2nd Annual

Hereditary Cancer Symposium for Health Care Providers

The educational symposium will ensure that the health care providers emerge with enhanced skills and the ability to improve patient care. The purpose of this one day symposium is to prepare clinical healthcare providers to:

- Integrate genetic testing advances into clinical practice
- Tailor medical management recommendations to genetic test results and/or family history
- Identify systemic therapies appropriate for specific genetic findings
- Choose appropriate genetic testing for each patient
- Determine how to integrate genetic counseling into current clinic flow
