Hilton Sedona Resort at Bell Rock The Hilton Sedona Resort at Bell Rock is located in Northern Arizona, just 90 minutes north of Phoenix, and is Sedona's closest resort to the Valley of the Sun. This resort offers beautifully appointed guestrooms exquisitely decorated with Southwest features.

Newly renovated guestrooms feature a gas fireplace, patio or balcony, microwave, wet bar, coffee maker, hair dryer, iron/board, and high speed Internet access. In the tradition of a first-class resort, the following services are offered: concierge, room service, valet laundry, sight-seeing tours, and more.

Tee it up at the Sedona Golf Resort, just steps from your room, featuring emerald greens set amid towering crimson sentinels. Not a golfer? Try the Hilton Spa, just steps from the Resort's main building. Enjoy the beautiful cascades pool or the ShadowRock pool. For your dining pleasure, savor the delectable fare at The Grille at ShadowRock.

MEDICAL DIRECTOR: Mark Murphy, MD, MSN Education, Austin, Texas and Northwest Seminars, Pasco, Washington

TARGET AUDIENCE: This course is designed for physicians, physician assistants, nurse practitioners, registered nurses, paramedics, pre-hospital emergency medicine care providers and all other medical care providers who must maintain state-of-the-art knowledge of the specialty or are impacted by it.

PROGRAM PURPOSE: The practitioner of emergency medicine must possess evidence-based scientific background for competent clinical practice; maintain state-of-the-art knowledge of the specialty and all additional related disciplines; maintain an up-to-the-minute armamentarium of knowledge and skills for the selection and use of complex equipment, pharmacological agents, and procedures; manage self and colleagues to function toward common goals in providing consistent care in all settings in which emergency care is provided; serve as an expert in matters involving quality, safe and equitable health care delivery and support of other service providers, departments, institutions, and organizations dependent upon professional expertise. Presentations are designed to facilitate the acquisition of cognitive and technical skills as defined through evidenced based data translated to best practice standards by the pertinent governmental and professional organizations including the American College of Emergency Physicians, American College of Surgeons and the Emergency Nurses Association and abilities in one or more of the disciplines vital to the practicing professional.

OBJECTIVES: At the conclusion of this activity, the participant will be able to:
Apply the pertinent physical and behavioral sciences as they impact and are affected by the planning, delivery, and monitoring of services inherent in the professions

Explain the selection, dosing considerations with methods of administration, safe use, contraindications and precautions of drugs based on their chemical and pharmacologic properties

Outline comprehensive patient management plans for the special patient population

Apply the principles of safety and asepsis in the performance of all aspects of patient care regardless of the clinical environment in which the practice resides

Incorporate the published tenets of pertinent, recognized external organizations, institutions, and professional groups defining medical, legal, philosophical, ethical, and health care management standards.

ACCREDITATION: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The A.
