

The European Focused Ultrasound Charitable Society offers to become a member for an annual donation of 50 €. Further donations are welcome.

Donations will be specially recognized

Donation categories:

≥ 100 Euro: friend
≥ 500 Euro: good friend
≥ 1.000 Euro: very good friend

≥ 5.000 Euro: bronze
≥ 10.000 Euro: silver
≥ 20.000 Euro: gold
≥ 50.000 Euro: platinum
≥ 100.000 Euro: diamond

The donated funds will be carefully utilized for support of projects and activities to facilitate HiFU/FUS new developments and clinical applications based on a thoroughly transparent peer review process.

Every two years EUFUS
organizes the European
symposium on Focused
Ultrasound Therapy.

EUFUS started as a working group in 2011
by some of the key Focused Ultrasound
scientists and users:

Carlo Catalano (Rome)
Andreas Melzer (Dundee)
Alessandro Napoli (Rome)

Foundation member:

Thomas Andreae (Helsinki)
Morry Blumenfeld (Charlottesville)
Falko Busse (Helsinki)
Ernst-Martin Fiori (Zürich)
Wladyslaw Gedroyc (London)
Gail Ter Haar (Sutton)
Arik Hananel (Charlottesville)
Bernhard Kleffner (St. Ingbert)
Arya Nabavi (Kiel)
Tobias Preusser (Bremen)
Jaron Rabinovici (Haifa)
Christoph Tumm (Munich)

EUFUS became a German registered
charity in July 2013

European Focused
Ultrasound
Charitable Society

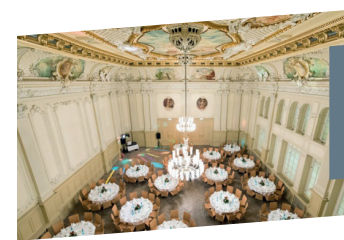

The European Focused Ultrasound Charitable Society is a research and education organization serving as a philanthropic forum to establish research funding, sharing experiences, reviewing best practices and promoting cooperation in the field of Focused Ultrasound for better patient treatment.

This shall be realized especially by:

- Organization of scientific conferences/symposia
- Facilitating research cooperations
- Supporting development of novel FUS therapy techniques
- Offering rewards for scientific achievements
- Information exchange
- Promotion of scientific projects
- Support in organizing clinical trials
- Involving patient interest groups
- Initiating discussions on reimbursement

4th Symposium on
Focused Ultrasound Therapy
Leipzig, Germany
October 26-27, 2017

The meeting will be held at a very prestigious location: the Salles de Pologne, surrounded by many highlights of Leipzig City Centre. Leipzig is ranked No. 3 after Berlin and Munich among the top cities of Germany, it is ranked 10 on the New York Times list of the "100 cities you have to visit in your lifetime". Some among many reasons for this is the cultural density leading to the nick name "Hypezig". Bach, Brahms, Mendelssohn Bartholdy, Lessing and many more lived and worked in Leipzig. Goethe wrote his "Faust" in the still exiting caves of "Faustus Cellar", one of our social event locations.

This meeting will be
held in central Leipzig,
Salles de Pologne.

Among lots of culture and enjoyment you can expect:

- Scientific presentations and invited lectures, poster sessions and other specialty interest workshops
- practical based teaching about how to carry out focused ultrasound procedures
- covering all major manufactures in open discussions led by experts in the field concentrating on the main areas of application

Particular emphasis is applied to the clinical use reflected by hands on seminars, face to face disputes, what can go wrong? sessions and early attempts of consensus on FUS applications. But you will not miss latest developments and technologies.

The local organisation will kindly be supported through the Department of Radiology of University Hospital Leipzig (Director Thomas Kahn) by Juliana Teresia Melasch, Maximilian Beimler and Michael Moche.

Andreas Melzer, Matthias Matzko
Wladyslaw Gedroyc & Alessandro Napoli
