

Workshop: January 18, 2018
Conference: January 19-21, 2018
Venue: The Leela Mumbai

19th Annual Conference of the Indian Society of Neuroanaesthesiology and Critical Care

HIGHLIGHT OF
THE MEETING:
**International
Symposium on
Neurotrauma**

Join us in Mumbai for the
2018 ISNACC Annual Conference

Interactive Pre-conference Workshops and events
will address:

- NEUROSIMULATION
- ENLS
- MULTIMODALITY NEURO MONITORING

Exciting scientific program providing a perfect blend
of advances in basic research and technology,
uptodate lectures, debates and other presentations
follow.

Welcome Message

We are privileged and proud to host the **ISNACC 2018** in this "maximum city" Mumbai. The hard work and careful nurturing of our esteemed seniors over a period of almost two decades, has seen ISNACC become vibrant, vital, dynamic and academically at par with all the National and International Neurosciences Societies.

We have had previous two ISNACC Annual meetings in 2002 and 2006 in Mumbai. Both the meetings became landmarks in the history of ISNACC. We hope to rise up to the expectations of our colleagues.

Mumbai has always been a hub of academic and clinical excellence in medicine and now more so in Neuroanaesthesia and Neuro-Critical Care courtesy our young dynamic professionals.

Our theme for this year is "**Integrating Technologies: Enhancing Outcomes**".

The scope of emerging technologies is vast and the pace is breath-taking. Futuristic sounding technologies are making their way into day to day practice of improving healthcare. Neuroscience is one such field where lot of research and clinical work is being done not only to monitor but aid the treatment of the neurological and neurosurgical patients.

The scientific committee is working hard to prepare an exciting scientific program which would provide a perfect blend of advances in clinical research and technology, updated lectures, controversies and debates, apart from other interesting free presentations.

We are in midst of preparing for very relevant and interactive Pre-Conference Workshops and Events addressing the pressing need to train Neuroanesthesiologists and Neurointensivist in the best that technology can offer. We are looking forward to a renowned and expert faculty comprising national and internationally acclaimed persons.

Our program highlight will be an "**International Symposium on Neuro-trauma**". We request more abstracts which are relevant to our theme.

Mumbai has always been a national leader in the field of neurosciences and has led this speciality on the road to progress since over 65 years. Mumbai, a unique city comprises of seven islands. It has been the financial capital of India where life moves at a rapid pace. It is famous for rich cultural heritage, shopping arcades, glittering showbiz and Bollywood, the city attracts millions of visitors every year from all over the country and abroad. Mumbai is very well connected to almost all major cities in the country and the world.

The conference will be held at THE LEELA. Located in the city's bubbling western suburb of Andheri, the conference venue has an excellent ambience, and is only 10 minutes away from the airport.

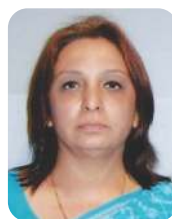

We hope, you will enjoy the scientific program, social events, and the warmth of Mumbai in the pleasant weather of mid-January.

We look forward to welcoming you in Mumbai.
