WORLD CONGRESS ON CARDIAC SCIENCES – 2018

International Conference on Cardiology, Indian Institute of Science, Bengaluru, India

November 28th & 29th, 2018

Chairman Message

DR. VIVEK JAWALI
Chairman,
World Congress On
Cardiac Sciences - 2018
International Conference
on Cardiology

Dear Friend and Colleague,

The World Congress On Cardiac Sciences - 2018 "International Conference on Cardiology" to be held at Bangalore on 28th & 29th November 2018, offers to be a convergent platform for listening to and networking with the leading experts in various subspecialties of cardiac sciences like the cardiac surgeons, Cardiologists (interventional, Non-invasive and preventive), Research scientists with interest in cardiovascular sciences and life style and wellness.

World Congress On Cardiac Sciences - 2018 is one of the largest and most educational cardiac science conferences in Asian-Pacific Region. it is expected that more than 1,000 experts, cardiologists, radiologists, vascular medicine specialists, industrial partners and other health care professionals with a special interest in the field of cardiac sciences will attend the meeting. Participants will have the opportunities to share Scientific information and the latest advances, to exchange expertise in Cardiac Sciences. World Congress On Cardiac Sciences - 2018 will also provide a unique opportunity for the industries to exhibit their new products and to contact with the cardiologists more closely.

Today all these specialities live and work in silos and need to interconnect more often on common platforms and navigate the current issue on more patient friendly roads. This conference will be an effort and a good beginning in that direction.

Welcome to J.N. Tata Auditorium, Indian Institute of Science, Bangalore Karnataka India. I look forward to your active participation in World Congress On Cardiac Sciences – 2018.

Convenor Message

V.P. Rao
Convenor,

World Congress On
Cardiac Sciences - 2018
International Conference
on Cardiology

It gives me great pleasure to welcome you all to the World Congress On Cardiac Sciences - 2018 "International Conference on Cardiology" which will be held on 28th and 29th November 2018 at J.N Tata Auditorium, Indian Institute of Science, Bangalore India. The conference will focus on the latest advancement in Hypertension, Cardiovascular Nursing, Cardio-Oncology, Clinical Cardiology, Cardiac Stroke, Cardiovascular Disease, Cardiovascular Surgeries, Paediatric Cardiology, Cardiac Research, Cardiovascular Research, Case Reports on Cardiology, Nuclear Cardiology, Cardiac Pharmacology, Cardiac electrophysiology, Diabetes, Cardio Metabolic Disease and many more.

World Congress On Cardiac Sciences - 2018 International Conference on Cardiology "Building and Beating to the Future of the Heart" annual event features many opportunities to network with colleagues from around the world in an exciting environment. The scope and quality of the scientific exchange makes World Congress On Cardiac Sciences one of the most premier cardiovascular research and instructional meeting in the world. This events features two days of the best in cardiovascular clinical practice and scientific content covering all aspects of basic, clinical, population and translational content.

The scientific program will explore live workshops, interactive education sessions, B2B meetings, round-table discussions apart from the conventional plenary sessions, featured symposia, breakout sessions and oral presentation sessions for abstracts and challenging cases. In addition, World Congress On Cardiac Sciences – 2018 International Conference on Cardiology "Building and Beating to the Future of the Heart" will feature live cases and interventional courses in an interactive format throughout the conference. Our endeavour is to provide a stimulating and thought to provoke scientific program.

About Us:

BioGenesis Health Cluster is pleased to announce World Congress On Cardiac Sciences - 2018 "International Conference on Cardiology" is scheduled on 28th and 29th November 2018 at J.N.TATA Auditorium, Indian Institute of Science, Bengaluru, Karnataka. The theme of the conference is "Building and Beating to the Future of the Heart". Cardiovascular disease is now the leading cause of deaths worldwide. Globally, 17.5 million people die from cardiovascular disease annually, out of which Over 80% of CVD deaths take place in low- and middle-income countries. It is estimated that by 2030 almost 23 million people will die annually from cardiovascular diseases.

World Congress On Cardiac Sciences - 2018 "International Conference on Cardiology" is designed on the theme: "Building and Beating to the Future of the Heart" that focuses to share novel approaches related to Cardiology field and exploring the challenges concerning excellence in Cardio research and advancements. The motive of the event is to generate awareness that will keep medical professionals abreast of the problems affecting the prevention, diagnosis and treatment of cardiovascular disease. The scientific program will feature live workshops, interactive education sessions, B2B meetings, round-table discussions apart from the conventional plenary sessions, featured symposia, breakout sessions and oral presentation sessions for abstracts and challenging cases. In addition, the World Congress On Cardiac Sciences - 2018 "International Conference on Cardiology" will feature live cases and interventional courses in an interactive format throughout the conference. Our endeavour is to provide a stimulating and thought to provoke scientific program.

Call for Abstract:

All investigators are invited to submit abstracts on topics pertaining to conference topics mentioned on the website. Authors are invited to submit abstract(s) using the submission form on this page. Abstracts should contain sufficient detail on the techniques used and the results, which will be shown. You will receive a confirmation when the abstract has been received. Please contact the conference secretariat if you did not receive confirmation within 5 working days.

If you find any difficulty while uploading abstract you can send abstract to info@cardiacsciencesconference.com. Submission implies the intent of at least one author to register, attend the symposium and present the paper. Contributions will only be finally accepted after registration and payment of the conference fee.

Important Dates:

Abstract Deadline: <http://cardiacsciencesconference.com/call-for-abstracts/>

EarlyBird Registration (Reduce fee): <http://cardiacsciencesconference.com/registration/>

Call for Young Scientist Award:

BioGenesis Health Cluster publicizes an outline of Awards for Young Scientists in order to help excellence in various fields of Cardiac Science. These Awards are known as "Dr. Paul C. Lauterbur Young Scientist Awards". The award is open to those researchers involved in graduate education and research happenings that accentuate bearable progress.

Academic Key Topics:

- Cardiovascular Medicine
- Cardiac Progenitor Cells
- The Pacemaker
- Radiography
- Cardiovascular Magnetic Resonance Imaging
- Cardiac MRI
- Cardiac Stroke
- Microangiography
- Diabetes Mellitus And Stroke
- Gene Analysis In The Diseased Heart
- Open Heart Surgery
- Off-Pump Heart Surgery
- Cardiac Malformation
- Stress Test Evaluations
- Cardiac Remodelling
- Transdifferentiation During Heart Regeneration
- Cardiac Derived Stem Cells
- Stem Cell Biology
- Molecular Targets Of Antihypertensive Drug Therapy
- Vascular Heart Disease Cases
- Pregnancy And Valvular Heart Disease
- Pregnancy And Congenital Heart Disease
- Others

Business Key Topics:

- Heart Transplant
- Development Of Pacemaking
- Cardiac Conduction System Lineages
- Personalized Medicine In Cardiology
- Cardiac Pacemaker
- Pacemaker
- Ventricular Assist Devices
- Cardiac Defibrillator
- Implantable Loop Recorder
- Automated External Defibrillator
- Mechanical Heart Assist Device
- Circulatory Support Devices
- Cardiac Resynchronization Therapy Device
- Implantable Cardioverter Defibrillator
- Diagnosis Of Cardiothoracic Diseases
- Valve Replacement
- Cardiothoracic Vascular Surgery
- Drug Therapy For Systemic Hypertension
- Pharmacotherapy For Cardiac Arrhythmias
- Pharmacotherapy For Acute And Chronic Heart Failure
- Cardiovascular Pharmacotherapy And Cardiovascular Surgery
- Cardiovascular Drugs Market Analysis

Why to Sponsor:

The World Congress On Cardiac Sciences - 2018 International Conference on Cardiology conference would not exist without our sponsors. It is their contribution that has allowed our programme to develop into a vast area of research in the field of cardiology. It must be borne in mind that all the cardiologists who contribute their time and energy to the enrolment of patients and completion of CRFs, do this on a purely voluntary basis, and it is sponsor investment that allows us to continue to develop this important partnership.

Sponsors have access to the widest cardiovascular network around the world. Consequently, by supporting the registry programme, sponsors multiply their possibilities of research, with the aim of improving healthcare worldwide.

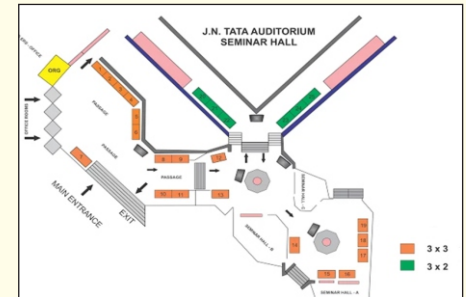

High quality observational data, collected following robust and methodological procedures, is scientifically important as a basis for educational programmes and for the development of guidelines that meet the needs of physicians in the field. The data produced by the World Congress On Cardiac Sciences - 2018 International Conference on Cardiology are shared on a large scale with the scientific/medical community via publications, posters and presentations.

The Scope of World Congress On Cardiac Sciences - 2018 International Conference on Cardiology Sponsorship:

Sponsorship of the World Congress On Cardiac Sciences - 2018 International Conference on Cardiology is a global sponsorship of the entire programme. In addition, Sponsors have access to a series of benefits, outlined below:

The Benefits of Sponsorship:

- Propose specific data to be collected (a limited amount) in the Case Report Forms.
- Early access to the Protocol before finalisation, for comments.
- Access to the full registry status page on the World Congress On Cardiac Sciences - 2018 International Conference on Cardiology website, with real-time status per country and various analyses and benchmarks.
- The possibility of requesting ancillary analyses and specific statistics. Face to face meeting(s) with the World Congress On Cardiac Sciences - 2018 International Conference on Cardiology management group (Scientific Director, Head of Department, committees experts), for status reviews of the relevant registries.
- Participation in the yearly sponsor meeting(s) with diverse committees.
- Acknowledgement of their contribution in the relevant section of all publications and related communications.
