ORGANIZING SECRETARIAT

PRELIMINARY PROGRAMME

11th Congress of the European Laryngological Society

3rd Joint Meeting of ELS-ABEA & ALA

2nd Meeting of Società Italiana di Laringologia

June, 8th - 11th 2016

Genoa, Italy

WELCOME ADDRESS

Dear Colleagues,

as President of the European Laryngological Society, I would like to announce the 11th Congress of our Society, to be held in Genoa, Italy, on 8-11 June 2016.

The principal goal of this conference will be to present some of the latest breakthroughs in Laryngology and related disciplines, to bring together both young and experienced scientists from all regions of the world, and to open up avenues for research and collaborations both at regional and global levels. Thanks to the active and close cooperation of the Presidential and Scientific Councils, most of the emerging scientific topics and every major aspect of our subspecialty will be presented and discussed.

The Keynote Lectures will be focused, among the others, on topics like bioendoscopy, imaging, neurolaryngology, laryngo-tracheal stenosis, laryngeal transplantation and oncology, and followed by Round Tables with clinical cases discussion.

It will be also feasible to be trained in different phonosurgical procedures and to test the most sophisticated endoscopic devices and surgical tools during the Hand-on Labs and Instructional Courses.

European and international experts have been invited as Members of the Faculty in order to reinforce our relationships with the ALA, ABEA, IAP, and SIL. Growing interest towards our Congress has been expressed by many Colleagues coming from India and South America.

Every effort will be made to combine an outstanding scientific program with pleasant social activities in Genoa.

Giorgio Peretti

FACULTY

Lena-Maija Aaltonen, *Finland*
Milan Amin, *Usa*
Mario Andrea, *Portugal*
Mohssen Ansarin, *Italy*
Christoph Arens, *Germany*
Marco Benasso, *Italy*
Manuel Bernal-Sprekelsen, *Spain*
Jan Betka, *Czech Republic*
Sergio Bottero, *Italy*
Martin Birchall, *United Kingdom*
Peter Biro, *Switzerland*
Patrick Bradley, *United Kingdom*
Angelo Camaioni, *Italy*
Guglielmo Campos, *Colombia*
Giovanna Cantarella, *Italy*
Paul Castellanos, *Usa*
Dominique Chevalier, *France*
Lise Crevier-Buchman, *France*
Declan Costello, *United Kingdom*
Fank Jan de Jong, *The Netherlands*
Marco De Vincentiis, *Italy*
Rogério A. Dedititis, *Brazil*
Philippe H. Dejonckere, *The Netherlands*
Gauthier Desuter, *Belgium*

Frederik G. Dikkers, *The Netherlands*
Andreas Dietz, *Germany*
Vojko Djukic, *Serbia*
Suzy Duflo, *French West Indies*
Umamaheswar Duvvuri, *Usa*
Gerhard Friedrich, *Austria*

SCIENTIFIC INFORMATION

MAIN TOPICS

KEY NOTE LECTURES

- HPV in UADT
- Bioendoscopy
- New trends in laryngeal cancer imaging
- Different options in management of T3 laryngeal cancer
- Comprehensive evaluation of swallowing disorders, reflux, and chronic cough
- Office-based laryngeal procedures
- Pitfalls in diagnostic assessment of LT stenosis in adults and children
- Progress in laryngeal and tracheal transplantation
- Genetics in laryngeal cancer
- Hot topics in vocal cord palsy
- New devices for transoral laryngeal surgery

ROUND TABLES

- Management of Recurrent Respiratory Papillomatosis in adults and children
- Surgical management of precancerous and early glottis cancer
- Management of advanced laryngeal cancer
- Management of swallowing disorders, reflux, and chronic cough
- Outcomes of office-based laryngeal procedures: comparison of cost-effectiveness and functional outcomes with traditional approaches
- Surgical management of adult and pediatric LT stenoses
- Advances in neurolaryngology
- Different management options of vocal cord palsy
- TLM vs. TORS for laryngeal cancer: pros, cons, cost-effectiveness
- Surgical rehabilitation of voice and swallowing after cordectomy and partial laryngectomy (IAP)
- Voice assessment before and after phonosurgery (IAP)
