COURSE DESCRIPTION

Atlanta Trauma Symposium is designed for orthopaedic surgeons to enhance surgeon competency and provide strategies for fracture management. A distinguished faculty will present the latest concepts and techniques in orthopaedic trauma using didactic lectures, case presentations, and hands-on workshops.

COURSE OBJECTIVES

On completion of this course, learners will be able to:

- **Apply** the most current techniques in fracture care
- **Appraise** the updated indications for fracture treatment selection
- **Identify** the complexity of fracture so as to make the best referral decisions
- **Analyze** how healthcare reform may impact physician practice in orthopaedic trauma
- **Employ** different treatment options based on expert opinion

TARGET AUDIENCE

This course is designed to meet the needs of general orthopaedists and mid-level providers whose scope of practice includes fracture repair.

ACCREDITATION
