Dear Colleague:

I would like to personally invite you to join us for the 7th Annual New Cardiovascular Horizons (NCVH) Fellows Course **"Complex Strategies for Peripheral Interventions"** scheduled Tuesday, May 30, 2017 in New Orleans, LA.

This will be an outstanding opportunity for fellows to learn from nationally recognized experts in the field of peripheral interventions. This course is open to interventional cardiology, vascular medicine, vascular surgery and interventional radiology fellows in their final two years of training.

Educational topics will include:

- Wire Technology: How to Choose Based on Anatomy and Strategy
- Access is Everything: From Routine to Advanced in Peripheral Interventions
- Complications of Vascular Access and Hemostasis
- The Right Tool for the Right Job: Appropriate Choice of Devices for Endovascular Procedures
- Diagnosis and Endovascular Treatment of Critical Limb Ischemia: What You Need to Know
- What's on the Horizon with Drug-Eluting Devices?
- Endovascular Approach to CTOs: Crossing Methods and Devices
- Optical Coherence Tomography (OCT): Role in Modern Cath Lab
- An Update on Balloons: From POBA to the Newest Technologies
- Self-Expanding Stent Technology: Impact on Choosing a Device
- An Overview of Atherectomy Devices
- How to Choose the Right Patient for Carotid Stenting
- Overview of Endovascular Aortic Aneurysm Repair
- A Comprehensive Overview of the Diagnosis and Treatment of Chronic Venous Insufficiency

The application, guidelines, scholarship and travel details are enclosed and available online at ncvh.org/fellows. If you have questions or need assistance, please contact the NCVH Foundation office at fellows@ncvh.org or 337-993-7920.

Thank you for your time and consideration. We hope to see you in New Orleans.

Sincerely,

Carlos Mena, MD, F.A.C.C., F.S.C.A.I.

NCVH Fellows Course "Complex Strategies in Peripheral Interventions" is an opportunity for fellows in their final two years of interventional cardiology, interventional radiology or vascular surgery to learn from world-renowned faculty members and **masters in the field of peripheral interventions**. Learning methods include didactic lectures along with hands-on and simulation training followed by three days of live case demonstrations and intense rapid fire educational lectures at the **New Cardiovascular Horizons Annual Conference**.

EDUCATIONAL HIGHLIGHTS:

- Didactic lectures by masters in the field of peripheral interventions
- Faculty members from interventional cardiology, interventional radiology and vascular surgery
- Rotating hands-on workshops with simulator, 3-D models and product demonstrations interspersed during didactic lectures
- "Ask the Experts" one-on-one question and answer session with course faculty members

INTENSIVE HANDS-ON TRAINING:

Four hours of comprehensive hands-on training at the beautiful 20,000 square foot Isidore Cohn, Jr., MD Learning Center at the LSU Health New Orleans School of Medicine campus, located just blocks from The Roosevelt Hotel.

This added experience will include world-class faculty from LSU featuring a cadaver lab for ultrasound pedal and popliteal access and simulation training for AAA, SFA, renal and carotid interventions.
