CX Executive Board

Aortic

Dittmar Böckler

Professor of Vascular Surgery at University of Heidelberg and Head of Department of Vascular Surgery and Endovascular Surgery at University Hospital Heidelberg, Heidelberg, Germany

Stéphan Haulon

Professor of Vascular Surgery, Université Paris Sud, Hôpital Marie Lannelongue, Le Plessis Robinson, France

Tilo Kölbel

Professor of Vascular Surgery, University of Hamburg, and Vascular Surgeon at the University Heart Center Hamburg, Hamburg, Germany

Peripheral Arterial

Andrew Holden

Associate Professor of Radiology at Auckland University School of Medicine and Director of Interventional Services at Auckland City Hospital, Auckland, New Zealand

Gunnar Tepe

Head of Diagnostic and Interventional Radiology, RoMed Clinic, Rosenheim, Germany

Thomas Zeller

Professor of Angiology at Albert-Ludwigs University of Freiburg and Head of Department of Angiology at Universitäts – Herzzentrum Freiburg, Bad Krozingen, Germany

Venous & Lymphatic

Stephen Black

Consultant Vascular Surgeon at Guy's and St Thomas' Hospital, London, UK and Reader in Venous Surgery at Kings College London

Manj Gohel

Consultant Vascular & Endovascular Surgeon, Addenbrooke's Hospital, Cambridge, UK, and Honorary Senior Lecturer, Department of Surgery and Cancer, Imperial College London, London, UK

Armando Mansilha

Professor of Angiology and Vascular Surgery, Faculty of Medicine at the University of Porto, Porto, Portugal, and Secretary General, UEMS Section and Board of Vascular Surgery

Acute Stroke

Hugh Markus

Professor of Stroke Medicine, Honorary Consultant Neurologist, University of Cambridge, Cambridge, UK

Barbara Rantner

Vascular surgeon, Department of Vascular and Endovascular Surgery, Ludwig Maximilians University Munich, Munich, Germany

Vascular Access

Nicholas Inston

Consultant Surgeon and Clinical Lead for Renal Surgery and Transplantation at Queen Elizabeth Hospital Birmingham, Birmingham, UK

Domenico Valenti

Consultant Vascular Surgeon and Honorary Senior Lecturer at King's College London, London, UK

iWounds

Michael Edmonds

Professor of Diabetic Foot Medicine and Consultant Diabetologist at King's College Hospital, London, UK

Keith Harding

Professor of Wound Healing Research, School of Medicine, Cardiff University, Cardiff, UK

Major Vascular Trauma

Christopher Aylwin

Consultant Vascular and Trauma Surgeon, Imperial College Healthcare NHS Trust, London, UK

Ross Davenport

Consultant Trauma and Vascular Surgeon, Barts Health NHS Trust & Senior Lecturer, Centre for Trauma Sciences, QMUL, London, UK

CX Aortic Workshop

Kevin Mani

Professor of Vascular Surgery at Uppsala University and Consultant Vascular Surgeon at Uppsala University Hospital, Uppsala, Sweden

Anna Prent

Consultant Vascular Surgeon at Royal Free London NHS Foundation Trust, London, UK

CX Advisory Board

Frans Moll (Chairman)

Professor of Vascular Surgery at University Medical Center Utrecht, Utrecht, Netherlands

Peripheral Arterial

Cliff Shearman

Emeritus Professor of Vascular Surgery, University of Southampton and Non-Executive Director, Royal Bournemouth and Christchurch NHS Foundation Trust

Giovanni Torsello

Professor, Chief of the Department of Vascular Surgery at Franziskus Hospital, Münster, Germany

Trevor Cleveland

Consultant Vascular Radiologist and Honorary Senior Lecturer at Sheffield Teaching Hospitals NHS Foundation Trust, Sheffield, UK

Robert Hinchliffe

Professor of Vascular Surgery at University of Bristol and Vascular Surgeon at North Bristol NHS Trust, Bristol, UK

Aortic

Frank Vermassen

Professor in Vascular and Thoracic Surgery Department of Vascular Surgery at Ghent University Hospital, Ghent, Belgium

Janet Powell

Professor of Vascular Biology and Medicine, Imperial College London, London, UK

Eric Verhoeven

Chief, University Department of Vascular and Endovascular Surgery, Paracelsus Medical University, General Hospital Nuremberg, Nuremberg, Germany

Venous & Lymphatic

Alun Davies

Professor of Vascular Surgery, Head of Section of Vascular Surgery, Imperial College London and Consultant Surgeon at Imperial College NHS Trust, Charing Cross Hospital and St Mary's Hospital, London, UK

Gerard O'Sullivan

Consultant Interventional Radiologist, Galway University Hospitals, Galway, Ireland

Claudine Hamel-Desnos

Vascular Physician, Hôpital Privé Saint-Martin, Caen, France, and President of the French Society of Phlebology

Acute Stroke

Ross Naylor

Honorary Professor of Vascular Surgery at University of Leicester and Consultant Vascular Surgeon at Leicester Royal Infirmary, Leicester, UK

Recruitment to Vascular Management

Sophie Renton

Consultant Vascular Surgeon at Northwick Park Hospital, Honorary Senior Lecturer for Imperial College London, London, UK, and Honorary Secretary, The Vascular Society for Great Britain and Ireland

CX Abstract Board

Meryl Davis (Chair)

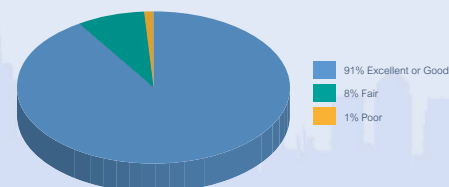

Daryll Baker
Rachel Bell
Colin Bicknell
Marcus Brooks

Robert Hinchliffe
Paul Moxey
Anna Prent
Celia Riga

CME feedback

91% of the CME delegates surveyed rated the CX 2019 programme as "excellent" or "good".

Preliminary Faculty

CX Faculty will include:

Naseer Ahmad	Franco Grego	Ross Naylor
Ben Almquist	Wei Guo	Gustavo Oderich
Gary Ansel	Claudine Hamel-Desnos	Thomas O'Donnell
Enrico Ascher	Jennifer Hanko	Gerry O'Sullivan
Leanne Atkins	Keith Harding	Daniel Patel
Christopher Aylwin	Stéphan Haulon	Eric Peden
Daryll Baker	Paul Hayes	Paul Pittaluga
Christian Behrendt	Adrien Hertault	Janet Powell
Rachel Bell	Rob Hinchliffe	Anna Prent
Ruth Benson	Stephen Hohmans	Barbara Rantner
Luca Bertoglio	Andrew Holden	Sophie Renton
Colin Bicknell	Peter Holt	Vincent Riambau
Theodosios Bisdas	Dominic Howard	Celia Riga
Martin Björck	Jeffrey Hull	Steven Rogers
Stephen Black	Nicholas Inston	Nirvan Sadaghianloo
Jan Blankenstein	Houman Jalaie	Peter Schneider
Dittmar Böckler	William Jeffcoate	Thomas Serena
Roshan Bootun	Michael Jenkins	Robert Shahverdyan
Marianne Brodmann	Robert Jones	Cliff Shearman
Marcus Brooks	Mathieu Josnin	Mitchell Silver
Ludovic Canaud	Lowell Kabnick	Tej Singh
Paul Chadwick	Barry Katzen	Kristian Smidfelt
Trevor Cleveland	David Kingsmore	Konstantinos Spanos
Rachel Clough	Panagiotis Kitrou	Kate Steiner
Clement Darling III	Tilo Kölbel	Gunnar Tepe
Ross Davenport	Raghu Kolluri	Sarah Thomis
Alun Davies	Ali Kordzadeh	Irwin Toonder
Meryl Davis	Dainis Krievins	Giovanni Torsello
Gert De Borst	Drosos Kotelis	Matteo Tozzi
Brian DeRubertis	Tristan Lane	Santi Trimarchi
Bart Doyen	Michael Lichtenberg	Nikolaos Tsilimparis
Hans-Henning Eckstein	Jes Lindholt	Domenico Valenti
Michael Edmonds	Ian Loftus	Jos Van Den Berg
Jens Eldrup-Jorgensen	Charmaine Lok	Jorinde Van der Laanen
William Ennis	Lindsay Machan	Maarit Venermo
Mårten Falkenberg	Michel Makaroun	Hence Verhagen
Alik Farber	Alexandros Mallios	Eric Verhoeven
Thomas Forbes	Misti Malone	Frank Vermassen
Francis Game	Kevin Mani	Fabio Verzini
Balazs Gasz	Armando Mansilha	Anders Wanhainen
Sergio Gianesini	Hugh Markus	Monnie Wassie
Paul Gibbs	Charles McCollum	Jason Wilkons
James Gilbert	Matthew Menard	Teun Wilmink
Manj Gohel	Bijan Modarai	Therese Wykoff
Yann Gouëffic	Frans Moll	Thomas Zeller
Roger Greenhalgh	Hayley Moore	
Stephen Greenhalgh	Paul Moxey	

We are pleased to invite you to join us once again in London, UK, for the Charing Cross International Symposium 2020, the leading vascular symposium where **education**, **innovation** and **evidence** come together.

The CX Symposium continues its three-year cycle of raising vascular and endovascular **controversies** in order to **challenge** the available evidence and be able to reach a **consensus** after discussion with an expert audience.

This year, our world-class faculty focuses on reaching **consensus** in all aspects of the management of vascular disease. In 2020, we introduce a new session, Major Vascular Trauma, including talks on aortic, pelvis and extremity, and neck trauma.

The programmes for the Aortic, Peripheral Arterial, Venous & Lymphatic, Acute Stroke, Vascular Access and iWounds have been designed in sequence rather than in parallel so that CX attendees can maximise their participation in their favourite educational track.

We look forward to welcoming you to CX 2020!

Roger Greenhalgh, on behalf of the CX Executive Board

CX 2020

- Tuesday to Friday programme
- **NEW** Major Vascular Trauma Session
- Second year of interdisciplinary iWounds programme including hands-on workshop
- Evening reception at Stamford Bridge, home of Chelsea Football Club (Thursday, 23 April 2020)

CX 2020 Preliminary Programme Highlights

3 Days of Peripheral Arterial Consensus

Peripheral Proximal Arterial Ischaemia Consensus – Tuesday, 21 April 2020	Peripheral Critical Ischaemia Consensus – Thursday, 23 April 2020	Peripheral Arterial Consensus
- Update on the paclitaxel controversy in the lower limb - Alternatives to paclitaxel coating to reduce restenosis - The evidence for vessel preparation in the superficial femoral artery - An RCT comparing conventional versus ambulatory for endovascular procedures of lower extremity peripheral artery disease - Debate: The use of drug-eluting stents in ostial SFA disease - Duplex-guided endovascular repair of popliteal artery aneurysms Peripheral Arterial Podium 1st trials	- Outcome of revascularisation for chronic limb-threatening limb ischaemia can be predicted - Perfusion analysis of the foot in patients with critical limb ischaemia before and after revascularisation - New diagnostic tools for critical limb ischaemia patients - Definition and management of no-option below-ankle disease ileg	
CX Peripheral Techniques & Technologies – Wednesday, 22 April 2020	Additional Peripheral Arterial Sessions	
Live and edited peripheral techniques and technologies to treat peripheral arterial disease from leading vascular centres.	CX Peripheral Workshop with one-to-one hands-on demonstrations CX Global Stars and Rising Stars CX Abstracts and E-posters	

3 Days of Aortic Consensus

CX Aortic Techniques & Technologies – Tuesday, 21 April 2020	Thoracic Aortic Consensus – Thursday, 23 April 2020	Aortic Consensus
Live and edited aortic techniques and technologies to treat thoracic and abdominal aortic disease from leading vascular centres.	- Stroke from Thoracic Endovascular Procedures (STEP) - Debate: Timing of intervention for acute type B dissection - Single fenestrated endografts for the left subclavian artery vs. carotid-subclavian bypass and standard TEVAR - Classification of aortic dissection - Strategies to prevent spinal cord injury - Endovascular team radiation safety performance	
Abdominal Aortic Consensus – Wednesday, 22 April 2020	Additional Aortic Sessions	
- Sac Growth Algorithm Study in the community - Centralisation of abdominal aortic aneurysm care improves early clinical outcomes - Routine embolisation of the inferior mesenteric artery with EVAR - Differences in size of abdominal aortic aneurysm in nine countries and impact on rupture rates - The ESVS 2019 Abdominal Aortic Aneurysm guidelines - Debate: Threshold for intervention in iliac artery aneurysms Aortic Podium 1st trials	CX Aortic Workshop with one-to-one hands-on demonstrations CX Global Stars and Rising Stars CX Abstracts and E-posters	

3 Days of Venous & Lymphatic Consensus

Venous & Lymphatic Consensus – Tuesday, 21 April 2020

- Final three-year results of a randomised controlled trial comparing endovenous laser ablation and foam in SSV insufficiency
- Consensus on pelvic vein incompetence
- Management of lipoedema and lymphoedema
- Anatomical classification of chronic venous obstruction and its implications
- Medical therapy after deep venous interventions

Venous Podium 1st trials

Additional Venous Sessions

CX Venous Techniques & Technologies (edited cases)
Wednesday, 22 April 2020 and Thursday, 23 April 2020

CX Venous Workshop
Wednesday, 22 April 2020 and Thursday, 23 April 2020

CX Global Stars and Rising Stars

CX Abstracts and E-posters

Venous &
Lymphatic
Consensus

2 Days of Acute Stroke Consensus

Acute Stroke Consensus – Friday, 24 April 2020

- International variation in carotid surgery is huge despite all the randomised trials performed
- Debate: Atrial fibrillation influences whether you should operate in asymptomatic carotid stenosis
- Results of mini-incision carotid endarterectomy
- Complex carotid body tumours and adjunctive endovascular treatment
- Debate: Only extracranial vertebral arteries should be considered for stenting

Additional Acute Stroke Sessions

CX Global Stars and Rising Stars
CX Abstracts and E-posters

Thursday, 23 April 2020

Acute
Stroke
Consensus

3 Days of Vascular Access Consensus

Vascular Access Masterclass – Wednesday, 22 April 2020

- The access algorithm: Can we define an algorithmic approach to vascular access preservation and maintenance?
- Pre-operative vein enhancement, assessment and planning
- Fistula formation: Surgical fistula and endoAVF
- Imaging and surveillance in vascular access
- Debate: Paclitaxel vs. plain balloons in vascular access

Vascular Access Podium 1st trials

Additional Vascular Access Sessions

CX Vascular Access Workshop
Thursday, 23 April 2020

CX Abstracts and E-posters
Tuesday, 21 April 2020

Vascular
Access
Consensus

2 Days of iWounds Consensus

iWounds Consensus – Wednesday, 22 April 2020

- The importance of underlying diagnosis in the management of all leg wounds and ulcers
- The value of specialist nursing and care
- Challenges and solutions of providing evidenced based leg ulcer care
- The need for integrated care in the management of diabetic foot ulcers
- Modern wound dressings and techniques

Additional iWounds Sessions

CX iWounds Workshop
Wednesday, 22 April 2020 and Thursday, 23 April 2020

CX Abstracts and E-posters

iWounds
Consensus

NEW Major Vascular Trauma

Aortic trauma including blunt injury and REBOA as an adjunct for trauma haemorrhage

Penetrating neck trauma

Pelvis and extremity including shunting, venous repairs and pelvic embolisation vs. internal iliac artery ligation

Additional Activities

CX Additional Events

CX Innovation Showcase

CX Meets Latin America

Registration & Accommodation

Early Bird Registration Deadline: 23 February 2020

	CX 4-DAY RATE (TUESDAY – FRIDAY, ACCESS ALL AREAS, INCLUDING WORKSHOPS AND ACUTE STROKE CONSENSUS)			CX 1-DAY RATE (ACCESS ALL AREAS FOR TUESDAY, WEDNESDAY OR THURSDAY)		
	Early bird*	Standard rate	Late/on-site registration**	Early bird*	Standard rate	Late/on-site registration**
Full registration	£695	£795	£895	£295	£345	£385
Junior doctor registration ¹	£345	£395	£445	£150	£180	£195
Vascular technologist/ nurse ¹	£145	£175	£195	£75	£95	£105
	Note: The 4-day rate includes the CX Symposium book			Note: The 1-day rate(s) excludes the CX Symposium book		
CX ACUTE STROKE CONSENSUS – FRIDAY ONLY						
	Early bird*	Standard rate	Late/onsite registration**			
	£95	£115	£125			
Note: Friday only (8:00–13:00). Excludes symposium book.						

* Early bird rates are valid on applications received before midnight on 23rd February 2020.

** Late/on-site registration applies after Friday 17th April 2020.

¹ This fee is subject to verification of status in the form of a letter from your head of department.

* Early bird rates are valid on applications received before midnight on 23rd February 2020.

** Late/on-site registration applies after Friday 17th April 2020.

¹ This fee is subject to verification of status in the form of a letter from your head of department.

Book your accommodation close to the venue at special rates

Make sure you take advantage of the preferential rates for CX attendees at various selected hotels near the venue. Please visit www.cxsymposium.com/hotels for more information.

What makes CX so special...

“There are two important features of every CX Symposium that I always enjoy – the release and evaluation of new data and the honest and objective assessment of current controversies in vascular disease. In CX 2020, both features will be particularly prominent with a programme full of important new trial results that will be analysed and discussed.

Key opinion leaders will tackle a number of controversies and, as always, the vascular community in the audience will have the opportunity to participate and contribute to reach a consensus. In the last year, we have seen unrivalled data and controversy and there is no better place to access the latest updates than CX 2020.”

Andrew Holden, CX Peripheral Executive Board member

“CX offers the unique opportunity to combine expert knowledge in every field of vascular surgery and the newest technologies. Accordingly, in 2020 the Acute Stroke sessions will focus on technical innovation in carotid artery stenting, cerebrovascular disease and concomitant atherosclerotic diseases, carotid artery aneurysms as well as carotid body tumours. Speakers from all disciplines involved in carotid artery disease will participate and share their expert knowledge. We look forward to welcoming you to London!”

Barbara Rantner, CX Acute Stroke Executive Board member

“The theme for CX 2020 is consensus and with ongoing debate about the appropriate use of drug-eluting technology for peripheral arterial disease, EVAR, superficial and deep venous procedures and other interventions, there is no better time to bring specialists together to create unity. CX 2020 promises to tackle the most difficult topics with a combination of plenary sessions, cases and hands-on workshops with a high calibre international Faculty demonstrating the latest technologies. The importance of chronic wounds is given due prominence with an expanded iWounds programme and workshops. The Symposium promises to be the most multidisciplinary and comprehensive in the history of CX!”

Manj Gohel, CX Venous & Lymphatic Executive Board member
