WELCOME

Dear Colleagues,

We are delighted to welcome you to Paris for the 18th edition of IMCAS Annual World Congress taking place from January 28 to 31, 2016.

IMCAS Annual World Congress is one of the most important congresses in the calendar year for thousands of plastic surgeons, dermatologists and other aesthetic practitioners from all over the world who come to Paris to experience the thrill of learning something new, the joy of meeting with peers, colleagues and friends in a stimulating environment and the excitement of exploring the beautiful French capital.

This year you can benefit from more than 150 learning hours spread through 8 rooms over 4 days. Build and develop your knowledge of both invasive and non-invasive aesthetic procedures alongside essential practice management skills and industry insights. From cadaver dissections and live demonstrations to regional masterclasses and cutting-edge procedures, our speakers will offer up a veritable feast of knowledge. With so much variety on offer, you can pick and choose which sessions you want to attend and thus create a truly bespoke training program.

Furthermore, visit the large exhibition hall to meet with companies from around the world and take advantage of events such as the Networking Cocktail and the Gala Dinner to develop relationships with international peers.

We hope that you enjoy browsing this scientific program and we look forward to warmly welcoming you to Paris.
