Te Papa - Wellington
13th - 15th October 2016

follow the white rabbit...

The coolest little city in New Zealand.

Vibrant and Fresh, Wellington offers the fantastic Te Papa Museum as the venue for the 2016 NZIDT Conference. Our national Museum at present is home to the Gallipoli ANZAC Display. Situated on the edge of the harbour, Te Papa is only a stone's throw away from the hub of Wellington's restaurants and nightlife, and the top end shopping precinct in the other direction.

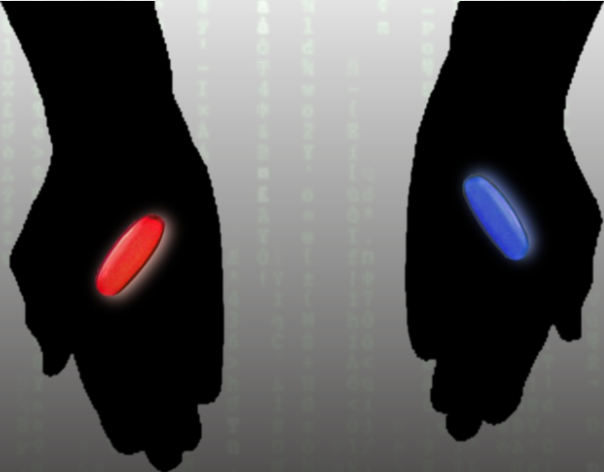

A variety of hotels and accommodation are within walking distance to the venue, these ranging from the beautiful Museum Art hotel, to Ibis, there is something for everyone.

International guests will love the vibe of this beautiful place, the location of the iconic building of Te Papa and the surrounding Buzz of the City.

About the Speakers

> Dr Julian Conejo

International Speaker: Russia, Australia, Germany, Mexico, Uruguay, Colombia, Chile, Nicaragua, El Salvador, Costa Rica.

"Treatment options for the edentulous patient" FRIDAY 14/10/2016

Topics: Complete dentures, over-dentures and hybrid dentures with a focus on Cadd/Cam framework design.

This course will go through several theories of occlusion and focus on the Physiological Occlusion Concept.

Theoretical and practical guidelines will be presented to the participants so they can apply these concepts in their daily practices.

> Luc Rutten

Luc and his brother Patrick maintain a dental laboratory in Tessenderlo/Begium, dedicated to ceramics and esthetic implantology.

"New trends and materials in aesthetic implantology with a particular focus on emergence profile - manipulation of the gingiva to achieve a harmonious relationship between soft tissue and crown"

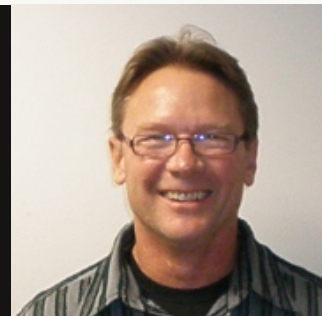

FRIDAY 14/10/2016

The programme will include films showing the application of ceramics, painting of full contour zirconia, occlusion, articulation and many other aspects of crown and bridge. Luc's explanation of layering is from a very neutral base so that regardless of the porcelain participants use they will be able to apply this information to their own ceramic build ups.

> Barry Williams

.

Sponsored by: Argibond

"The Audit Process" FRIDAY 14/10/2016

Each year, the DCNZ randomly select 10% of practitioners from each profession and send them a questionnaire on compliance to its practice standards. From this group, the Council randomly select a number of practitioners for visits to confirm compliance. These visits are referred to as practice audits. Barry will discuss the audit process from his perspective as the Council appointed auditor.

> Russell Young

Russell is a qualified Dental Prosthetist and combines clinical knowledge and artistry with his vast experience as a Master Dental Ceramist.

Sponsored by: Ivoclar

"IPS e.max® to the Max" utilising DSD SATURDAY 15/10/2016

You will learn and be inspired by Russell, who will share some interesting cases and his secrets to e.max in layering techniques, shaping teeth, texture, painting techniques, colour and design in E.max Veneer & Crown restorations. Discuss and analyse the selection of ceramics powders and build up to final result. It will also include Digital Smile Design, 2D -3D Digital workflow in the 21st Century using e.max

> Andrew Cautley

Andrew is a Prosthodontist from Nelson, where for the past twenty-two years he has a busy specialist practice focused on fixed prosthodontics and implants.

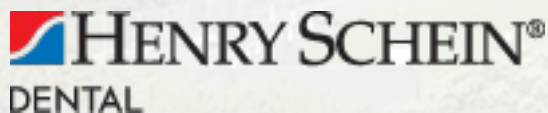

Sponsored by: Oraltec

"Occlusion: Practical guidelines and useful tools" SATURDAY 15/10/2016

The subject of occlusion can be both confusing and frustrating. There are important things to consider and some that are not so important. What we all need is a simple framework to operate by, and useful tools to achieve our goals. This presentation will focus on both of these areas, and will emphasise the importance of an understanding of articulators, (both theoretical and practical), and the value of using them properly in practice.
