormick Place. The House of Delegates will meet Sunday, October 23, and Wednesday, October 26, in the Skyline Ballroom, Section E, at McCormick Place. For details, visit goanesthesiology.org.

BE INVOLVED

Subspecialty Groups and Anesthesia-Related Organization Meetings and Activities

The following meetings and activities are held in conjunction with ANESTHESIOLOGY 2016. Be part of the discussions!

AAAA – American Academy of Anesthesiologist Assistants
Various Meetings
October 22–25 | Hyatt Regency Chicago

AACD – Association of Anesthesia Clinical Directors
Board of Directors Meeting
October 24 | Hyatt Regency Chicago

ACA – Association of Cardiac Anesthesiologists
Annual Meeting
October 23 | Hyatt Regency Chicago

APSF – Anesthesia Patient Safety Foundation
2016 Board Meeting
October 21–23 | Hyatt Regency Chicago

ASATT – American Society of Anesthesia Technologists and Technicians
2016 Educational Conference
October 20–22 | Swissôtel Chicago

AUA – Association of University Anesthesiologists
Various Meetings
October 21–25 | Hyatt Regency Chicago

FAER – Foundation for Anesthesia Education and Research
Various Meetings
October 20–24 | Marriott Magnificent Mile

ILTS – International Liver Transplant Society
Various Meetings
October 21 | Westin Chicago River North

ISAP – International Society of Anesthetic Pharmacology
ISAP 25th Annual Meeting
October 21 | Hyatt Regency McCormick Place

ISPCOP – International Society for the Perioperative Care of the Obese Patient, Annual Symposium
October 24 | Location TBD

SAMBA – Society for Ambulatory Anesthesia
2016 Mid-Year Meeting
October 21 | Swissôtel Chicago

SASM – Society of Anesthesia and Sleep Medicine
6th Annual Meeting
October 20–22 | Hyatt Regency McCormick Place

SCA – Society of Cardiovascular Anesthesiologists
Various Meetings
October 22–24 | Locations TBD

SEA – Society for Education in Anesthesia
2016 SEA Fall Meeting
October 20–21 | Hilton Chicago

SNACC – Society for Neuroscience in Anesthesiology and Critical Care
44th Annual Meeting
October 20–21 | InterContinental Chicago

STA – Society of Technology in Anesthesia
Board of Directors Meeting
October 21 | Sheraton Grand Chicago

SOAP – Society for Obstetric Anesthesia and Perinatology
Board of Directors and Committee Meetings
October 21–25 | Hyatt Regency Chicago

SOCCA – Society of Critical Care Anesthesiologists
Various Meetings
October 21–25 | Hyatt Regency Chicago

SPA – Society for Pediatric Anesthesia
30th Annual Meeting
October 21 | Sheraton Grand Chicago

TAS – Trauma Anesthesiology Society
Annual Meeting
October 21 | Hilton Chicago

USSA – Uniformed Services Society of Anesthesiologists
AVAA – Association of Veterans' Affairs Anesthesiologists
Annual Joint Military Academic Meeting
October 21 | Hyatt Regency McCormick Place

Please note: Assignments are subject to change. This list is based on subspecialty groups and anesthesia-related organization meetings and activities that have communicated, as of DATE, plans to conduct events in conjunction with the ANESTHESIOLOGY 2016 annual meeting in Chicago.

Affiliated Subspecialty Society Pavilion

This information hub offers attendees the opportunity to connect with the affiliated subspecialty societies and learn more about their meetings, activities and membership opportunities.

LEAD. LEARN. **MAKE A DIFFERENCE**

Medical Students, Residents & Fellows

Two content tracks created and tailored to meet your needs.

Medical Students

NEW! Making Yourself a Competitive Applicant for Anesthesiology Residency

Deepen your understanding of the desired qualifications and application and interview processes by attending this session. You'll also discover how to be a more competitive applicant in an increasingly competitive residency match process.

NEW! Perioperative Surgical Home (PSH) 101 for the Medical Student

Learn from one of the nation's leading experts on this current hot topic in anesthesiology practice. What is PSH? What does it entail? How is it going to impact your patients and your future practice? Find out by attending this information-packed session.

A Day in the Life of a Physician Anesthesiologist

Have you ever wondered about the real-life triumphs and challenges of working as a physician anesthesiologist? Join us to hear one physician anesthesiologist's perspective on managing the demands of the high stress environments in the operating room and intensive care units. Deepen your understanding of the leadership, administrative and educational opportunities for anesthesiologists across medical centers.

Tactical Student Loan Management

This session will cover loan management strategies that can minimize loan payments during residency, reduce interest accrual without paying more, maximize forgiveness potential and enhance contract negotiation opportunities. If you have student loans, you don't want to miss this informative session!

Navigating the Financial Services Industry

Prepare for the onslaught of financial professionals wanting to sell you insurance and manage your investments. We'll help you understand how disability and life insurance products work, how advisors are paid and some strategies to minimize what you spend during residency.

Residents & Fellows

NEW! Residents' Leadership Workshop

Do you have what it takes to be an effective leader? This session will explore leadership styles, skills and goals. Engage in discussions and small group activities.

NEW! Subspecialty Panel – Fellowship or Not?

Subspecialists representing major anesthesiology fellowships such as pediatric, OB, critical care, cardiothoracic, regional and pain management will present an overview of their subspecialty practice. Get answers to your questions regarding subspecialty training impact on patient safety, the pros and cons of their subspecialty training, practice and job perspectives.

Resident Written Board Prep

Discover the most challenging concepts including frequently missed items (keywords) from the 2016 in-training examination, divided into basic and advanced topics by the ABA. Gain insights from facilitators about study strategies and discuss available study resources and test-taking tips.

JOIN ALL OF YOUR GROOVY COLLEAGUES...

COME TOGETHER FOR A CAUSE

Enjoy a night of fundraising, food and fun with friends benefiting the Anesthesia Patient Safety Foundation, ASA Charitable Foundation, Foundation for Anesthesia Education and Research, and the Wood Library-Museum of Anesthesiology.

Sunday, October 23

Hyatt Regency Chicago, Grand Ballroom

6-7 p.m. Reception
7-8:30 p.m. Dinner
8:30-10 p.m. Dessert and dancing, featuring the Fab 4

We hope to see you there, dancing to the music of the Beatles, from the era of the British Invasion and the summer of love. Come dressed in your hippest '60s threads, come dressed for cocktails or come dressed as you are!

Come Together for a Cause	Ticket Price
Sgt. Pepper	\$350 pp
Abbey Road	\$275 pp
A Hard Day's Night (Residents only)	\$125 pp
Come Together (price per table, seats 10)	\$3500

A portion of your ticket price will be donated to support the extraordinary work of ASA's foundations. For more information, visit goanesthesiology.org/cometogether

JOIN THE FUN! Reserve your seat when you register for ANESTHESIOLOGY 2016.

Support Four Foundations in One Night!

You can make possible the discovery of new knowledge, the application of that knowledge to medical education and patient safety around the world and the preservation of that knowledge for the next generation. Come together to secure the future through our foundations' important work!

Anesthesia Patient Safety Foundation – Improving patient safety during anesthesia care.

ASA Charitable Foundation – Enabling quality anesthesia care and safe surgery around the world.

Foundation for Anesthesia Education and Research – Transforming medicine through scientific discovery and knowledge creation.

Wood Library-Museum of Anesthesiology – Preserving anesthesiology's past to promote its future.

Come dressed in your fab 60s threads
Come dressed for cocktails
Come dressed as you are
Come together right now ☺

MEET. ENGAGE. **NETWORK.**

Hope For The Warriors® – Run For The Warriors® 5K Run/Walk
Sunday, October 23 | 6:45 a.m.
Lakefront Trail | Adjacent to Soldier Field

Pack your running shoes and join us for the Hope For The Warriors® 5K Run/Walk. Following last year's successful run in San Diego, ASA will sponsor, for a seventh consecutive year, Hope For The Warriors® - Run For The Warriors® in Chicago. This event brings together meeting attendees, exhibitors, local residents and military personnel to support wounded warriors and their families. Details for the race route will be published at goanesthesiology.org when they are available.

Hope For The Warriors was founded in 2006 aboard Marine Corps Base Camp Lejeune, in North Carolina, after having witnessed the effects of war on families and communities. For the past 10 years Hope For The Warriors® has been dedicated to providing a full cycle of care to restore self, family and hope to post-9/11 service members, their families and families of the fallen.

If you wish to participate in Run For The Warriors® in Chicago, please visit asacharity.org and click Hope For The Warriors®.

International Connection Lounge

Relax, visit the coffee cart and engage with your colleagues in the International Connection Lounge. Interpreters will be available for several languages. Additionally, important ASA materials will be translated in several languages to help international attendees navigate the meeting.

Connection Center

Saturday, October 22 | 10:30 a.m.-6:30 p.m.
Sunday, October 23 | 9 a.m.-4 p.m.
Monday, October 24 | 9 a.m.-3 p.m.

Immerse yourself in this exciting forum for discovery. Engage with the latest technology, services and research in the industry Saturday through Monday during unopposed breaks and lunches. The Connection Center helps you engage, recharge and explore ANESTHESIOLOGY 2016, including:

- Hundreds of exhibiting companies displaying and demonstrating their best products and services – made easier to navigate through the ASA My Meeting app and our on-site touch-screen exhibitor locators
- Two Product Theaters featuring scheduled product and innovation presentations
- Connection Lounges with Wi-Fi, charging tables, CME kiosks, registration bag distribution, social media feeds and ASA TV
- Scientific and Educational Exhibits with the latest industry research
- The ASA Bistro: pre-purchase tickets to skip the concession lines at lunch
- Product and Technology Experience featuring small-group encounters with the hottest offerings from our exhibitors
- **NEW!** Digital Product Showcase

Be part of the Welcome and Wine Reception from 5:15-6:30 p.m., Saturday, October 22. Sample delicious fare while mixing and mingling with colleagues. It's also a great time to learn about the latest offerings in anesthesia.

ASA Resource Center

Friday, October 21 | 3-7 p.m.

Saturday, October 22–Tuesday, October 25 | 7 a.m.-5 p.m.

Visit the ASA Resource Center to pick up your registration bag and learn more about all ASA has to offer:

- ASA Retail Store
- ASA Education Center, and Publications and Digital Content
- ASA Member Services
- Anesthesia Quality Institute (AQI)
- Advocacy

REGISTER AT **GOANESTHESIOLOGY.ORG**

STEP 1

Identify educational sessions you want to attend.

Select Session Search from the Education drop down.

Access the NEW! Educational Program Planner.

Search by:

- Day
- Presenter
- Track

Explore educational sessions, Scientific Abstracts and Medically Challenging Cases to create your wish list before accessing the registration site.

STEP 2

Register.

Register

Click the "Register" button.

Members use your ASA username and password to simplify the process.

Non-members enter your last name and email address to login.

Complete your contact information and login details.

Make sure your details are displayed accurately for your badge.

International attendees can upload VISA letters and invitation requests

Select your registration category, fees and your registration rate based on the categories shown.

Complete the demographic questionnaire.

Continue to **STEP 3** or finalize your registration and register for educational sessions later.

STEP 3

Sign up for educational sessions and create your itinerary.

Select your educational sessions by using the Educational Program Planner to create your wish list itinerary.

Confirm your educational session details.

ADDITIONAL SERVICES

ASA offers additional services during registration to make traveling easy.

Select your hotel with the official housing partner, onPeak.

Book your flight and save on airfare with ATC Travel (domestic) or ASA IGH (international).

Reserve your transfer services to and from the airport.

Plan your Chicago tours.

EXPERIENCE CHICAGO

Tours (partial listing)

ASA has lined up some of the best tours Chicago has to offer.

Architectural Walking Tour

Stretch your legs, grab a camera and set off by foot to experience Chicago's greatest landmarks! This exciting 2.5 hour walk through the Loop shares Chicago's fascinating history and tidbits about the showcased art and architecture.

Behind The Scenes at The Field Museum with Lunch

The Field Museum houses nearly 23 million specimens and artifacts. Learn about the founding of the museum in 1893, see their most-loved animals and learn your docent's favorite secrets. Explore the storerooms, libraries and working laboratories that house these exquisite and unique collections during a behind-the-scenes tour.

Deep Dish Pizza Making at Pizzeria Uno

Learn to make one of Chicago's most famous menu items – deep dish pizza! This three-hour hands-on class will teach you about the history of deep dish and its importance to Chicago. You'll shape the dough into a deep-dish pan, crush tomatoes to create your own sauce, layer your cheese and add your choice of toppings. Enjoy your custom creations for lunch and take home the recipe to make again!

Gospel Brunch at House of Blues

Grammy-Award winning star Kirk Franklin is joining forces with House of Blues to produce a dazzling transformation of Gospel Brunch, the club's legendary dining and live music show. With Kirk Franklin's hand-picked performers showcasing explosive energy, contemporary music and spectacular new cuisine, it's an unforgettable spectacle of great tunes and tastes. A portion of the proceeds will be donated to the IHOFB, providing arts and music support to underserved youth.

The Second City

Are you ready for a night of laughter like no other? Head to Second City to experience a comedic performance that will have your eyes watering and your stomachs aching. The main stage is the perfect spot for you to be entertained by some of the most talented improvisational actors around!

Hotel & Travel

Governance Hotel

The Hyatt Regency McCormick Place has been designated as the governance (formerly headquarters) hotel ANESTHESIOLOGY 2016. ASA also has secured discounted rates at numerous area hotels. Book your hotel today!

Hyatt Regency McCormick Place | 2233 S. King Drive, Chicago, IL 60616

Hotel Accommodations

ASA has negotiated and secured a number of reduced-rated hotel rooms to help with your trip to Chicago. Through the travel experts at onPeak, ASA's official housing partner, rooms at the group rate limited and available on a first-come, first-served basis. Be sure to book early for the best hotel selection and price. For additional hotel options, visit goanesthesiology.org.

In an effort to support our housing community in Chicago, demonstrate operational practices in housing management, and keep meeting expenses lower, the Committee on Annual Meeting Oversight (AMOC) and ASA leadership are supporting the following policy: Save \$100 USD on your registration fee by staying within the official ASA housing block. The deadline to book a hotel reservation is **September 23, 2016**.

Attendees who have not booked a hotel room in the official ASA housing block by the time the conference is over, will be charged \$100 USD immediately following the annual meeting. If attendees book housing in the official ASA housing block and later cancel their reservation, the additional \$100 USD fee will be automatically charged. Please direct any questions on the policy to annmtg@asahq.org

Domestic Air Travel

ASA's official travel service, ATC Travel Management, provides access where you can easily book your airline reservations. ATC offers cost-efficient travel and excellent customer service. To book your travel, contact ATC Travel management at 1 (800) 755-3899, 8:30 a.m.-7 p.m. (EST), Monday–Friday and provide the Travel Authorization Code (202188) when making your reservation.

As an official ASA airline, United Airlines is offering a 3 percent discount off any applicable published fares when traveling to Chicago. Visit www.United.com and click on tab "Reservations"

On that page you will be asked to enter the Offer Code (ZWDK569314) to receive the discount. Call United Meetings Desk at 1 (800) 426-1122, Monday–Friday, 7 a.m.-9 p.m. (CT); Saturday–Sunday, 8 a.m.-6 p.m. (CT), and refer to Offer Code. A service fee will apply for phone reservations.

As an official ASA airline, Delta Airlines is offering a 3 percent discount off any applicable published fares when traveling to Chicago. Visit www.Delta.com and enter Meeting Event Code (NMN3V) to receive the discount. Call Delta Meeting Network at 1 (800) 328-1111, Monday–Friday, 7:30 a.m.-5:30 p.m. (CT), and refer to Meeting Event Code. A service fee will apply for phone reservations.

ASA International Group Housing offers enhanced all-inclusive group housing services during ANESTHESIOLOGY 2016. International attendees are invited to travel through with ASA IGH – ASA's official international travel provider. ASA IGH is a one-stop shop for your travel needs and offers travelers all-inclusive packages that include hotel, airport transfers, baggage handling and more. Learn more at goanesthesiology.org/international.

Nearest Area Airport

O'Hare International Airport (ORD)

It is approximately 26 miles (55 minutes) from the O'Hare International Airport to the downtown Chicago. Estimated taxi fare: \$35–\$50 (one way).

Midway International Airport (MDW)

It is approximately 12 miles (35 minutes) from the Midway International Airport to the downtown Chicago. Estimated taxi fare: \$25–\$40 (one way).

For additional assistance in planning your trip, visit goanesthesiology.org/travel.
