

Multidisciplinary Skull Base Surgery: A Team Approach Part I

In part 1 of this series on skull based surgery, Winfield Fisher MD and Erika Walsh MD lead a discussion of the complexity of lateral skull base surgery and the benefit of a team approach. Including discussion of disease processes treated, types of preoperative evaluations, surgical techniques and referral process

Featured Speaker:

Winfield Fisher, MD | Erika Walsh, MD

Dr. Fisher has spent the majority of his career at UAB developing a nationally recognized neurovascular service. This has included not only a state-of-the art neurosurgical unit, but active participation in intensive care and gamma knife therapy. He is the presently head of one of the largest Neurointensive care units in the country.
