Major Sessions

- 1. Neurology**
- 2. Clinical Neurophysiology**
- 3. Neurosurgery**
- 4. Central Nervous System**
- 5. Pediatric Neurology**
- 6. Neuromuscular Disorders**
- 7. Psychiatry and Psychology**
- 8. Spine and Spinal Disorders**
- 9. Neurogenetic and Neurometabolic Disorders**
- 10. Neuropharmacology**
- 11. Nursing and Neuroscience**
- 12. Neuroimmunology and Neuroinfections**
- 13. Brain Tumor and Neuro-oncology**
- 14. Neuroplasticity & Neurorehabilitation**
- 15. Neuropathology**
- 16. Neuro Cardiology & Strokes**
- 17. Critical Care Neurology**
- 18. Neurology Education**

About Paris, France

Paris is the capital and most populous city of France, with an area of 105 square kilometres (41 square miles) and an official estimated population of 2,140,526 residents as of 1 January 2019.[1] Since the 17th century, Paris has been one of Europe's major centres of finance, diplomacy, commerce, fashion, science, and the arts.

The City of Paris is the centre and seat of government of the Île-de-France, or Paris Region, which has an estimated official 2019 population of 12,213,364, or about 18 percent of the population of France. The Paris Region had a GDP of €681 billion (US\$850 billion) in 2016, accounting for 31 percent of the GDP of France, and was the 5th largest region by GDP in the world. According to the Economist Intelligence Unit Worldwide Cost of Living Survey in 2018, Paris was the second most expensive city in the world, after Singapore, and ahead of Zurich, Hong Kong, Oslo and Geneva. Another source ranked Paris as most expensive, on a par with Singapore and Hong Kong, in 2018.

Paris is especially known for its museums and architectural landmarks: the Louvre was the most visited art museum in the world in 2018, with 10.2 million visitors. The Musée d'Orsay and Musée de l'Orangerie are noted for their collections of French Impressionist art, and the Pompidou Centre Musée National d'Art Moderne has the largest collection of modern and contemporary art in Europe. The historical district along the Seine in the city centre is classified as a UNESCO Heritage Site. Popular landmarks in the centre of the city include the Cathedral of Notre Dame de Paris and the Gothic royal chapel of Sainte-Chapelle, the Eiffel Tower, constructed for the Paris Universal Exposition of 1889. The Grand Palais and Petit Palais, built for the Paris Universal Exposition of 1900; the Arc de Triomphe on the Champs-Élysées, and the Basilica of Sacré-Coeur on the hill of Montmartre. Paris received 23 million visitors in 2017, measured by hotel stays, with the largest numbers of foreign visitors coming from the United States, the UK, Germany and China. It was ranked as the third most visited travel destination in the world in 2017, after Bangkok and London.

Success through Synergy
