

29th - 31st AUGUST 2019 | JW Marriott, Kolkata

Hernia Unplugged - from Bassini to the Future

Welcome to HSICON 2019

Here is calling all the surgeons in the World who are interested in the field of Hernia

The science of hernia repair is undergoing a sea of change yet again. Questions such as - is it safe to put in mesh intra peritoneally? Is bridging the defect acceptable? Can we put in a mesh that leaves no residue? Will the robot replace human in hernia repair?

Not to mention the Rise of acronyms like eTEP, TAR, SCOLA, MILOS, MILAR, TARM, TAPE, that are threatening even the very erudite hernia surgeons

It's like being an Alice in the Wonderland and these questions echo the curiosity of the White Rabbit when he asked the King "Where should I begin?"

In **HSICON 2019**, on **29-31 August**, at **Kolkata**, we will answer this question like the King did

"Begin at the beginning and go on till you come to the End"

And therefore we have titled the conference as
HERNIA Unplugged- From Bassini to the Future

Literally, we will pack all that is happening in the Hernia Wonderland in these 3 days

If you don't have time to spare, you better have a good reason
