

RADEASIA

KNEE MRI

30 DAY GUIDED Online Mini Fellowship

GUIDED LEARNING

View and assess dicoms

VIDEO EXPLANATIONS OF HOW TO FIND ABNORMALITIES

Video calls to discuss cases and topics

ASK QUESTIONS AND GET ANSWERS

Learn a structured way to assess and report

DESIGNED TO HELP YOU RETAIN AND REMEMBER MORE

WEEKLY LIVE VIDEO CALLS TO CLEAR DOUBTS AND ANSWER QUESTIONS

REPORT MORE CONFIDENTLY

TOPICS COVERED

1. SEQUENCES/ REPORTING STRUCTURE/ APPROACH TO ASSESSING A SCAN
2. CARTILAGE
 - NORMAL MRI APPEARANCE
 - DEGENERATION: FROM FIBRILLATION AND FISSURING TO DELAMINATION AND FULL THICKNESS LOSS
3. MENISCUS
 - NORMAL MRI ANATOMY
 - DEGENERATION AND DIFFERENTIATION FROM TEARS
 - MACERATION
 - PARAMENISCAL CYSTS
 - HORIZONTAL, RADIAL, VERTICAL AND WRISBERG RIP, FLAP TEARS
 - BUCKETHANDLE AND ROOT TEARS
 -
4. ACL
 - NORMAL ANATOMY AND MRI APPEARANCE
 - FULL THICKNESS AND PARTIAL TEARS
 - ACL GRAFTS NORMAL APPEARANCE AND COMPLICATIONS
5. PCL
 - NORMAL ANATOMY AND MRI APPEARANCE
 - FULL THICKNESS AND PARTIAL TEARS

RADEDASIA 30 DAY GUIDED KNEE MRI ONLINE

TOPICS COVERED

6. A UNIFIED APPROACH TO THE MEDIAL KNEE STRUCTURES

- MCL DEEP AND SUPERFICIAL
- POSTERIOR OBLIQUE LIGAMENT
- MENISCO CAPSULAR SEPARATION
- POSTEROMEDIAL CAPSULE
- SEMIMEMBRANOSUS
- RAMP LESIONS
 - NORMAL ANATOMY AND MRI APPEARANCE
 - STRAIN, PARTIAL AND FULL THICKNESS TEARS, RUPTURES AND SCARRING

7. A UNIFIED APPROACH THE LATERAL KNEE STRUCTURES

- ILIOTIBIAL BAND AND FRICTION
- SEGOND FRACTURES AND THE ANTERO LATERAL LIGAMENT
- LCL
- BICEPS FEMORIS TENDON
- POPLITEUS TENDON
- POSTEROLATERAL CORNER
 - NORMAL ANATOMY AND HOW TO FIND THE STRUCTURES
 - STRAIN, PARTIAL AND FULL THICKNESS TEARS AND RUPTURES

8. PATELLA TENDON

- NORMAL
- TENDONOSIS AND TEARS
- FAT PAD IMPINGEMENT

9. PATELLA DISLOCATION

- WHAT TO LOOK FOR AND HOW TO DIAGNOSE IT

10. PREDISPOSING FACTORS FOR PATELLA DISLOCATION

- PATELLA ALTA
- LATERALISATION TIBIAL TUBERCLE
- TROCHLEAR DYSPLASIA

HERE'S WHAT THE WORKSHOPS have done for others like you

“

Thanks again for the fantastic course. I'm back at work and I changed my MRI protocols and sequences. I did my first 2 Knee MRI's and when the time came to report,

- I was so confident and sure about my diagnosis.
- I was able to implement what you taught us and make a clear diagnosis.
- I'm sure my referring clinicians will also be happy after this.

”
