27th Annual Interdisciplinary Breast Center Conference

March 11-15 • Paris Las Vegas

Assessment of Need:

Over 200,000 women will be diagnosed with breast cancer annually, accounting for 30% of all new cancer cases in women. This makes it the most common cancer diagnosis in women. This program's intent is to increase the quality of breast care provided to women across the globe through the interdisciplinary education of breast health professionals. Many breast healthcare practices are not standardized and this conference provides learning and networking environment enabling breast professionals to learn about genetics, risk, the latest treatments, technologies, procedures, become certified and sharpen their skills in detecting and treating breast cancer. Treating breast cancer includes risk assessment.¹ The conference also provides a review of selected topics throughout the field of breast health care.² An analysis of peer-reviewed journal articles, new guidelines and past participant evaluation analysis have identified technical areas of focus which include the evolution of a breast center, breast specific gamma imaging, using breast MRI as a screening tool, improving RT/Radiologist relations, digital positioning, ultrasound imaging, biopsy techniques, lobular neoplasia, reverse axillary mapping, endocrine therapy, treating the breast cancer survivor,³ coding and reimbursement procedures. Patient centered focus areas include: providing care to the underserved communities, patient tracking tools, assessing the high risk patient, reconstruction options, starting a sexuality program in a breast center, supporting the breast cancer survivor, and patient satisfaction. In each of these areas, lectures will include controversies, recent developments and recommendations from experts in the breast health care field. This program has been developed specifically for the entire breast center team from administrative staff to breast clinicians. It is the intent of our educational activity to provide breast health care professionals objective, evidence-based clinical content, which they can incorporate into their practice to improve clinical care and outcomes of their patients.

NCoBC 2017 Scholarship Available

The Natosha Lynne Morton Scholarship funded by MagView® is to provide recognition to those Breast Health professionals who best exhibit character, compassion, and caring in conjunction with providing the best possible care to patients by paying their conference registration fee to attend the 27th Annual Interdisciplinary Breast Center Conference March 11-13, 2017 in Las Vegas, NV. Applicants must complete the questionnaire below to the best of their ability. Content will be scored by the NCoBC staff based on the evidence of character, compassion, and quality of care.

Prerequisites for NCoBC 2017 Scholarship Consideration

Applicants Must:

1. Be a first-time NCoBC Annual Interdisciplinary Breast Center Conference attendee.
2. Be a current NCoBC Independent Health or Facility Member.
3. Be a practicing breast health professional or advocate.
4. Fill out the application online found at: <http://survey.constantcontact.com/survey/a07ecywvz3piqto1kji/start>
5. Be able to pay their own transportation and accommodation fees.
6. Sign a consent form allowing NCoBC and Magview to publicize name/photos for future marketing campaigns.

Other Notes:

- The Natosha Lynne Morton Scholarship does not cover NCoBC membership.
- The scholarship only covers the cost of the general conference. Post conference workshops or certification exams are at the winner's expense.
- Deadline for application is December 15, 2016.
- **Winner will be announced on or before January 10, 2017.**

Credit Hours

Core Competencies

In alignment with the CME mission of the University of Tennessee School of Medicine, programs are planned in the context of desirable physician attributes and core competencies (six abilities that are central to the practice of medicine): **1.** Patient Care, **2.** Medical Knowledge, **3.** Practice Based Learning, **4.** Interpersonal and Communication Skills, **5.** Professionalism and **6.** Systems Based Practice, as designated by the American Board of Medical Specialties. Core competencies addressed in each of the activity objectives below, this shall serve the best interests of the public and assist in Maintenance of Certification.

Objectives

- Learn the basics of patient positioning and unit set-up for tomosynthesis-guided and upright stereotactic biopsy
- Identify problems related to mammography positioning
- Explain the importance of consistency & reproducibility for positioning standards
- Understand navigator roles
- Learn about the differences between different forms of navigational practices
- Appreciate the benefits of SERMs
- Understand how breast cancer risk assessment improves identification of high risk women and eligibility for preventive therapy
- Identify the pros & cons of extended endocrine therapy
- Provide examples of scripting, service recovery techniques and current imaging recommendations to deal with difficult patients and to dispel myths
- Discuss the potential benefits of an RT navigator to an entity/organization
- Understand the unique and focused role of integrated cancer care
- Describe the key advances in breast surgical oncology over the past year
- Compare the concepts and rationale for immunotherapy
- Identify any ongoing research related to male breast cancer
- Describe annual absolute breast cancer risk for women with lobular carcinoma in situ
- Recognize the use of risk models in atypical hyperplasia and LCIS
- Identify chemotherapy and radiation induced sexual problems
- Identify risk reducing procedures that affect sexuality
- Describe the impact of breast cancer on the couple relationship

Credit Hours

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the University of Tennessee College of Medicine and the National Consortium of Breast Centers. The University of Tennessee College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

AMA: The University of Tennessee College of Medicine designates this live activity for a maximum of 28.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

PA's, NP's and Nurses: Physician Assistants, Nurse Practitioners and Nurses may use these credit hours toward certification renewal. This credit is acceptable by the American Academy of Physician Assistants (AAPA), American Nurses Credentialing Association (ANCC) and the American Academy of Nurse Practitioners (AANP).

BRN: Credits are arranged through with The California Board of Registered Nursing.

Continuing Education Category A credits are being arranged through the American Society of Radiological Technologists (ASRT). Each 30 minutes of contact time is awarded .5 CE credit. Each contact hour is equal to 50 – 60 minutes and is awarded 1 CE credit. This program is relevant to the radiologic sciences profession.

AMA PRA Category 1 Credits™

- 3/11-15/17 Plenary Conference - 19
- 3/14/17 Critical Quality Components in Breast Care – 5.5
- 3/14/17 Practical Applications of Clinical Breast Cancer Genetics – 6.5
- 3/14/17 Freeman Breast Patient Navigation Review Course – 6.25
- 3/14/17 Defining the Future: Expanding & Sustaining the Role of the Breast Center Navigator – 6
- 3/14/17 Masters Series: Demonstrating Value in Breast Imaging -8
- 3/14-15/17 Clinical Breast Examiner Certification Program – 2.75
- 3/13-14/17 Master Technologist Course – 9
- 3/14/17 Survivorship: It's Time for Clinical & Operational Specifics -6.5

ALL ATTENDEES INVITED! - Saturday March 11th, 6:30 - 8:30 pm in the Exhibit Hall

NCBC2017

Your Invitation

As President of the National Consortium of Breast Centers, I extend a heart-felt welcome to our membership and guests to this 2017 Annual Interdisciplinary Breast Care Conference, at Paris Las Vegas. Your NCBC staff have been working steadily on your behalf the entire year, not only assisting the program committee in developing the annual meeting, but also creating and optimizing all the new content available to you through our newly updated website. I hope you have made NCBC, www.breastcare.org, a favorite on your computer's browser and make a point to check in routinely. New tools are available to you including Information Exchange, job descriptions, and information on the certifications we offer, our newsletter and news about NQMBC.

Dr. Kristie Bobolis, along with the program committee began planning this year's 27th annual meeting onsite last year, incorporating your feedback immediately into this year's agenda. We continue to embrace the philosophy of a meeting to which you can "Bring Your Team." To this end we begin our days as group and later break out into our areas of interest to delve further into details. Again this year, we have centered the primary meeting content over the weekend to facilitate ease of attendance, and shift the more in-depth course material to follow the conference. The program committee continues the ASBD clinical track addressing the spectrum of current challenges for the clinician attending to breast disease patients.

Please join us this year and learn all that NCBC has to offer you, not only the excitement of the conference, but as a member all year long, through our quality metrics program NQMBC, certification programs, our international collaborations, committee participation, or simply our newly updated digital newsletter.

It truly remains my privilege to serve this year as your president. I invite you to reach out to me now, or at the conference, so that I may better understand how NCBC can continue to serve you most effectively.

Warm Regards,

Jennifer Gass, MD, FACS
President, NCBC
Breast Fellowship Director,
Chief of Surgery, Co-Director Breast Health Center,
Women and Infants' Hospital
Assoc. Prof. of Surgery, Obstetrics & Gynecology
Alpert Medical School, Brown University
Providence, RI

Dear Colleagues,

As this year's program chair, I welcome you to our annual conference. We have an exciting line up of luminaries in the field of breast cancer care. The program will provide multiple tracks that focus on the diverse educational needs of all providers within the breast center including nurse navigators, administrators, genetic counselors, radiological technologists, breast physicians, advanced practice providers and international attendees. The Sexual Health First Responder's course will be offered again this year, as well as updated information on breast imaging, survivorship, navigation, risk assessment and multidisciplinary management of the axilla. Additions this year include an expanded track on Global Breast Care, a Navigator Panel, an International Speakers corner and a mini-symposium on the endocrine management of breast cancer.

The post conferences offer more focused information on navigation, quality, survivorship, positioning for radiology technologists, risk assessment/clinical cancer genetics and a one-day Masters Course for radiologists/breast imagers.

The key value in attending the conference comes from learning how to provide seamless, well-navigated, multi-disciplinary care to our patients. It is always inspiring to come together as a dedicated group of individuals with a shared purpose to further our knowledge and integrate care in a patient centered manner.

It has been a privilege to serve with the program committee this year as chair. Welcome to all new and returning attendees!

Sincerely,

Kristie Bobolis, MD

NCBC2017
27th Annual Interdisciplinary
Breast Center Conference
March 11-15 • Paris Las Vegas

Hotel Information

Hotel Reservations: Paris, Las Vegas Venue For 2017

The NCBC is proud to announce our 27th annual conference at Paris Las Vegas. Experience everything you love about Paris, right in the heart of the Las Vegas Strip. From the moment you walk into the Paris Las Vegas you will understand why this luxury hotel sets the standard for opulent details, impeccable service and lavish Las Vegas accommodations.

Book Your Hotel Today Online

Be sure to book your room for the conference within the NCBC room block to receive our LOW negotiated rates. Any room booked outside of our room block will be charged an additional \$25.00 resort fee per night.

Book at <https://resweb.passkey.com/go/SPNCB7>

AVOID Hotel Scams - NCBC does not work with any 3rd party booking agencies or conference planners. All of our accommodations are done directly through NCBC and the Paris Las Vegas hotel.

NCBC has block rooms for only \$159 per night for a single or double occupancy. For a third person in the room (limit 3 people per room) add \$30 to double room rate plus 12% tax per room, per night. With tax, the totals are \$178.08 for a single or double and \$211.68 for a triple. Reservations booked after February 11, 2017 are subject to room availability at the prevailing room rate. Hotel cancellations after February 11, 2017 will be charged first night room charges.

Register Online

Take advantage of our easy ONLINE reservation system, which books you at the best rate directly with the hotel. Find out immediate availability and select exactly what you want in a few easy steps. Book at <https://resweb.passkey.com/go/SPNCB7>

Transportation

Again this year we are partnering with LASxpress airport transportation service and will be offering cost-effective transportation service between McCarran Int'l Airport and your hotel.

Xpress Non-Stop service to **Paris & Bally's Las Vegas** for the **27th Annual Interdisciplinary Breast Center Conference attendees.**

By utilizing this service, you are eligible for \$11 one-way airport transportation service.

Other benefits include:

- Non-Stop Xpress Service Available for \$18 per person
- 40+% Saving vs. Taxi Fare
- Immediate Boarding
- Airport Meet and Greet Service

Breast Cancer Care: Current Global Obstacles and Progress Benjamin O. Anderson, MD, FACS

NCBC International Delegate Program: Obstacles and Progress in Specific Countries:
John R. Keyserlingk, MD, MSC, FRCS(C), FACS

Participants will have a unique opportunity to learn about the current and future challenges in global breast cancer care directly from the NCBC International Delegates. As they "work in the trenches", they are ideally qualified to describe how they deal with healthcare policies, the rapidly increasing breast cancer cases, many of whom are very young. The International Delegates will outline their challenges related to the often minimal resources in their respective countries.

They will provide visual evidence of some tried and potential solutions to better face the looming crisis due to the combination of increasing incidence with decreasing access to care. This situation is resulting in the vast majority of breast cancer deaths now coming from their low-and middle-income countries.

They will also describe how accessing the inter-disciplinary expertise of the entire NCBC membership could help them implement new paradigms in screening and management of breast cancer, and how the NCBC's International Delegate Program Global network of Delegates can promote solutions via the related NCBC-funded educational opportunities, such as attending our Annual Conference and access to Mini-Fellowships in NCBC Breast Centers in North America.

Commentators: Anees Chagpar, MD, MSc, MA, MPH, MBA, FRCS(C), FACS & Benjamin O. Anderson, MD, FACS

Abstracts / Posters

You are invited
to submit an abstract to the

NCBC2017

27th Annual Interdisciplinary Breast Center Conference

NCBC Invites you to submit an abstract to the 27th Annual Interdisciplinary Breast Center Conference

You and your breast center team are invited to submit an abstract to the 27th Annual Interdisciplinary Breast Center Conference, being held at the Paris Las Vegas March 11-15, 2017. The abstract/poster program provides a great opportunity to share your experience and research with other breast health care professionals. The goals of this session are to facilitate communication between breast care centers, to disseminate knowledge that may be useful to our members, and to give recognition to outstanding submissions.

To Participate

To participate, email your abstract and the Abstract Application to the NCBC office at NCBCabstracts@breastcare.org by the due date, December 19, 2016. Faxed abstracts will not be accepted. Submission(s) will be peer reviewed and the abstract author(s) notified of acceptance for poster display at the 2017 Conference. The NCBC will host a special Poster Reception on the evening of Sunday, March 12, 2017.

NCBC will invite the authors of one abstract submitted to each of the three major categories, as well as up to four abstracts submitted by trainees (fellows, residents, students and other trainees), one of which will be designated the **Fellow/Resident/Student Award-winning author**, to present their abstracts during the Oral Abstract Presentation Plenary Session on the afternoon of Sunday, March 12, 2017. Category oral abstract presenters will be awarded a monetary gift of \$100. The Fellow/Resident/Student Award* recipient will receive a monetary gift of \$200 and complimentary registration to the conference. **Oral presenters will be chosen only from abstracts submitted by December 19, 2016. Final acceptance of an abstract and reservation of space at the Poster Session requires that one of the listed authors be registered for the conference by January 28, 2017.**

Select the Register to Attend
button at www.breastcare.org

Then click on the

Michael J Kornstein; Eric Melzig; Mohammad Umair; Scott Somers; Tsz Ng, Henrico

Resident/Student Award Winner

Risk of BRCA/HBOC Mutations via Family History Assessment among Women Who Are Screened In Trinidad and Tobago
Gerneiva Parkinson, MD/MHS Candidate; Karen H. Wang, MD, MHS; Carol R. Oladele, PhD; Marcella Nunez-Smith, MD, MHS

CBE Certification

Tuesday-Wednesday, March 14-15

Clinical Breast Examiner Certification

Chair: Belinda Zaparinuk, RT(M), BS, CBEC;

Cathy Cole, NP, CBEC; Tracey Gomez, NP, CBEC; Debora Wright, RT(M), CBEC;

Penny Lynch, RT(R)(M), CBEC, , Eleanor Broadbus, RN, CN-BN, Chantal Kavgazoff-Heki, APN-C, CBEC

The purpose is to assure the public that the certified licensed breast health care provider has completed the NCBC CBE® program and has met minimum knowledge and performance standards by recognizing the individual who has met these standards. Candidates who pass the CBEC® may use the mark CBEC® to verify they have met all eligibility and testing requirements.

This one and a half day program is designed to utilize Clinical Breast Examination Skills to accomplish a CBE's Paramount Objective, the detection of any palpable breast mass, as another early detection tool to ultimately reduce breast cancer deaths. This is accomplished through a didactic review of Core Breast Knowledge, BSE Technique, Breast Oriented History, Breast Imaging, Diagnostic Procedures with Breast Pathology, Follow-up Recommendations and Risk Management. The didactic component of the program is followed by a full half day of demonstration and practicum on performing a Clinical Breast Examination. Patient models, students and instructors will interface in live scenarios to experience issues and challenges in performing clinical breast exams. This is a validation and certification program of the individual's current skills, and not designed to teach an individual who has not performed Clinical Breast Examinations.

Each student will receive resource materials that outline the major concepts that will be highlighted during the program and information that will be on the testing units. Also included in the resource materials are supplemental reading materials as well as a vocabulary list to assist in the understanding of program material. All test information is included in the resource material. Following Clinical Breast Examination performance review, students will be evaluated on their core knowledge, ability to perform a Clinical Breast Examination with a mock patient situation setting and their tactile skills regarding lump detection. A score of 85% or better must be achieved on the didactic written exam, the performance observation exam and tactile testing in order to pass the program and receive certification.

This program is available to licensed healthcare professionals (physicians, physician assistants, nurse practitioners, registered nurses and radiologic technologists). It is mandatory that individuals be actively performing clinical breast examinations as part of their ongoing job responsibilities. Although this program will provide core knowledge and review performance and tactile skills, this CBE Certification Program is not designed as an entry level or introductory course for practitioners interested in learning basic CBE skills. This CBE Certification Program is designed for practitioners seeking CBE Certification as validation of their mastery of the breast health knowledge and CBE skills.

Tuesday, March 14

8:00 - 8:10 am	Welcome and Introduction
8:10 - 8:45 am	Components of Breast Self-Examination
8:45 - 9:30 am	Components of Clinical Breast Examination A. Report that Core Knowledge is interfaced in CBE Demonstration B. Review the Components of a Clinical Breast Examination C. Report that CBE Components will have relevance shown in Clinical Breast Examination Demonstrations
9:30 - 9:45 am	15 Minute Break
9:45 - 10:00 am	BSE Performance-Demonstration
10:00 - 11:15 am	CBE Performance – Demonstration A. Patient History B. Physical Examination C. Assessment D. Plan of Care –within your scope of practice E. Questions and Answers
11:15 - 12:30 pm	Lunch On Your Own
12:30 - 1:00 pm	Case Study Case Study on your own or with peers during practice time Course Examinations and Scoring Discussion
1:00 - 2:30 pm	CBE/Tactile Student Practice
2:30 - 2:45 pm	15 Minute Break
2:45 - 4:45 pm	CBE/Tactile Student Practice

Wednesday, March 15

7:30 - 8:30 am	Core Knowledge Test
8:35 - 1:00 pm	Performance and Tactile Testing According to Test Schedule

BPN Certification

Tuesday or Wednesday, March 14-15

Breast Patient Navigator Certification

The Breast Patient Navigator Certification has been developed to set standards of achievement and the professional's role, enhance patient safety, improve the quality of care and delivery of services, and recognize professionals who advance beyond basic knowledge in a field of specialty. The Breast Patient Navigator Certification validates the medical professional's knowledge and performance standards through testing. Certification reflects an individual's achievement beyond licensure requirements and a basic level of knowledge. It exhibits dedication to validating a specific set of skills to provide enhanced care and services for patients and clients through advanced competency.

Criteria for the application to test are listed below. The NCBC Breast Patient Navigation Certification Program offers six types of Breast Patient Navigator Certifications: The Certified Navigator – Breast in Imaging, Management, Advocate, Clinical, Provider, or Nurse.

CERTIFIED NAVIGATORS – BREAST (+ individual designation based on licensure)

CN-BI = Diagnostic Imaging/Treatment Techs (All technologists from diagnostics to treatments)

CN-BM = Management/Social Worker (All social workers and managers of navigators)

CN-BA = Advocate (All volunteers/lay navigators)

CN-BC = Clinical (All certified medical assistants, technicians, licensed practical/vocational nurses)

CN-BP = Provider (All breast care diagnosticians, nurse practitioners, physicians, physician assts, breast care PhDs)

CN-BN = RN (All registered nurses from breast care, diagnostic imaging, treatment, survivorship, genetics)

Certification Eligibility Requirements: The applicant must:

- Be a licensed medical professional and hold a valid medical license as a physician, nurse, physician assistant, social worker, radiologic technologist, radiology practitioner assistant, social worker, or advanced practice nurse OR
- Be master level prepared in a health related field; OR
- Be a lay or volunteer navigator and have taken an approved patient navigation course; AND
- Navigate breast patients for at least 25% of the applicants job responsibility OR
- Have supervision of breast patient navigators; and
- Provide proof of valid license or certification (not required for those taking the Advocate examination); and
- Pay the certification fee of \$300 registration for current NCBC members (Current membership is required to maintain certification)
- Have current NCBC membership

Certification Eligibility Recommendation but not a Requirement:

- The applicant applying for certification should have at least two years' experience of navigating breast patients. This recommendation is based upon the review of the experience levels of those sitting for the exam and their passing or not passing the examination.

As soon as a person successfully enrolls for the program, a self-study binder is emailed within 7 working days. The binder does not contain all the material the applicant should review to prepare for the examinations. To prepare for the examinations the applicant should refresh him/herself on information received during their medical professional training. The binder contains a list of resources from which questions/answers were validated.

A passing score is of 80% or better is required to become certified. If an individual does not pass the examination, he/she may sit for the examination again during the next 12 months with no additional fee.

Navigator testing is available Tuesday or Wednesday at these times:

9:00 am **Registration Begins**

9:30 am **Tests Begin**

12:30 pm **Testing Ends**

Core Committee members:

Imaging: Andrew Newman, MS(M), RT(T), CN-BI

Management: Janell Clark-Brown, MSN, APN-BC, CN-BP, CBEC

Advocate: Becky Olson, BA, CN-BA

Clinical: Julie Schisler, LPN, BS, CN-BC

Provider: Cathy Cole, NP, MPH, CN-BP

Nurse: Colleen Sullivan-Moore, RN, CNN, CN-BN

Community Liaison: Linda Kramer, BS

Chair: Melissa Hopkins, RN, BA, CN-BN

Medical Advisor: Dr. John Bell, MD, FACS

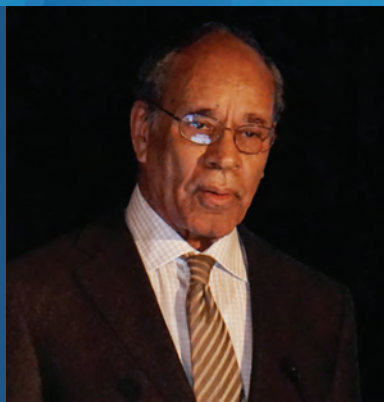

Medical Advisor: Dr. Ernie Bodai, MD, FACS

NCBC Staff Manager: Jennifer Cobb-Hayes, MSM, Ed.D (ABD)

Post Conference

Tuesday, March 14

Dr. Harold P. Freeman Patient Navigation Institute Navigation Review Course

Harold P. Freeman, MD; Rebecca Crane-Okada, PhD, RN, CNS, AOCN; Courtney Bowen, MS

Healthcare professionals and advocates including but not limited to nurses, radiology technicians, other licensed providers and non-licensed navigators will be presented with the most current information on navigation of breast patients across all phases of the healthcare continuum including outreach, screening, diagnosis, treatment and survivorship. The curriculum will include various modules of navigation which will familiarize participants with the skill sets required to navigate breast patients through various phases of the health care continuum. The trainees will be provided with pertinent information in preparation of the NCBC certification examination

8:00 - 9:30 am	Overview and Historical Prospective of Patient Navigation	Harold P. Freeman, MD
9:30 - 9:45 am	Break	
9:45 - 10:15 am	Clinical Navigation (Screening, Diagnosis, and Treatment) The Nurses Prospective	Rebecca Crane-Okada, PhD, RN, CNS, AOCN
10:15 - 11:15 am	Clinical Navigation Continue	Harold P. Freeman, MD; Rebecca Crane-Okada, PhD, RN, CNS, AOCN
11:15 - 12:30 pm	Lunch on your own	
12:30 - 2:00 pm	Lay Navigation (Advocate)/ (Outreach, Screening and Communication)-Developing a Navigation Program	Courtney Bowen, MS
2:00 - 2:15 pm	Break	
2:15 - 3:15 pm	Test Review: Case Studies	Harold P. Freeman, MD; Rebecca Crane-Okada ,PhD, RN, CNS, AOCN; Courtney Bowen, MS
3:15 - 4:00 pm	Learning Objective Review	Harold P. Freeman, MD
4:00 pm	Questions and Answers	
Course Concludes

Critical Quality Components in Breast Care

Cary S. Kaufman, MD, FACS; Karen A. Pollitt; Steffanye Hawbaker Mack

Goals for a High Quality Breast Center: Clarity by the NAPBC and NQMB. Recent years have seen several organizations define high quality breast cancer care. Only TWO organizations stand out by defining the optimal care provided in breast centers. The NAPBC (National Accreditation Program for Breast Centers) has identified 28 quality standards while the NQMB (National Quality Measures for Breast Centers) has identified 31 quality measures that critically define interdisciplinary performance of breast centers. This session goes beyond existing standards and measures to focus on goals to achieve the highest quality breast center care.

8:00 - 8:30 am	Why Accreditation Matters	Colette Salm-Schmid, MD, FACS
8:30 - 9:00 am	NQMB - A Universal Quality Program	Cary S. Kaufman, MD, FACS
9:00 - 9:30 am	Value of NAPBC Accreditation – Continuous Quality Improvement	Colette Salm-Schmid, MD, FACS
9:30 - 9:45 am	15 Minute Break	
9:45 - 10:45 am	Building a Dynamic Breast Center Leadership Team	Crystal Dugger, BSN, RN
10:45 - 11:15 am	A Remarkable Change to the NQMB – Introducing New Measures, Creating Benchmarks, Automating Abstraction	Cary S. Kaufman, MD, FACS
11:15 - 12:30 pm	Lunch On Your Own	
12:30 - 1:30 pm	Risk Assessment/Genetic Testing in the Age of Multi-Gene Panels	Scott M. Weissman, MS, CGC
1:30 - 2:00 pm	Utilizing Breast Quality Program Data to Move the Mark in Breast Care	Teresa Heckel, MBA, FABC
2:00 - 2:30 pm	Innovative Multidisciplinary Breast Conference	Terry Sarantou, MD, FACS
2:30 - 2:45 pm	15 Minute Break	
2:45 - 3:15 pm	NQMB Certification... Tips for Success	Donnetta Jackson, BA, CTR
3:15 - 3:45 pm	Breast Patient Navigation: A Key Quality Component Though the Continuum of Breast Cancer Care	Colleen Johnson, RN, NP, CN-BP
3:45 - 4:15 pm	Breast Cancer Survivorship Care in the Breast Center: Using your Resources to Meet the Survivorship Standards.	Linda Han, MD

Course concludes

27th Annual Interdisciplinary Breast Center Conference

March 11-15 • Paris Las Vegas

Conference Registration: www.BreastCare.org

Demonstrating Value In Breast Imaging

Jay R. Parikh, MD, FRCP(c), FACR, FACPE

There are significant economic challenges facing the United States, stimulating health care reform. In response, Secretary Burwell has written that the Centers for Medicare and Medicaid Services is ambitiously targeting a 90% shift in health care reimbursement from fee-for-service to value-based reimbursement by 2018. Imaging will need to more patient-centric and value-focused. In many respects, breast imaging has been the leader in radiology responding to this value paradigm. In this exciting session intended for radiologists, administrators, technologists, administrators and other interdisciplinary colleagues, internationally recognized speakers in breast imaging will present information regarding the proven and future potential value breast imaging potentially offers to patients, clinicians and society. The sessions in the morning and afternoon will end with an opportunity for audience members to participate in a dynamic question and answer session with the distinguished faculty. The primary aim is for participants to leave with knowledge and practical tips that they can use in their breast centers to increasingly demonstrate value.

master Series

7:15 - 7:30 am	Introduction to the Master Series Jay R. Parikh, MD, FRCP(c), FACR, FACPE
7:30 - 8:00 am	The Impact of Various Screening Guidelines on Society Robert Smith, PhD
8:00 - 8:30 am	Screening Mammogram Guidelines: What Science Shows and the Value to Society Edward Sickles, MD
8:30 - 9:00 am	Breast Screening: Over Diagnosis vs Overtreatment Robert Smith, PhD
9:00 - 9:30 am	The Value of Digital Breast Tomosynthesis Sarah Friedewald, MD
9:30 - 9:45 am	15 Minute Break
9:45 - 10:15 am	Probably Benign – Demonstrating Value Edward Sickles, MD
10:15 - 11:15 am	Does Breast Tissue Density Confer Significant Risk? Pro: Wendie Berg, MD Con: Edward Sickles, MD
11:15 - 11:45 am	Mammography Screening, Tomosynthesis and Breast Density – What Now? Jay R. Parikh, MD, FRCP(c), FACR, FACPE; Robert Smith, PhD; Sarah Friedewald, MD; Wendie Berg, MD and Edward Sickles, MD
11:45 - 12:45 pm	Lunch On Your Own
12:45 - 1:15 pm	The Value of Ultrasound Screening Wendie Berg, MD
1:15 - 1:45 pm	Ultrasound – Leave Alone Solid Lesions A. Thomas Stavros, MD, FACR
1:45 - 2:15 pm	Ultrasound Non-simple Cystic Lesions A. Thomas Stavros, MD, FACR
2:15 - 2:45 pm	MRI Screening – A New Technology with the Promise of Value Christiane Kuhl, MD
2:45 - 3:00 pm	15 Minute Break
3:00 - 3:30 pm	The Value of Ultrasound Nodal Basin Staging Wei Yang, MD
3:30 - 4:00 pm	MRI Staging of All Breast Cancers Shows Value Christiane Kuhl, MD
4:00 - 4:30 pm	The Value of Imaging the Breast Cancer Survivor Wei Yang, MD
4:30 - 5:00 pm	Mammography Screening, Tomosynthesis and Breast Density – What Now? Wendie Berg, MD; A. Thomas Stavros, MD, FACR; Christiane Kuhl, MD and Wei Yang, MD

Conference Registration: www.BreastCare.org

Post Conference

Monday and Tuesday, March 13-14

Master Technologist Course

Teresita Macarol, RT(R)(M)(QM), CN-BI; Louise Miller, RT(R)(M); Sarah Svob, AART-M & Kimberly Samuels-Bolin, BS, RT, ARRT, ARDMS

Mammography professionals will be presented with the most current techniques and advances used in mammography positioning for the detection of breast cancer, including implementation, presentation of proper positioning techniques and the importance of each positioning. Selection of spot compression and spot-magnification according to the mammographic findings will be explained. Challenging positioning examples will be explored with ways to address issues to achieve quality images.

Monday Evening, March 13

Stereotactic Techniques Dawn Derenburger, RTRM
6:00 - 8:30 pm This course provides an overview of the basics, as well as the tricks of the trade. Understand of the principles of stereology and patient positioning to facilitate the success of the stereotactic biopsy. Along with the ability to resolve technical challenges.

Tuesday, March 14

Mammography Positioning and Trouble Shooting Louise Miller, RT(R)(M)
8:00 - 9:30 am This time will cover the fundamentals and advanced principals of mammography. It is suitable for the new and the advanced mammographer. Techniques are based on consistency, reproducibility and the proper use of body ergonomics that guarantee improved image quality and less repeats or rejects.

9:30 - 9:45 am **15 Minute Break**

9:45 - 11:15 am **Mammography Positioning and Trouble Shooting** Continued

11:15 - 12:30 pm **Lunch On Your Own**

Ultrasound for Beginners Deborah Liebman, MD
12:30 - 2:30 pm Practical positioning and understand different transducer approaches and manipulations used to obtain optimum images of the breast. Including technique for measuring structures on ultrasound images and understanding breast ultrasound artifacts, understand why they occur, and describe techniques to minimize the occurrence of those that degrade the image.

2:30 - 2:45 pm **15 Minute Break**

2:45 - 4:15 pm **Ultrasound for Beginners** Continued

Course Concludes

Practical Application of Clinical Breast Cancer Genetics- Understanding the Complexities, Challenges and Opportunities to Enhance Care of High Risk Patients

Sandhya Pruthi, MD & Jennifer Scalia Wilbur, MS

Over the past couple years we have witnessed rapid advances in genetic testing for hereditary breast cancer. This course will lead attendees through a comprehensive review of the process of hereditary breast cancer risk assessment, genetic testing, and the translation of this information into personalized cancer surveillance and risk reduction. Focus will be placed on incorporating the latest data and testing options into your high-risk clinic. This will include the implication of breast tumor genomic testing on inherited risk assessment and the challenges surrounding multigene panel testing as it applies to risk and management interpretation. The attendees will have the opportunity to submit challenging cases from their practices to be discussed by experts in the field. The course is applicable to a wide range of healthcare practitioners including nurses/nurse navigators, gynecologists, oncologists, surgeons, genetic counselors, primary care physicians and social workers.

8:00 - 8:30 am	Who is at Risk? Breast Cancer Risk Factors	Holly Pederson, MD
8:30 - 9:00 am	The Pros and Cons of the Models Used for Breast Cancer Risk Assessment	Mary Freivogel, MS, CGC
9:00 - 9:30 am	Now What? Managing Women at High Risk for Breast Cancer	Sandhya Pruthi, MD
9:30 - 9:45 am	15 Minute Break	
9:45 - 10:15 am	Familial Breast Cancer Case Panel	Sandhya Pruthi, MD with Holly Pederson, MD; Mary Freivogel, MS, CGC; Jessica Laprise, MS, CGC
10:15 - 10:45 am	The Importance of Effective Cancer Counseling	Jessica Laprise, MS, CGC
10:45 - 11:15 am	Hereditary Breast Ovarian Cancer Syndrome – Risk and Management Update and Review	Scott M. Weissman, MS, CGC
11:15 - 12:30 pm	Lunch On Your Own	
12:30 - 1:00 pm	Less Common Inherited Breast Cancer Syndromes – Staying Up to Date	Jennifer Scalia Wilbur, MS
1:00 - 1:30 pm	Multiplex Panel Testing: The Complexities of Laboratory Choice, Result Interpretation and Pre and Post Test Counseling	Scott M. Weissman, MS, CGC
1:30 - 2:00 pm	Moderate Breast Cancer Genes: What Do We Know About Their Related Cancer Risks?	Nadine Tung, MD
2:00 - 2:30 pm	Management Guidelines and Strategies for Patients Harboring Novel Pathogenic Breast Cancer Gene Mutations	Nadine Tung, MD
2:30 - 2:45 pm	15 Minute Break	
2:45 - 3:15 pm	Using SNPs to Predict Breast Cancer Risk and How to Incorporate Tumor Genomics in Our Clinical Genetics Risk Assessment	Mary Freivogel, MS, CGC
3:15 - 3:45 pm	The Importance of Addressing Sexual Function in the Counseling of Our High Risk Patients and the Associated Psychosocial Issues	Jordan Rullo, PhD, LP
3:45 - 4:15 pm	High Risk Breast Cancer Case Panel - Submit Your Own Cases To Be Reviewed By Our Expert Panel	Jennifer Scalia Wilbur, MS with Nadine Tung, MD; Mary Freivogel, MS, CGC; Jordan Rullo, PhD, LP; Jessica Laprise, MS, CGC
Course Concludes		

Survivorship: It's Time for Clinical and Operational Specifics

Barbara Rabinowitz, PhD, MSW, RN & Tara Sanft, MD

Urged on by the NIH Monograph From Cancer Patient to Cancer Survivor: Lost in Transition, cancer professionals began to think in earnest and plan for this thereby declared phase of the cancer experience defined as Survivorship. While early work in this arena was uneven and exploratory, research and anecdotal experience has enhanced our knowledge. Over several years, NCBC has made a dedicated and ongoing commitment to presenting the best in the burgeoning understanding of the needs of those with breast cancer as they move into Survivorship. Responding to previous attendee's requests for education that includes 'actionable tools', this year's post-conference offers a leap forward and is deep and rich in presenting a broad range of the issues that position professionals to provide the best of breast cancer care related specifically to Survivorship. This is a post conference designed to meet the needs of a full range of those who serve this population with clinical sessions and operational sessions sharing the spotlight and addressing the specifics that make it possible to return from the conference with ideas to enhance their Survivorship programs/services

8:00 - 8:30 am	NCCN/ASCO Survivorship Guidelines Carrie Stricker, PhD, RN
8:30 - 9:00 am	Combating Fatigue and Insomnia Tara Sanft, MD
9:00 - 9:30 am	Will I Be the Same? Helping Mastectomy Survivors with Sexual Recovery Anne Katz, PhD, RN, FAAN
9:30 - 9:45 am	15 Minute Break
9:30 - 10:15 am	Chemo Comeback: What We Must Offer Survivors in Recovery from the Effects of Chemotherapy Tina Rizack, MD, MPH
10:15 - 10:45 am	The Hands On/How To Essential Elements to Having the Conversation About Hope at All Stages Tara Sanft, MD
10:45 - 11:15 am	Ask The Experts Open Session I Barbara Rabinowitz, PhD, MSW, RN Moderating with Carrie Stricker, PhD, RN; Tara Sanft, MD; Anne Katz PhD, RN, FAAN; Tina Rizack, MD, MPH
11:15 - 12:30 pm	Lunch On Your Own
12:30 - 1:00 pm	Survivorship Care Models – A Community Cancer Center Experience Magdolna Solti, MD
1:00 - 1:30 pm	Using All Your Resources: The Cancer Registry's Role in Survivorship Care Plans Randi K. Rycroft, MSPH, CTR
1:30 - 2:00 pm	When To, How To and Why It Matters: Having The Palliative Care Discussion Holly Yang, MD
2:00 - 2:30 pm	A Coping Skills Class for Survivors, Living Longer & Better Rakshanda Rahman, MD
2:30 - 2:45 pm	15 Minute Break
2:45 - 3:15 pm	Implementing Survivorship Care Plans in the Face of Multiple Barriers: Generalizable Lessons from Academia to Community Linda Han, MD
3:15 - 3:45 pm	A Consultant's Perspective: Leveraging Technology & Patient Engagement to Optimize Quality Survivorship Care Carrie Stricker PhD, RN
3:45 - 4:15 pm	Ask The Experts Open Session II Barbara Rabinowitz, PhD, MSW, RN Moderating with Magdolna Solti, MD; Randi K. Rycroft, MSPH, CTR; Rakshanda Rahman, MD; Carrie Stricker, PhD, RN; Holly Yang, MD; Linda Han, MD

Tuesday, March 14

Defining the Future: Expanding & Sustaining the Role of the Breast Center Navigator

Jane Berz, MSN, RN; Deborah Dix, RN, MS & Melissa Hopkins, RN, BA, CN-BN

This day-long series of education and networking is for experienced Patient Navigators looking to explore and expand the Navigational role with high quality, advanced Navigation information. Nationally recognized experts in their fields of study will explore such enriching topics as patient nutrition toolkits, high risk patient care, the evolving world of genetics, improving patient outcomes through a Navigational meta-analysis, and so much more. This is a unique, challenging must see series of lectures. Navigators lament on the lack of complex information for working with complex patient issues from the perspective of the Patient Navigator. NCBC has listened and this is the program designed specifically for you!

8:00 - 8:15 am	Welcome Deborah Dix, RN, MS
8:15 - 9:00 am	The Here and Now: How Breast Center Navigators are Implementing Their Roles Today Melissa Hopkins, RN, BA, CN-BN
9:00 - 9:30 am	Caring for the Whole Patient: Future Trends Jane Berz, MSN, RN
9:30 - 9:45 am	15 Minute Break
9:45 - 10:15 am	NAPBC/NQNBC Quality Measures and Program Participation - Understanding the Nurse Navigator's Role Amy L. Beazizo, MS, RN, OCN, CN-BM
10:15 - 10:45 am	Navigating Your Patient Through the Terrain of Breast Cancer Genomics Kelly McAllister, RN, OCN
10:45 - 11:15 am	Oncology Rehab Pilot: A Fast Track to Provider Engagement Megan Pfarr, PT, PhD
11:15 - 12:30 pm	Lunch On Your Own
12:30 - 1:00 pm	Feed Yourself to Fight Breast Cancer: Expand Your Nutritional Toolkit...and Your Mind Sherry Hammond, RD and Drew Ebersole
1:00 - 1:30 pm	The High Risk Patient: Who Are They and What is the Navigator Role? Kim VanYsseldyk, RN, MS, NP
1:30 - 2:00 pm	Genetics: BRCA1/2 and Beyond: Understanding Cancer Genetic Testing and Multi-Gene Panels for Hereditary Breast Cancer Syndromes Kim VanYsseldyk, RN, MS, NP
2:00 - 2:30 pm	The Survivorship Care Plan: Techniques for the Breast Center Navigator to Achieve Success Amy L. Beazizo, MS, RN, OCN, CN-BN
2:30 - 2:45 pm	15 Minute Break
2:45 - 3:15 pm	Taking Rehab Beyond Lymphedema: How to Get the Most from Your Team Megan Pfarr, PT, PhD
3:15 - 3:45 pm	Navigation and Improved Patient Outcomes: a Meta-Analysis Cathy J. F. Cole, NP-BC, MPH, CHES, CN-BP
3:45 - 4:15 pm	The Alchemy of Resilience: Transforming from Surviving to Thriving While Navigating Breast Cancer Patients Sherry Hammond, RD and Drew Ebersole

General Information

Meals: The registration fee includes complimentary breakfast symposia, lunches, breaks and receptions, Saturday through Monday. Each registrant will be provided a package of meal and special reception tickets with their registration materials. If a meal ticket is lost a replacement may be purchased at \$65 per meal function. Family or friends that would like to attend breakfast or lunch may do so at the above rate. **We work very diligently to provide each meal to have a variety of choices to meet all special needs in food. If you require specific meal needs please refer to Paris restaurants for additional options.**

Breakfast Symposia: Enjoy breakfast each morning while learning about new and upcoming products from outstanding companies. Each morning, breakfast will be served from 6:45 – 7:45am.

Saturday Evening “Rock Around the Clock” Exhibitor Reception: This reception is designed to allow guests & service providers to socialize and establish new relationships with professional peers from around the country. We hope conference guests use this time to meet fellow professionals, with whom they may share time together after the vendor reception, enjoying the sites of Las Vegas.

Sunday Evening Poster Reception: This event is designed to allow guests to view all posters on display and interact with the authors and presenters. We hope conference guests use this time to learn about ground-breaking new programs and treatment techniques being implemented by breast health care facilities worldwide.

Exhibit Hall: An array of specialized technology, equipment, products, and services will be on display for breast centers, group practices, and practitioners of breast health care. Exhibits will be open during non-lecture times (breaks and meals). Visit the NCBC website www.breastcare.org to view a list of all exhibitors to date.

Recommended Dress: Business casual. Temperatures in meeting rooms and personal comforts vary greatly. As meeting rooms usually seem cold, please bring a sweater or jacket to compensate.

Registration Materials: Each attendee will receive a conference brochure, which will contain a link to view speaker information on line, conference logistic information, exhibitor and sponsor listings and other pertinent information.

Disability Statement: If you have a disability, please contact the NCBC office by January 24, 2017 to notify the staff of any special needs in order to help us better serve you.

Benefits of Conference Registration: When you join us at our 27th Annual Interdisciplinary Breast Center Conference you will benefit from the knowledge of world class presenters, network with breast health professionals from around the world, and view the latest technology from the vendors in the exhibit hall. Earn your CME’s or CEU’s, all while spending time in Las Vegas.

Consent to Use Photographic Images: Registration and attendance at, or participation in, NCoBC meetings and other activities constitutes an agreement by the registrant to NCBC’s use and distribution (both now and in the future) of the registrant or attendee’s image.

Evening Networking: For individuals attending the conference alone or wanting to meet peers from around the country. The Evening Networking Program has been very successful. If you are attending the conference without your coworkers, friends or significant other and would like to experience what Vegas has to offer, but not alone, this is the group to join! Julie Susi from Mercy Hospital in Portland, Maine and Ann Livingston from Sinai Grace Hospital Mammography Center in Detroit, Michigan, will bring together conference attendees who will be attending by themselves and want to meet peers from around the country. Julie plans to organize individuals into small networking groups to enjoy Vegas in the evenings after the day-long conference. If you are attending the conference alone and would like to network with a group of fellow peers contact Julie Susi at susij@mercyme.com or call the NCBC office at 574-267-8058 and let her know your arrival date and time. You will be invited to a meeting to organize and break off into groups according to interests, i.e. dancing, exercise, dinner, shows, gambling, shopping, etc. It’s a sure way to network and have lots of fun!

Schedule at a Glance

Saturday March 11	Sunday March 12	Monday March 13	Tuesday March 14	Wednesday March 15
