SCRIPPS' 36TH
ANNUAL CONFERENCE:

Clinical Hematology & Oncology

Saturday, February 13 - Tuesday, February 16, 2016
Omni San Diego Hotel, San Diego, California

Course Introduction

Course Overview

Scripps' 36th Annual Conference: Clinical Hematology and Oncology 2016, is designed for hematologists, oncologists, surgeons, radiation oncologists, internists, and others desiring an update in these specialty areas. The primary objective of this course is to bring together clinicians and leading experts in diverse areas of hematology and oncology, affording them an intimate environment in which to discuss new clinical developments and significant advances.

The first day of the program will focus on nonmalignant hematology which will be followed by an update on hematologic malignancies on the second day. New developments in oncology with a focus on issues of current interest will be discussed on the third day, while the final day will review Immunotherapy of cancers. All presenters will discuss their approaches to challenging but common clinical situations and there will be ample time for participant interaction.

2016 Course Highlights

- Conference presentations will be available via mobile app and conference website
- Comprehensive presentations of the latest advances in cancer diagnosis and treatment with a strong patient care focus
- Renowned faculty representing the country's leading institutions chosen for their expertise as well as teaching skills
- Meet the professor breakout sessions examining practical approaches to various controversies in therapies discussed in a highly dynamic, small-group setting
- Multiple networking and one-on-one discussion opportunities

Educational Objectives

After attending this course, the attendee should be able to:

- Describe the clinical and molecular facets of pathogenesis, diagnostic approaches and therapeutic modalities available for various hematologic disorders.
- Select and apply the changing approaches to hematologic malignancies, particularly as they relate to evidence-based standards of care, including innovations in diagnosis and treatment.
- Choose new therapeutic options for the treatment of a number of common malignancies; understanding appropriate indications and contraindications to these therapeutic approaches.
- Apply practical expertise gained from the clinical situations discussed in the workshop sessions with an emphasis on data-based approaches to patients with common but serious hematologic conditions.
- Integrate the evolving approaches to various immunotherapy cancer treatments.

Accreditation

Physicians (MD, DO)

Scripps Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Scripps Health designates this educational activity for a maximum of 25.25 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Credit Breakdown:

Main Conference – 25.25

Saturday – 7

Monday – 7.5

Sunday – 7

Tuesday – 3.75

Board of Registered Nurses (BRN)

For the purpose of recertification, the American Nurses Credentialing Center accepts *AMA PRA Category 1 Credits*[™] issued by organizations accredited by the ACCME. For the purpose of re-licensure, the California Board of Registered Nursing accepts *AMA PRA Category 1 Credits*[™]. Most states' Board of Registered Nursing accept *AMA PRA Category 1 Credit(s)*[™] as meeting continuing education requirements for license renewal. Nurses should check with their state board regarding use of CME credit.

Physician Assistants (AAPA)

AAPA accepts Category I credit from AMA Category I CME organizations accredited by ACCME.

Disclosure

Commercial Support

This course is supported, in part, by educational grants from industry, in accordance with ACCME accreditation Standards for Commercial Support. At the time of printing, a complete listing of commercial supporters was not available. Appropriate acknowledgement will be given to all supporters at the time of the educational activity.

About Scripps

Scripps Proton Therapy Center in San Diego offers advanced radiation therapy for the treatment of cancerous tumors and certain non-cancerous conditions. One of only 15 operating proton treatment centers in the nation and the only proton therapy center in San Diego, the facility features cancer-fighting technology that draws on decades of research and development in radiation therapy. For more information about proton therapy at Scripps visit: www.scripps.org/services/cancer-care__proton-therapy.

Scripps Cancer Care is committed to combating cancer. As one of only two Integrated Network Cancer Programs in California (as designated by the American College of Surgeons), we mobilize all the oncology resources of five hospital campuses, a broad network of cancer care specialists, affiliated physicians and renowned Scripps research professionals to help diagnose, treat and support patients facing cancer—in San Diego and beyond. Working collaboratively toward cancer prevention, early detection and coordinated cancer treatment, our cancer care services are here for you when you need them. Our multidisciplinary approach ensures a comprehensive treatment plan that pairs leading-edge technology with an experienced, respectful care staff who are sensitive to the whole person and a range of healing approaches. Patients benefit from a collective array of cancer-specific personnel and services, as well as vigorous dialog between researchers and clinicians that brings the latest medical knowledge bedside.

For more information about cancer care at Scripps visit: www.scripps.org/services/cancer-care.
