

3RD GLOBAL WEBINAR CONFERENCE

UPDATES IN IMAGING AND MANAGEMENT OF LIVER & COLONIC CARCINOMA

10TH OCTOBER 2020

8.00 AM - 1.00 PM
UNITED KINGDOM

3.00 PM - 8.00 PM
MALAYSIA/SINGAPORE

Gain a comprehensive review of current imaging modalities and management of liver tumours and colonic carcinoma.

Organised by:

Global Futuristic Management Services

Official website and online registration:
www.penangmskrad.com

FOREWORD BY KEY SPEAKER

Welcome to the 3rd Global Webinar Conference on Abdominal Imaging.

This webinar aims to present different imaging modalities and investigations used in abdominal radiology, discussing in detail which imaging modality to use and when, and how to optimise the imaging pathway to achieve the best results.

It would be of interest to many General Practitioners, Gastroenterologists, Surgeons, Physicians and all healthcare professionals who deal with patients presenting with symptoms and diseases related to the abdominal organs.

The gastrointestinal tract is one of the most difficult systems in the human body to image, due to its length, complex structure and function, and inaccessibility for clinical examination. There are various radiological investigations available to choose from, to investigate patients with abdominal complaints, but which one is the best one and should be offered as the first choice to our patients?

Learning outcomes include new imaging pathways and current international recommendations, and incorporate the most recent world-wide research and state-of-art diagnostic techniques. New MRI protocols and techniques will be also presented, together with advances in interventional procedures and treatment.

Professor Mark Callaway, who will be speaking alongside, is a Consultant Abdominal Radiologist in the United Kingdom with a special interest in diagnostic and interventional abdominal radiology of the liver and pancreas. He has developed many techniques and was awarded the Kemp Harper prize for the best paper on abdominal imaging by Royal College of Radiologists and the Barclay prize by the British Journal of Radiology for his contributions in the area.

Together, we aim to give participants an inside and deep knowledge of new Ultrasound and MRI techniques, explaining which are the most specific and sensitive in GI diagnosis, including liver elastography, contrast ultrasound, new MRI sequences and hepatic specific MRI contrast.

This webinar will concentrate on the liver and large bowel pathology, as one of the most common sites of abdominal complains and disease, with a significant and continuous increase in number of hepatic and colonic malignancies.

Lectures will cover a wide range of liver and large bowel cancers, and include practical advice on initial diagnosis and staging process, discussing the most relevant features determining the choice of treatment offered to each individual patient. The various treatment options will be presented to make participants aware of new developments and progress in the field of interventional radiology, to guide their discussions with patients and referrals to relevant clinical specialists.

It will also include a wide spectrum of benign and pre-malignant conditions, with special recommendations of follow-up investigations when patients present with conditions predisposing them to develop gastrointestinal cancer, a grading system for liver cirrhosis and the most relevant management of patients at the high risk of malignant disease.

FOREWORD BY KEY SPEAKER

After the lectures, there will be time dedicated to asking questions and discussing any queries with the panel of experts from the Royal College of Radiologists, UK.

Registration for this webinar is via online at www.penangmskrad.com and places are limited to 100 pax. Early registration is encouraged.

We look forward to your participation.

Yours sincerely,

Dr. Joanna Kasznia-Brown

President of World Federation of Paediatric Imaging
Chair of Outreach Committee, European Society of Paediatric Radiology
Member of International Committee, Royal College of Radiologists, London
Course Director, 3rd Global Webinar Conference on Abdominal Imaging

10th October 2020 • Saturday • 3pm-8pm (Malaysia/Singapore)
Updates in Imaging and Management of Liver & Colonic Carcinoma

2.30 pm	Log on for webinar and briefing session.
3.00 pm	Imaging of common liver pathology - Ultrasound, CT and MRI: Cirrhosis and Tumours by Dr. Joanna Kasznia-Brown.
4.00 pm	Current interventional procedures for liver tumours by Prof. Dr. Mark Callaway.
5.00 pm	Entry level of ultrasound purchase, Optimizing imaging, Care of an Ultrasound machine. Extremity MRI vs Conventional MRI by Prof. Dr. John George.
6.00 pm	Imaging of Colon Carcinoma: CT colonoscopy vs conventional colonoscopy by Dr. Joanna Kasznia-Brown.
7.00 pm	Staging and current management (surgical and interventional) of colon carcinoma by Prof. Dr. Mark Callaway.
8.00 pm	Close of session.

Dr. Joanna Kasznia-Brown

Dr Joanna is Senior Consultant Radiologist and Honorary Lecturer at the University of Bristol, UK, with subspecialty in the cross sectional and paediatric imaging. She is regarded as an expert in oncological imaging, and is involved in a wide range of radiological examinations in the screening and diagnostic programs, as well as functional cancer imaging.

Joanna is currently President of the World Federation of Paediatric Imaging and Chair of Outreach Committee of the European Society of Paediatric Radiology. She is an Executive Member of the British Society of Paediatric Radiology and chairs the BSPR MRI Committee. Joanna has numerous publications and has been invited as guest and keynote speaker to many international and national conferences, and various educational courses in UK and abroad.

Abdominal, oncology and pediatric imaging remain favourite topics of her lectures and research, covering a wide range of emerging diagnostic techniques. She delivers many presentations per year, leading and organising the international courses and programmes worldwide, in cooperation with medical universities and professional societies to improve post-graduate training in diagnostic imaging across all clinical specialties. Passionate about global radiology, Joanna is a member of the International Committee, the Royal College of Radiologists, London, UK. She has been actively involved in many international projects in Africa, Asia and Europe, as Radiology Expert and Senior Consultant for the UN, WHO and IAEA.

Professor Dr. Mark Callaway

Professor Mark has been a Consultant Abdominal Radiologist at the University Hospital Bristol since 1998. He completed his radiological training in Manchester and Bristol before taking up a Lecturers post at the University of Bristol. He is primarily interested in both diagnostic and interventional abdominal radiology of the liver and pancreas and has developed many techniques. He was awarded the Royal College of Radiologists Kemp Harper prize for the best paper on abdominal imaging in 2005 and the British Journal of Radiology Barclay prize in 2011 for outstanding contribution to the Journal.

He has published several book chapters and over 70 peer reviewed papers on Abdominal Imaging. He was a member of the Committee that produced National guidelines for the management of acute pancreatitis in 2015, and was the only radiologist member of the NICE working party for the management of Pancreatic Cancer in 2018. He has recently completed two chapters on imaging and intervention of HCC for the forthcoming guidelines in the British Society of Gastroenterology.

He was appointed as The Medical Director of the Professional Standards and Warden of the Royal College of Radiologists in 2018, and has since then overseen several large national projects and guideline production. He was awarded a visiting Professor role at the University of the West of England in December 2015.

Professor Dr. John George

Prof. Dr. John George is presently the Consultant MSK Radiologist at the National Sports Institute of Malaysia and has scanned more than 6000 national athletes since 1998. He is also the Consultant MSK Radiologist at the Orthopaedic Diagnostic and Regenerative Centre at Beverly Wilshire Medical Centre where his focus is giving regenerative injections of the joint such as steroid, PRP, dextrose prolotherapy, and some limited experience with MSC.

He was formerly the Chief Musculoskeletal Radiologist at the Department of Biomedical Imaging, Faculty of Medicine, University of Malaya, Malaysia. He has 22 years of Experience in Musculoskeletal Radiology and is an expert in Musculoskeletal MRI & Ultrasound.

He is an international Course Director and Demonstrator for Musculoskeletal MRI and Ultrasound and has trained over 1000 doctors to date. Google 'Global MRI Course' for details on past and upcoming courses. He is also a Master teacher at various Radiology Musculoskeletal and Sports Medicine meetings around the world and many find his style of teaching easy to understand and can appreciate even complex topics in MSK MRI and Ultrasound. He has given more than 220 international and local presentations and has a H index of 11 for ISI publications, which is a very high score for a Malaysian Academic Medical Professor.

TESTIMONIALS FROM PAST WEBINARS

"Five hours of quality learning on a weekend, sitting in your own environment (home or clinic), sipping endless cups of coffee, with facility for interaction with the speakers - all this without the hassle of booking flights, hotel rooms, taking leave from work - the 2nd Global Webinar was indeed a wonderful and novel experience. It was well-planned and executed with perfection. Kudos to the organizers - syabas!"

Dr Kolathu Ravi, Radiology, Malaysia

"Great educational webinar with a wealth of information and valuable "pearls" covered in such a short time. Many thanks to the organising team."

Dr Chuong BUI, Nuclear Medicine, Australia

"I enjoyed the session, it was very informative and helpful. The speakers have successfully shown their great expertise, vast knowledge & experience in their respective fields. Well done!"

Dr Kwok Min Chek, General Practitioner, Malaysia

"It's a great opportunity for us to achieve valuable knowledge for our daily clinical practice."

Dr Thant Zin, Histopathologist, Malaysia

"Learned a lot in the webinar from start to end. Hoping for another one with more lecturers and cases. Thank you!"

Dr Jeanne Stephanie, Radiology, Philippines

"The lectures are very informative. I like the way webinar was presented. The chat notification didn't distract me while I was watching and listening to the webinar."

Dr Nursyahirah Bohari, Radiology, Malaysia

"Webinar is very well planned. Presentation was methodical and well structured with smooth flow of information."

Dr Neelakanta Reddy, Orthopaedics, Malaysia

"Will be my annual meeting for new input as well as refreshing for my practice."

Dr Shafie Ghafar, General Practitioner, Malaysia

"Excellent presentations"

Dr Haris Hamzah, Gynaecology, Malaysia

REGISTRATION FEES & PAYMENT

Webinar Fees:

Webinar Fee	Early Bird Rate (till 25th September 2020)	Standard Rate (after 25th September 2020)
Payment Method	Bank Transfer / Credit Card	Bank Transfer / Credit Card
International delegate	USD 80	USD 100
Malaysian delegate	RM 200	RM 250

Who should attend?

Healthcare Practitioners including GP's, Oncologists, Gastroenterologists, Surgeons, Physicians, Radiologists, Radiotherapists, Radiographers, Sonographers and allied health professionals.

Registration:

Registration for this webinar is via online at www.penangmskrad.com. Upon submitting the online registration form, you will receive a response within 48 hours on availability of places. If you do not receive a reply within this time frame, kindly email us directly at globalfuturistic@gmail.com. Kindly note that places are limited to the first 100 registrants and is on a first-come-first-served basis upon payment. The closing date for registrations is on the 5th of October 2020 OR upon hitting 100 registrations, whichever comes first.

Acceptance & Placement:

Upon securing your place in the webinar, kindly proceed with payment following the bank details below. If Credit Card is your preferred method of payment, kindly inform the Secretariat to issue you the relevant invoice along with payment instructions. Kindly note that credit card payment options are only available for overseas delegates and payment will be quoted in Malaysian ringgit.

Payment Details:

Account name : Global Futuristic Management Services
Bank Name : CIMB (Commerce International Merchant Bankers Berhad)
CIMB Account number : 8002419615
Swiftcode : CIBBMYKL
Contact number : +60122773799

Payment Proof:

All delegates must send us the proof of payment within 48 hours of making payment. Kindly email a copy of the bank-in slip or proof of transfer to globalfuturistic@gmail.com with indication of account name that the transfer was made from. Upon receipt of payment into our account, an e-receipt will be sent to your email within three days, followed by webinar login instructions closer to the event date. Please note that login details are unique for each registrant and only valid for one person & one device.

Certificate of participation:

A certificate of participation is issued to each participant within one week following the event. The certificate will be sent to the participant via e-mail as a printable signed PDF.

CPD accreditation:

Application has been made to the Malaysian Medical Association for CPD points.

Terms & Conditions:

1. The number of webinar participants is limited to 100 pax. Registrations are processed in the order of payment received. Non payment of fees in a timely manner could result in loss of place on the webinar.
2. Kindly email the secretariat with proof of transaction along with account name upon making payment so that the secretariat is able to identify your payment. Failure to do so might cause your payment to be attributed to another delegate instead.
3. A confirmation of placement at the webinar is upon receipt of an electronic receipt. If you do not receive this document within the duration of three days, kindly email the secretariat immediately to check on your status.
4. This is a Live Webinar training airing on Sat, 10th of October 2020, 8am-1pm in the UK and 3pm-8pm in Malaysia/Singapore. A live webinar replay will be available on Sun, 11th October 2020, same time, for those who are unable to attend the live session. The webinar replay is only catered for those who are unable to join the live session. Kindly indicate via email if you are not able to join the live session so that we can make the necessary arrangements
5. Due to potential copyright infringements, the organiser is unable to share recordings of the webinar post-event.
6. A non-refundable policy applies to the webinar registration fees due to low fees. Registration transfers are also not permitted.
7. Credit card payment options are only applicable for overseas delegates and you will be charged in Malaysian ringgit equivalent at prevailing USD buy rate based on CIMB Bank Malaysia forex rates.
8. For overseas payments via bank transfer, kindly find out your local bank charges and include it in the amount transferred so we receive the full sum due in US Dollars. We will absorb local charges up to MYR 5 ringgit only which is the local standard charge currently.
9. The programme may be subject to change without prior notice and will be updated continuously up to the webinar date.
10. In the event that the webinar is cancelled by the organizer due to unforeseen circumstances, another webinar will be arranged at the next convenient date and your registrations automatically transferred to the new date.
11. The current capacity of the webinar is 100 pax. Depending on the response, the organizer reserves the right to increase or decrease the capacity of the webinar.
12. The organizer and official partners reserve the right to record, store, collect, use and process participant information for purposes relating to but not limited to contacting you, conducting this webinar and updating you on future events.
13. All webinar content is considered copyright of Global Futuristic Management Services and is strictly for single person viewing per registration payment. Recording of the webinar or sharing of any webinar material via any means is strictly not allowed and anyone found in violation will be fined.
14. The organizer is not responsible for any damage to or loss of data on your computer system, network or server that results from the usage of the webinar platform or from the download of any materials made available during the training session.
15. The organizer, while having done their due diligence to select the most stable webinar platform, cannot promise that sessions will be uninterrupted or error free due to circumstances beyond our control from the host server or problems at your server level, i.e. user internet bandwidth, poor weather, etc. As the cost of the registration is minimal, there will be no refunds should 80% of the participants report none or minimal problems with the transmission.
16. The organizer reserves the right to change or modify any of these terms and conditions. In the event that any changes are made, the revised terms and conditions shall be posted on the website immediately. Please check the latest information posted herein to inform yourself of any changes.
