

Royal College of Anaesthetists, London Monday, 19 March 2018

Clinical Content Leads: Dr Ramana Alladi and Dr Akbar Vohra
Registration price: £200 (£150 for trainee members of the RCoA)

#RCoACPD

5 CPD Credits anticipated

Explore the pros and cons of regional anaesthesia and take an in-depth look at the latest research. Is regional anaesthesia always the best option or could you be putting your patients at unnecessary risk?

Experts will present current thinking and best practice in common applications of regional anaesthesia and explore more specialist topics such as treating malignant patients, the role of regional anaesthesia in paediatrics and the incorporation of block rooms within the operating theatre itself.

08.45-09.30	REGISTRATION AND REFRESHMENTS
09.30-09.40	Welcome and introduction
09.40-10.10	Catheter techniques and joint infiltrations of local anaesthetics: Scope and evidence
10.10-10.40	Regional anaesthesia and analgesia for abdominal surgery: Where are we now?
10.40-10.50	Q&A
10.50-11.10	REFRESHMENTS
11.10-11.40	Outcome and quality benefits of regional anaesthesia
11.40-12.10	Complications of regional anaesthesia: Prevention and monitoring
12.10-12.40	Ultrasound and neuraxial blocks: Current fad or the way forward?
12.40-12.55	Q&A
12.55-13.55	LUNCH
13.55-14.25	Models for optimising regional anaesthesia in the operating theatre
14.25-14.55	Regional anaesthesia and cancer: More than pain relief?
14.55-15.05	Q&A
15.05-15.25	REFRESHMENTS
15.25-15.55	Spinal anaesthesia for day case surgery
15.55-16.25	What is the role of regional anaesthesia in paediatric practice?
16.25-16.55	The role of the sympathetic nervous system in acute and chronic pain
16.55-17.10	Q&A AND CLOSE
