DESCRIPTION

This activity will educate health care practitioners regarding the current understanding of the risks and benefits of CABG and PCI and their use in clinical practice. Through an evidence-based approach to these options, providers will be able to incorporate the most up-to-date research into their clinical practice and, thus, optimize patient outcomes.

TARGET AUDIENCE

Cardiologists, Internal Medicine and Subspecialists, Surgeons, Nurses, Physician Assistants, Nurse Practitioners

COURSE CO-DIRECTORS

Lars G. Svensson, MD, PhD
Chairman, Heart and Vascular Institute, Cleveland Clinic

Steven Nissen, MD
Chairman, Cardiovascular Department Medicine, Cleveland Clinic

Faisal Bakaeen, MD
Staff, Department of Thoracic and Cardiovascular Surgery, Cleveland Clinic

Katherine Hoercher, RN
Senior Director, Heart and Vascular Institute, Cleveland Clinic

LEARNING OBJECTIVES

After completing this educational activity, participants will be able to do the following:

- Describe the options for noninvasive testing and the patient populations that will benefit most from their use
- Critically assess the evidence-base supporting expanded use of PCI in revascularization
- Debate the clinical trial results comparing bioresorbable stents vs traditional drug-eluting stents
- Critically assess the evidence base supporting CABG use for revascularization
- Summarize recent data on concomitant diseases, quality measures, and surgical techniques, and describe their implications for clinical practice

HOTEL ACCOMMODATIONS

A block of guest rooms has been reserved at the InterContinental Hotel & Conference Center at a reduced rate of \$189.00 plus tax per night. Rooms can be booked by calling (855) 765-8709 and identifying yourself as a conference attendee.

Guest rooms must be cancelled by 6:00 pm (EST) the day prior to arrival to avoid a no-show charge.
