Clinical Overview of Burn Injury Management

28th February 2018

Clinical Overview of Burn

Injury Management is a one day CPD certified conference that will have a strong emphasis on the need to consider both the emotional and physical wellbeing of an individual afflicted with a burn or scald injury.

After overcoming the potentially fatal increased susceptibility to infection during the initial stages of burn injury management, the potential for lifelong scarring can have serious implications on mental health. This conference therefore aims to gather clinicians and update their knowledge on all the innovations that have been made in infection control, reconstructive surgery and scar management strategies.

Who should attend?

Clinical Overview of Burn

Injury Management will be of particular interest to:

- Reconstructive surgeons
- Plastic surgeons
- Aesthetic surgeons
- Dermatologists
- Dermatological surgeons
- Clinical microbiologists
- Clinical immunologists
- Clinical nurse specialists in burns
- All trainees in these disciplines

08.30 – 09.30 **Registration and refreshments**
