WELCOME MESSAGE

from **IAPP President & Hony. Secretary General**

The National Child Psychiatry (NCPC) for the current year is being held on 10th July 2022 in Delhi, the theme being "Psychopharmacology Essentials in Child & Adolescent Psychiatry"

We are sure that the scientific deliberations in the CME will boost the scientific endeavor among the participating postgraduates, practicing psychiatrists. We are sure that this scientific conference will increase the clinical capabilities of the psychiatrists in the private sector in India and others, which is the ultimate venture of the Indian Association of Private Psychiatry.

We wish all the best to the IAPP Child & Adolescent Psychiatry Committee!!

See you all in Delhi!

Dr. Anukant Mital
President, IAPP

Dr. Avinash De Sousa
Hony. Secretary General, IAPP

WELCOME MESSAGE

from **IAPP Child & Adolescent Psychiatry Committee**

It gives us immense pleasure in inviting you to the fifth edition of the National Child Psychiatry CME, an annual event of IAPP calendar, which is eagerly awaited upon. We are back from the online mode and hope to see all of you again in person.

Since last decade, we all have seen rapidly increasing awareness about various mental and developmental issues faced by children and young people. Pandemic years has made this crisis even more acute and varied. Mental health professionals all over the world are reporting an avalanche of cases that is hitting service providers everywhere and our country is no different.

The burgeoning population and dearth of skilled human resources makes a psychiatrist's job complex. Though highly recommended as first line of treatment in western guidelines, as in the West or even more so, psychological therapy, family therapy and multidisciplinary support is very thin on the ground, even in metro cities, and whatever little is available is often difficult to afford and not always reliable.

IAPP is acutely aware of this challenge and mindful of our responsibility to young people. To deliver our commitment towards mental health of young people, various awareness and training programs are conducted throughout the year.

This day long CME focuses on "Psychopharmacology essentials in child and adolescent psychiatry". Judicious use of pharmacotherapy in treatment is gratifying as well as safe. This CME is aimed at presenting best practices in pharmacological management of commonly encountered difficulties in practice. We aim to make treatment effective, accessible and safe for all families. The scientific program of the CME is devoted towards enhancing the skill and resource base of the practitioner.

We are sure that you will find the CME topics interesting and speakers knowledgeable and experienced.

Debate topics are chosen to analyse the most contentious issues we face while treating severely unwell children.

The venue for the CME, Pride Plaza Hotel, Aerocity, New Delhi, has been chosen, keeping in mind the ease of travel and national connectivity. The CME is a one day event scheduled for 10th July 2022.

On behalf of IAPP, we welcome you for this feast of practical knowledge.

Dr. Deepak Gupta
Chairperson, IAPP
Child and Adolescent
Psychiatry Committee

Dr. Srilakshmi Pingali
Co-Chairperson, IAPP
