Make Plans to Attend

It is with great pleasure that I invite you to attend the **35th Annual Meeting of the Florida Society of Dermatologic Surgeons, "Advances in Dermatologic Surgery."** Our Program Chairmen, Keyvan Nouri, M.D., and Terry Cronin, Jr., M.D., have once again assembled an outstanding faculty of experts. This group of national, and distinguished Florida colleagues will share their knowledge.

The Tampa Marriott Waterside Hotel & Marina is the host hotel. Just a block from the hotel is the **Center for Academic Medical Learning and Simulation**, otherwise known as CAMLS. It is one of the world's largest, free-standing centers fully dedicated to training healthcare professionals. The 90,000-square-foot, three-story facility provides a state-of-the-art clinical environment dedicated to surgical skills labs, operating suites and simulation center. There will also be incredible synthetic skin models that allow attendees to practice suturing, flaps and grafts. In addition, there will be an Anatomage Table which is the most technologically advanced anatomy visualization system for anatomic education.

We have an array of programs for the whole office. A Mohs histotech training and Practice Administrators Program will be offered on Friday and Saturday. Barbara Beck will be offering a two-day, hands-on Mohs histotech training course. In this comprehensive course, beginners to advanced technicians can hone their skills in embedding, staining and cutting. The Practice Administrators Program will feature dermatology billing presented by the AAD Practice Management staff. This is a great learning opportunity for your Mohs techs and Practice Administrators at one meeting for a reasonable cost.

No matter your interest in dermatologic surgery, there is something for you in our program. There will be a variety of presentations on excisions, Mohs surgery, reconstruction, pathology, office efficiency, fillers and lasers. Virtually no aspect of dermatologic surgery will go unaddressed.

Our Annual Business Meeting will be held Saturday after lunch. We will hear a report from the FSDDS updating us on our sister society's advocacy activities.

Plan to attend the welcome reception in the exhibit hall on Friday after the program concludes. Saturday night's event takes place at the Florida Aquarium, which is a short stroll down the Tampa Riverwalk from the Marriott Hotel. The evening includes an after-hours self-guided private tour of the Aquarium, a surprise aquatic guest, dinner, awards and karaoke.

This meeting promises to be a highly informative, exciting and collegial event. Please join us in September and experience the uniqueness of CAMLS while learning surgical techniques to integrate into your practice.

See you at CAMLS,

J Morgan O'Donoghue, MD
President, Florida Society
of Dermatologic
Surgeons

This year an exciting meeting awaits us. It gives me great pleasure to invite you to the **35th Annual Meeting of the Florida Society of Dermatologic Surgeons, "Advances in Dermatologic Surgery"**. Once again our dedicated team was able to organize an outstanding educational session in a warm and inviting setting. We have congregated an exceptional team of colleagues to enlighten us with their knowledge and expertise in dermatological advances. I encourage you to participate in this year's meeting as it has been previously recognized worldwide as one of the broadest and most informative sessions in dermatologic surgery.

I extend my most sincere gratitude to the program committee which I had the opportunity to work with while organizing this year's meeting: Dr. J Morgan O'Donoghue, FSDDS President and Dr. Terrence Cronin, Jr., FSDDS Co-Program Chairman for their contributions and support to make this program an exceptional one; Paula Baumgardner, FSDDS Executive Director; and Judy Alfano for their excellent work and assistance with the program coordination. I look forward to working with the Program Committee in forming our future annual meeting, as they are great learning experiences for all of us.

Our most sincere effort was place into organizing this activity and we hope all will enjoy.

Best Regards,

Keyvan Nouri, MD
Program Co-Chairman

The mission of the Florida Society of Dermatologic Surgeons is to maintain the highest standards of the dermatological surgery practice and to provide an educational opportunity where we can share our experiences, exchange ideas and expand our knowledge in order to strengthen our expertise. It is a great honor for me to be the Program Co-Chairman for such a distinguished, respectable society and I thank you for your continuous support.

Course Description

Advances in Dermatologic Surgery™ is an educational program designed to give dermatologic surgeons the opportunity to gain knowledge on the latest and most advance techniques of dermatologic surgery. The course includes didactic lectures presented by national experts, live demonstrations plus time for informal sharing of information. Topics include the diagnosis and treatment of melanoma, basal cell carcinoma and squamous cell carcinoma, wound closures, reconstructive surgery, advances in injectables and fillers, Mohs surgery, laser treatments for skin conditions, dermatopathology and other related topics.

Who Should Attend?

The target audience is Dermatologic Surgeons, Dermatology Residents, Otolaryngologists, Plastic Surgeons and Ophthalmologists who are interested in dermatologic surgery. Special sessions for Practice Administrators and Mohs techs.

Course Objectives

Upon completion of this program participants should be able to:

- refine closure techniques appropriate to a wide range of defects resulting from skin cancer surgery.
- incorporate new laser treatments for more effective treatment of skin conditions.
- apply a variety of new flap techniques.
- identify new methods of utilizing dermal fillers and understand how to treat reactions caused by fillers.
- assess wound management after Mohs' surgery.
- integrate new ideas into everyday practice.

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the Florida Medical Association and Florida Society of Dermatologic Surgeons. The Florida Medical Association is accredited by the ACCME to provide continuing medical education for physicians.

The Florida Medical Association designates this live activity for a maximum of seventeen and one quarter (17.25) *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure and Conflict of Interest Resolution

All conflicts of interest of any individual(s) in a position to control the content of this CME activity will be identified and resolved prior to this educational activity being provided. Disclosure about provider and faculty relationships, or the lack thereof, will be provided to learners.

Services for the Disabled
