Welcome to DASIL

We welcome you to DASIL: the Dermatologic & Aesthetic International League. We are dedicated physicians and teachers who welcome all from around the world to be a part of this exciting new League.

DASIL is you: the dermatologist who enjoys surgery, the cosmetic surgeon who enjoys fillers, toxins, skin care and energy-based systems.

We encourage teaching, we encourage exchange of knowledge, and we encourage

DASIL Vision

DASIL will accomplish its mission through a series of grand strategies which will include but not be limited to the following:

1. Cooperate and partner with all national organizations that subscribe to and support DASIL's mission.
2. Encourage and promote the highest possible care of patients on a worldwide basis.
3. Promote and support collegial relationships worldwide among those physicians and surgeons who practice dermatologic and aesthetic surgery with all other members of the healthcare team who participate in and support this form of patient care.
4. Be an open and welcoming organization for all members of the healthcare practice team through DASIL membership and provision of meaningful continuing educational experiences.
5. Encourage the growth and development of national societies that will represent similar practitioners.
6. Operate and manage DASIL in an open, transparent and democratic manner for its members and for the public.
7. Ensure that future generations of leaders of these practitioner types worldwide will have values that are consistent and aligned with the mission of the DASIL. The planned mentoring and scar initiative programs will be the core elements and focal points by which this will be accomplished.

openness at every level of the organization.

DASIL is you - we will be working with our plastic surgical and other core specialty physicians to ensure we all work as one. Our goal is to teach with the best teachers available with contributions from all the core specialties.

DASIL is you - join today and join your colleagues from around the world in something truly unique and exciting.

The Assembly of National Affiliated Societies (ANAS) is the representative body of all DASIL affiliated societies. Its purpose is to provide a forum for addressing and developing solutions for issues confronting the affiliated societies, to provide mentoring services to the affiliated societies and their members, and to provide a direct link of the national societies to the DASIL Board of Directors. ANAS officers, who are nominated and elected by the members of the ANAS, also sit as voting members of the DASIL BOD.

The Mission of the Dermatologic & Aesthetic Surgery International League (DASIL)

is to create a global community for the open exchange of knowledge and innovation by physicians specializing in Dermatologic and Aesthetic Surgery. Through our ongoing educational activities and by establishing a higher standard of care, people living around the world will benefit from safer, more effective dermatologic and aesthetic treatments.

Why DASIL?

- Complimentary subscriptions to top industry journals
- Annual congress featuring world-renowned aesthetic training and industry presentations
- Interactive society with members-only physician portal to discuss cases, treatments, etc. with colleagues
- Mentorship program ensuring young members the best in training opportunities
- Discounts on multiple practice tools including website design, brochures and management functions

Organizational Values

1. There will be transparency for all governance activities, planning and decision making.
2. Leadership selection will be done through an open democratic process that will include broad based and represented member participation.
3. Term and limits of service will be applied to all DASIL leadership positions.
4. Younger members will be a priority and will be encouraged and will be prepared for and expected to assume leadership roles in DASIL and in their national societies
5. DASIL will be an open and welcoming organization and will promote membership to physicians and surgeons committed to patient care through improvement of their appearance as a means of improving the patients' quality of life.
6. DASIL's scope is international and thus there is no bias or preferential treatment for any of the various regions of the world.
7. Committees and other organizational units will be created on the basis of need. When that need is satisfied the unit will be disbanded and its members thanked for their service and accomplishments.
8. The functions and outcomes of each organizational unit will be evaluated at least annually.
9. All committees, task forces or project teams established by the Board of Directors will have a mission statement that aligns with DASIL's mission and at least one of its vision statements.
10. Leaders of the organization will be accountable to the membership for all of their activities as leaders.
11. DASIL activities will be driven by a written and prioritized strategic plan and an annual operations plan that is reviewed and approved by the Board of Directors. These plans will be made available to all members and the public.
12. The results of the strategic and annual operational plans will be evaluated on an annual basis through the use of a systematic, objective and written instrument that will be available to all of the members.
