Electronic Prescribing In Hospitals: Moving Forward

10% Card payments discount*
15% Group booking discount**

Thursday 6 October 2016 The Studio Birmingham

"In order to deliver the National Information Board 2020 vision for personalised health and care, implementing full EPMA across the NHS is essential." Operational productivity and performance in English NHS acute hospitals: Unwarranted variations, An independent report for the Department of Health by Lord Carter of Coles, February 2016

"The benefits of eprescribing include efficiency gains - No lost charts – time saving, Immediate access to information – no chart transfer, No re-writing of charts, Administration time reductions, and Reduction in adverse drug events and Reduction in missed doses" Ann Slee, ePrescribing Lead, NHS England June 2015

"Expanding the use of electronic prescribing by doctors and nurses in hospitals will help the NHS save lives and save money." Professor Sir Bruce Keogh, Medical Director of NHS England

"Studies show electronic prescribing can cut prescription errors – which can be present in as many as 8% of hospital prescriptions – by up to 50%" NHS England

"NHS Trust Boards are reminded that the impetus for renewed focus on the benefits of ePrescribing is to improve quality of care, reduce opportunity for error and enable communication of essential information across systems" Safer hospitals, safer wards: Achieving and integrated digital care record, NHS England

This conference, with an opening address from **Anne Slee, ePrescribing Lead at NHS England**, looks at moving forward with Electronic Prescribing and Medicines Administration (EPMA) in a hospital setting and where eprescribing fits within your digital roadmap to a paper free at the point of care service. Electronic Prescribing has the potential to support the medicines use process that can be delivered at every stage from prescribing to administration, it can provide management of prescriptions and will also give immediate access to medicines information.

Sessions will provide delegates with the understanding of how to implement and move forward with Electronic Prescribing in practice. Through learning from experienced implementers and case studies the conference will look at critical success factors in going live with eprescribing, and will particularly focus on moving forward with your eprescribing system into more complex areas with case studies in oncology, mental health, intensive and critical care and paediatrics. There will be case studies on Electronic Prescribing which will highlight the clinical benefits and engaging the clinical staff and the impact of eprescribing on prescribing and medication errors. The final session will discuss maintenance of existing prescribing systems and developing new functionality including transitioning between systems.

Follow the conference on twitter using #EPrescribing

09.30-10.00 Pre Conference Supplier Showcase

The supplier showcase will be optional for delegates to attend and will include presentations from the key electronic prescribing systems suppliers

Speakers to be announced

09.30-10.10 Pre Conference Supplier Showcase (Optional)

The supplier showcase will be optional for delegates to attend and will include presentations from the key electronic prescribing systems suppliers

10.20 Chairman's Introduction

Sean Brennan *Independent Consultant in Healthcare Informatics Clinical Matrix*

10.25 Delivering a Paperless NHS

Ann Slee
ePrescribing Lead
NHS England

- where eprescribing should fit in your digital roadmap highlighting how, amongst a range of digital service capabilities, you will ensure clinicians in all care settings will be operating without the need to find or complete paper records by 2018 and that by 2020 all patient and care records will be digital, real-time and interoperable
- developing effective measures of eprescribing maturity
- where Electronic Prescribing fits into Electronic Patient Records
- standardizing eprescribing across hospitals
- understanding digital maturity
- how can we use eprescribing to change prescribing behavior
- moving forward: critical success factors

10.50 Towards the Digital Hospital: Electronic Prescribing within EPR

Speaker to be announced

- electronic prescribing within an integrated EPR
- where eprescribing fits within our digital roadmap
- moving beyond the hospital to whole systems
- towards a digital hospital
- links to the NHS five year forward view and the digital road

11.15 *Question and answers, followed by coffee and exhibition*

11.50 Electronic Prescribing: learning from two decades of experience

Brian Power
Lead Informatics Pharmacist
Wirral University Teaching Hospitals NHS Foundation Trust
Wirral University Teaching Hospital NHS Foundation Trust have over 20 years of experience of electronic prescribing

- embedding an electronic prescribing system to drive changes in clinical practice
- engaging clinicians in electronic prescribing and medicines administration
- our approach, experience, critical success factors and developments
- lessons and learning from two decades of electronic prescribing
- challenges in migrating to a new electronic prescribing system

13.00 *Question and answers, followed by lunch and exhibition*

Electronic Prescribing in complex Clinical Areas: Case Studies

13.50 Electronic Prescribing in Mental Health

Dr Trevor Broughton
Consultant Forensic Psychiatrist
Norfolk and Suffolk NHS Foundation Trust

- electronic prescribing in mental health
- our experience

14.15 Electronic Prescribing in Intensive & Critical Care

Dr John Knighton
Clinical Director for Critical Care
Portsmouth Hospitals NHS Trust

- electronic prescribing in intensive & critical care
- considerations and challenges
- our experience

14.40 Electronic Prescribing in high risk areas Case study: Oncology Electronic Prescribing

Nichola Evans *Group Director of Oncology BMI Healthcare*
with **Rahil Ahmed** *Lead Pharmacist - Chemotherapy Electronic Prescribing BMI Healthcare*

- electronic prescribing in cancer care
- incorporating safety alerts
- our experience

15.05 Case Study: Paediatric Electronic Prescribing

David Terry
Director - Pharmacy Academic Practice Unit
Birmingham Children's Hospital NHS Foundation Trust

- electronic prescribing and medication errors in paediatrics
- issues specific to paediatrics
- our experience

15.30 *Question and answers, followed by tea at 15.40*

16.00 Rolling out eprescribing trust wide: critical success factors

Speaker to be announced

- our experience of electronic prescribing in Kings as part of developing a paperless hospital: learning from going live on almost 100% of adult wards
- going live on the more difficult areas of a hospital
- EPMA, self medication and extended prescribing including independent non medical prescribing, supplementary prescribing and patient group directions
- what will your critical success factors and obstacles be in your organization?
- are there any areas that should be avoided
- maintenance of your electronic prescribing system
- managing new functions and enhancements

16.30 Reducing prescribing and medication errors

Speaker to be announced

- the impact of electronic prescribing on medication errors
- improving accuracy in prescribing, dispensing and drug administration decisions
- providing a clear audit trail for each individual healthcare professional and each individual drug
- the role of eprescribing in identifying missed or delayed doses
- delivering clinically accurate information to support prescribing decisions
- our experience

17.00 *Questions and Answers, chairman's closing remarks*
