About Us

The Talks is formed to arrange international conferences and establish direct communications between the researchers from either similar field or interdisciplinary research activities. We support and promote the free exchange of innovative thoughts in the research areas of Science, Technology, Engineering and Mathematics.

We provide specialized, professional services, and experience from start to finish. Based on our deep associations with an array of convention centers, vendors, and hotel chains, we are devoted to the peak standards of service and reliability. We also encourage and are keen on open communication with the sponsors and the associations. Along with that, we also support project processes, financing, scientific preparation, and industry liaison tracking.

We understand the importance of networking and collaboration for scientific research, and hence, ensure to track more views, genuine feedback, and suggestions from the audience who have incredible insight into the same field.

The Talks provides a valuable means of spreading ideas in ways that are not achieved through the usual scientific meetings. Our focus is to get the best scientific outcome from every event.

How different are we from others?

- Topic specific talks
- Global Collaborations
- Multi-disciplinary talks & events
- Networking specified events
- Indexed journals support
- High designated organizing members
- Collaborative event approach
- Conference Proceedings in reputed journals
- Added advantage to be published in INDEXED journal

About THE NEURO TALKS

Scientific Sessions:

- Clinical Neurology
- Neuroscience for design
- Neuro Oncology & Surgery
- Neuro Muscular Diseases
- Neuro Degeneration
- Neuro Informatics
- Neuroscience & Therapeutics
- Neuropathy Study
- Alzheimer's and Dementia
- Prevention, treatment and therapeutic options
- Clinical Trails & Case Reports

The Neuroscience and neurology are the close fields of medicine which deals with the study of the central nervous system (CNS). The former deals with CNS as its structure, function, genetics, and physiology alongside understanding the diseases of the nervous system and the latter deals with disorder and diseases concerned to the nervous system includes identifying and treating conditions of the central, peripheral and autonomic nervous systems. There are many neurologists and neuroscientists with aid of industries working on developing the diagnostic & treatment methods by performing imaging studies including computed tomography (CT) scans, magnetic resonance imaging (MRI) scans or laboratory tests such as cerebrospinal fluid (CSF) examination.

THE TALKS has decided to get the professionals from academics and industry alongside entrepreneurs under on stage to discuss on areas such as neuro-immunology, oxidative stress & neurological disorders, etc. with the name THE TALKS ON NEUROSCIENCE AND NEUROLOGY

One more main advantage of attending THE NEUROLOGY TALKS is the location where we would like you to explore. Madrid, Spain is one of the prime locations in Europe which can take you to the deep roots of European culture alongside the interactive sessions. What else you need!

Venue & Hospitality

Spain is a surprise to those who have the image of having to fight for towel space at one of its crowded beaches or sipping sangria while watching a bull fight or flamenco. From the ancient monuments left by the Romans and Moors, the medieval castles of the interior, the white villages in inland Andalucía or the vibrant cities of Barcelona and Madrid, there is a great mixture of cultural attractions in Spain.

Venue Address

Crowne Plaza Madrid Airport Hotel
Calle de Lola Flores, 1, 28022
Madrid, Spain

Top 10 Spain attractions

The grandeur of a caliph's palace, sybaritic sun-drenched Mediterranean beaches, the staccato stamp of a flamenco dancer's heels, the awed hush of pilgrims entering the cathedral at Santiago de Compostela after weeks of walking El Camino. You can find the soul of Spain in tourist attractions such as these, which represent the country's tumultuous history, rich culture, and enchanting natural beauty.

From the sunlight playing endlessly off the "scales" of Gehry's Guggenheim Museum and the throbbing street life of La Rambla and Plaza Mayor to the forest of columns and Moorish arches disappearing into the silent expanse of Cordoba's Great Mosque, Spain exudes a vibrant energy and a captivating blend of past and present. Plan your sightseeing adventures and things to do with our list of the top attractions in Spain.

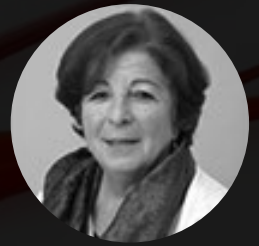

SPEAKERS

Klaus Rose
Head
klausrose Consulting
Switzerland

Clara de Andrés
Clinical Research Neurologist
Gregorio Marañón Hospital
Spain

Rivka Ravid
Founder and Director
Brain Bank Consultants
The Netherlands

Massimiliano Bianchi
President & CEO
Ulysses Neuroscience Ltd
Ireland

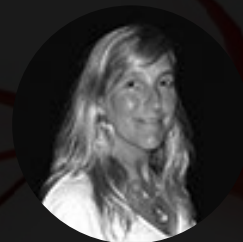

Annamaria Morelli
Associate Professor
University of Florence
Italy

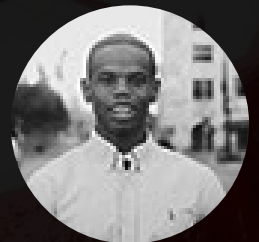

María del Carmen García Parrilla
Professor
University of Seville
Spain

Félix Bermejo-Pareja
Director
Complutense University of
Madrid, Spain

Ana Cristina Faria Ribeiro
Professor & Researcher
University of Coimbra
Portugal

Roy Redd
Motivational Speaker
The Redd Group
USA

Liya Shen
Founder and President
Global Life System
Extension, Inc. (GLSE), USA

Sharon S. Stoll
Assistant Professor
Yale School of Medicine
USA

Karen Aranha
Associate Professor
University of St.
Augustine, USA

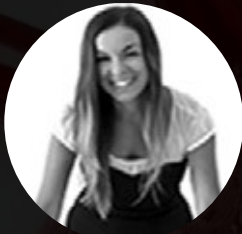

Laurent Metzinger
Professor
University of Picardie-Jules
Verne, France

Raul Valverde
Senior Lecturer & Director
Concordia University
Canada

Melanie Flory
Founder & Director
MindRheo
UK

Anna Fortea Paricio
President
International Neurocoaching
Association, Spain

Mia Horowitz
Professor
Tel Aviv University
Israel

Max Brzezicki
Clinical Fellow/ Jr. Academic
Doctor University of Oxford
UK

Antonio Cuadrado
Professor
Autonomous University of
Madrid, Spain

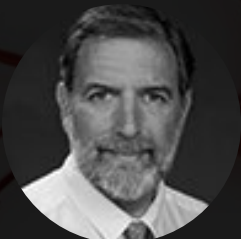

BANKOLE Murtala Olusola
Chief Scientific Officer (EEG)
Lagos University Teaching
Hospital, Nigeria

Madhoosudan Patil
Pharmaceutical Scientist
University of Colorado
USA

Daniele Nosi
Associate Professor
University of Florence
Italy

Peter Bergold
Professor
SUNY Downstate Health
Sciences University, USA

Milanese Marco
Associate Professor
University of Genoa
Italy

Dinesh Dhingra
Professor Guru Jambheshwar University
of Science and Technology
India

Ramesh Balenahalli Narasingappa
Assistant Professor
A Constituent unit of University of
Agricultural Sciences, India

Gerard Piñol Ripoll
Professor
University of Lleida
Spain

Ana Isabel Rojo Sanchís
Assistant Professor
Universidad Autonoma de Madrid
Spain

PARTNERED JOURNALS

Journal of Current Neurobiology (ISSN: 0976-1705)

Current Neurobiology is an open access, peer-reviewed journal which publishes manuscripts in all areas of neuroscience, neurobiology and neurology.

Journal mainly focuses on the application of neurophysiological, biochemical, pharmacological, molecular biological, anatomical, and behavioural analyses to the problems of molecular, cellular, developmental, and systems neuroscience.

Indexing & Abstracting

CNB is listed or indexed in:
