18TH ANNUAL SCIENTIFIC MEETING

ULURU - NORTHERN TERRITORY

4 - 7 JULY 2016

THE AUSTRALASIAN
COLLEGE OF
PHLEBOLOGY

WELCOME

Dear Colleagues and friends,

It is my great privilege and pleasure to invite you to Uluru in the Northern Territory, for the 18th Annual Scientific Meeting (ASM) of the Australasian College of Phlebology (ACP).

Uluru is the spiritual capital of Australia and we are quite grateful to be hosted at the beautiful Sails in the Desert resort. We are especially excited as this year we will hold our Welcome Party under the stars to listen to the Sounds of Silence and watch the Milky Way.

We will be thrilled to host our Emeritus fellow and friend, Dr Louis Grondin from Canada. The Ayers Rock, the Milky Way, the Orion and other stars will provide the perfect backdrop for Dr Grondin to take us through an inter-stellar journey through the space-time continuum.

The scientific meeting will be exciting and different with emphasis on new technologies, vascular dermatology and vascular medicine and café sessions where speakers will talk freely on topics of interest to the audience.

We chose the meeting dates to coincide with NSW school holidays and overlapping with Victorian school holidays hoping that families will take this opportunity to show their children the heart of Australia and use this meeting as an opportunity to have some adventure.

Hope you will join us in Uluru.

A/Prof. Kurosh Parsi

President

Australasian College of Phlebology

ABOUT THE ACP

The Australasian College of Phlebology (ACP) is a multi-specialty organisation dedicated to promotion of phlebology research, teaching and training in Australasia.

Our membership includes medical practitioners and other health professionals such as scientists and sonographers dedicated to education and research in the field of phlebology. Our members have a shared interest in phlebology, but represent a variety of medical specialties, including vascular surgery and medicine, dermatology, haematology, interventional radiology, general surgery, and family medicine. Since its inception in 1993, the ACP has been active in promoting education and research in phlebology and serves the general public as a resource regarding vein disorders. Public educational initiatives such as patient education seminars, GP education workshops and media interviews are undertaken by College Fellows on a regular basis. Our mission is to improve the standards of practice and patient care as it relates to venous disorders.

The ACP is a member of the Union International de Phlébologie (UIP), a multi-national organisation that has phlebology society members from 35 countries from Europe, North America, Latin America, and Asia.

Annual Scientific Meetings and Workshops of ACP were initiated in 1994. These meetings have been instrumental in disseminating knowledge and experience among specialists from many medical disciplines.
