RECENT TESTIMONIALS:

It was a wonderful learning experience with seeing old and making NEW professional acquaintances. The material is deep and broad and a good foundation for beginners or those wanting a refresher with up-to-date regulations, science and references.

SO glad that I attended the symposium! I have a clear understanding of my role as Lab Director.

All the organizers, presenters and staff were extremely courteous and helpful. This is a "trade mark" of COLA and I am pleased to see that it carries over into the CRI events.

Enjoyed the Symposium enormously!! I found the conference to be excellent! It was very organized and professional. The topics were great!

LABORATORY DIRECTOR CLIA QUALIFICATION

At the CRI Symposium for Clinical Laboratories, physicians can obtain 20 CME credits to qualify as the laboratory director of a moderate complexity laboratory under CLIA'88. Physicians seeking laboratory director qualification must attend the specified sessions designated as the Lab Director Track. Those sessions provide the necessary CME credit and are instructionally designed with the lab director and corresponding responsibilities in mind.

The sessions in the Lab Director Track are also a great refresher for acting laboratory directors!

CME CREDIT

The Laboratory Director Track will offer CME as prescribed credits by the American Academy of Family Physicians. AAFP Prescribed credit is accepted by the American Medical Association as equivalent to AMA PRA Category 1 Credit™ toward the AMA Physician's Recognition Award.
