Welcome Note

Dear Colleagues,

We welcome you to the 2nd Comprehensive Endocrine Review Course organized by the AACE Gulf Chapter. The course will be held at the Intercontinental Hotel in Dubai, United Arab Emirates on the 18th & 19th of November, 2016.

Building on the success of last year's course, we have assembled an advanced 2-day course with internationally renowned faculty who would share their extensive knowledge and experience with the attendees over the 2-day course time. The course offers an educational platform that focuses on case-based exam questions and discussion covering different aspects of clinical endocrinology and metabolism. It is designed to cover major topics in diabetes, lipid, obesity, osteoporosis, metabolism, bone, pituitary & neuroendocrine, adrenal, thyroid, and reproductive endocrine disorders. There will be ample opportunities for interaction and participation in a quiet and convenient setting.

We are looking forward to welcoming your participation in this rich and enjoyable educational experience to enhance your knowledge in endocrinology and provide you with an excellent forum for learning and networking.

Sincerely,

Ali Alzahrani, MD, FACE
Chair, Organizing Committee
Co-Director, Endocrine Review Course
Immediate Past President, AACE Gulf Chapter
Kingdom of Saudi Arabia

Ahmed Hassoun, MD, FACE, FACP

About the Course

The AACE GC Endocrine Review Course offers a comprehensive update and deep review in a mock-exam format, with case-based board-style questions forming the bulk of the presentations.

Each section follows the blueprint for the board exam with the correct and incorrect answer options reviewed in detail. You'll also have opportunities to interact directly with the faculty.

Target Audience

- Practicing endocrinologists to prepare them for recertification or to update their knowledge.
- Endocrine fellows especially those preparing to sit for board/certification exams.
- Physicians/internists who desire to update their knowledge in endocrinology and diabetes. The course will help them in diagnosing and managing endocrine cases that they encounter in their daily practice.

CME Accreditation

CME Credit Hours (category 1) will be sought .

Course Topics

- Pituitary Disorders
- Thyroid Disorders
- Adrenal Gland
- Female & male Reproductive Disorders
- Diabetes Type 1 & 2
- Lipid Disorders
- Calcium & Bone Disorders
- Obesity
