2017 AAN Annual Meeting

April 22–28, 2017
Boston

AAN
●●●●●2017
Annual Meeting

Advancing Neurology. Advancing You.

Discover the Annual Meeting

In **2016**, we changed the entire format and feel of the AAN Annual Meeting, with **seismic shifts** focused on **serving attendees** in new and **invaluable ways**.

People took notice, and the excitement in the air was palpable.

In **2017**, **we're doing it again**—and adding even more changes to the docket!

When you experience a new AAN Annual Meeting, you experience the most innovative neurology conference in the world with:

VALUE: Register for one, all-inclusive fee that eliminates pre-registration for individual courses and gives you the flexibility to move between sessions as you wish

CHOICE: Discover the latest updates in all facets of the science, education, advocacy, practice, and economics of neurology when you select from 200+ expert-led courses

CUSTOMIZATION: Create a schedule geared specifically to your interests and needs by choosing from 20 subspecialty topics and career-development options

INNOVATION: Learn in entirely new ways with dynamic methods of knowledge delivery, including lively experiential learning formats that extend the reach of learning outside the traditional classroom

Everyone's Talking About

Discover Beautiful, Historic Boston

With its rich history, vibrant and diverse neighborhoods, and flourishing arts and culture scenes, beautiful Boston has something for everyone.

KEY DATES

- AAN Research Program Deadline: October 1, 2016
- Abstract Submission Deadline: October 24, 2016
- Scientific Awards Deadline: October 26, 2016
- Registration Opens: October, 2016
- Abstract Notifications Available: Late January, 2017
- Early Registration Deadline: March 30, 2017

*"Nowhere in neurology
can you learn so much
about so many areas in
such a short time."
-2016 Annual Meeting Attendee*

Call for Abstracts: Submit Your Best Science

"The AAN Annual Meeting is the premier place to present research in neurology because it brings people together from all around the world, and from a wide variety of specialties. You can expect to collaborate with a diverse group of peers to further your work and gain exposure for your research. AAN abstracts are also often picked up by major media outlets including the New York Times, USA Today, CNN, Associated Press, and many others."

–Lisa M. DeAngelis, MD, FAAN

NEW!

NEW!

NEUROSCIENCE IN THE CLINIC SESSIONS

Abstracts are specifically sought for new Neuroscience in the Clinic sessions, which will combine scientific research with clinical application and bring them together in context.

- Cutting Edge Concussion Data from the NCAA & DoD Grand Alliance
- Stress and Neurological Diseases: Effects Through the Neuroendocrine System
- Therapeutic Targets in Brain Injury in Neurocritical Care
- Vision and Neurodegenerative Disease
- Zika and Other Emerging Infections: From Mechanisms to Outbreaks
- Functional Recovery in Neurology and Neuroscience
- Neurobiology and Treatment of Language and Action
- Child Neurology: Neurologic Disorders Across a Lifespan

GENERAL TOPICS

Abstracts will be accepted in all areas of neurology and neuroscience.

- Aging, Dementia, Cognitive, and Behavioral Neurology
- Autonomic Disorders
- Cerebrovascular Disease and Interventional Neurology
- Child Neurology and Developmental Neurology
- Epilepsy/Clinical Neurophysiology (EEG)
- General Neurology
- Global Health and Infectious Disease
- Headache
- History of Neurology
- Movement Disorders
- MS and CNS Inflammatory Disease
- Neuroepidemiology
- Neuro Trauma, Critical Care, and Sports Neurology
- Neuromuscular and Clinical Neurophysiology (EMG)
- Neuro-oncology
- Neuro-ophthalmology/Neuro-otology
- Neuro-rehabilitation
- Pain and Palliative Care
- Practice, Policy, and Ethics
- Research Methodology and Education
- Sleep

ABSTRACT SUBMISSION DEADLINE:

11:59 P.M. CT, OCTOBER 24, 2016

To submit an abstract(s), complete the online form at AAN.com/view/17Abstracts.
For more information, contact science@aan.com or (612) 928-6088.

5 Steps to Abstract Acceptance

1 BEAT THE DEADLINE

Be sure to allow plenty of time for writing, proofing by other authors, revision, and submission logistics.

2 SUBMIT YOUR BEST SCIENCE, REGARDLESS IF PRESENTED ELSEWHERE FIRST

The Annual Meeting brings together top scientists and neurologists from around the world across a wide range of subspecialties to network and discuss advances in the field. While original research is emphasized, submission of previously presented work is encouraged if it is of interest to the field of neurology.

3 SUBMIT ONLINE

All abstracts should be submitted online. The body of the abstract must be 300 words or less. A maximum of two abstracts per first author may be submitted (excluding practice, policy, and ethics; research methodology and education; and history of neurology topics).

4 PLAN TO SHOW UP

All accepted abstracts must be presented by either the first author or co-author at the Annual Meeting.

5 DELIVER THE DATA

With few exceptions, authors should be prepared to have results available at the time of presentation.

Note: Successful submission of your abstract is not a guarantee of acceptance.

Prestigious 2017 AAN Scientific Awards

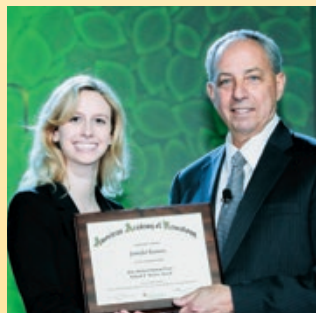

Since 1955, AAN Scientific Awards have recognized those who shine the light on new breakthroughs in the understanding, treatment, and potential future cures of neurologic disorders—paving the way for a world free of brain disease. AAN Awards honor the best research and achievements by neurologists and neuroscientists around the globe, at all stages of their career.

**APPLY OR NOMINATE
A COLLEAGUE TODAY!**

**Application Deadline:
October 26, 2016**

Learn more or apply at
AAN.com/view/17Awards.

**"I LOVE the new format.
There is an energy at this meeting
I haven't seen in many years."**
—2016 Annual Meeting Attendee

AAN Research Program

The American Academy of Neurology is committed to making a profound difference in the lives of researchers—in turn making a difference in the lives of patients with brain disease. The new 2017 AAN Research Program exemplifies our dedication to promoting neurology and neuroscience research and training, marking our pledge to support all types of research across all career levels and discovery stages. The 2017 AAN Research Program offers 20 award and scholarship opportunities, including two new large-scale awards:

- New \$450,000, Three-year Career Development Award
- New \$130,000, Two-year Neurology Research Training Scholarship

APPLY TODAY!

Application Deadline: October 1, 2016
