

Bohemian – Bavarian AO Symposium 2017

# Complex Cases and Complication in Trauma of the Skeleton

with worst outcome/with excellent outcome

Pilsen, June 16, 2017

## Chairmen

**assoc. prof. MUDr. Jiří Matějka, PhD.**  
Pilsen

**prof. Michael Nerlich, MD, PhD.**  
Regensburg

## Faculty:

Cimerman Matej, SLO  
Dráč Pavel, CZ  
Grechenig Stephan, DE  
Grote Stefan, DE  
Huber Michaela, DE  
Kerschbaum Maximilian, DE  
Kloub Martin, CZ  
Kopp Lubomír, CZ  
Neumann Carsten, DE  
Matějka Tomáš, CZ  
März Josef, CZ  
Meluzinová Petra, CZ  
Weber Johannes, DE  
Worlicek Michael, DE  
Zeman Jaroslav, CZ

## Venue:

Šafránkův pavilon  
Alej Svobody 31, 301 00 Plzeň  
2. floor - main hall

## Registration:

AO members 12 €  
non AO members 30 €

## Registration link:

Please register via [www.aotrauma.org](http://www.aotrauma.org)

## Contact person:

Jaroslava Horáková  
Tel: +420 736 681 505  
e-mail: [horakova.jarka@ao-courses.com](mailto:horakova.jarka@ao-courses.com)

## Accommodation:

accommodation is organized by participants individually

## Friday 16, June, 2017

|               |                                                    |                 |
|---------------|----------------------------------------------------|-----------------|
| 8.00 – 9.00   | Registration                                       |                 |
| 9.00 – 9.05   | Welcome                                            | Nerlich/Matějka |
| 9.05 – 10.20  | <i>Session 1: Shoulder girdle + humerus</i>        | Kloub/Nerlich   |
| 9.05 – 9.15   | Primary Anatomic Shoulder Fracture                 |                 |
|               | Replacement - Failure mechanism and Limits         | Kerschbaum      |
| 9.15 – 9.25   | Scapular fracture complication                     | Matějka         |
| 9.25 – 9.35   | Pseudoarthrosis of the humerus                     | Nerlich         |
| 9.35 – 9.45   | Failure of Philos plating of Neer IV.3 fracture    | Kloub           |
| 9.45 – 9.55   | Distal humerus fracture in focomely patient        | Meluzínová      |
| 9.55 – 10.20  | Discussion                                         |                 |
| 10.20 – 10.20 | Coffee break                                       |                 |
| 10.20 – 12.00 | <i>Session 2: Elbow + forearm + radius + wrist</i> | Dráč/Kerschbaum |
| 10.40 – 10.50 | A simple distal radius fracture?                   | Huber           |
| 10.50 – 11.00 | Distal radius fracture                             |                 |
|               | - an „extra-radius“ complication                   | Dráč            |
| 11.00 – 11.10 | Complex elbow fracture dislocation                 | Kerschbaum      |
| 11.10 – 11.20 | Incorrectly treated radiocarpal fracture           |                 |
|               | dislocation                                        | Meluzínová      |
| 11.20 – 11.30 | Complex carpal injury                              | Dráč            |
| 11.30 – 12.00 | Discussion                                         |                 |
| 12.00 – 13.00 | Lunch break                                        |                 |
| 13.00 – 14.30 | <i>Session 3: Spine + pelvis</i>                   | Cimerman/Neuman |
| 13.00 – 13.10 | A simple fracture of the femur                     | Grechenig       |
| 13.10 – 13.20 | Unstable pelvic injury: biomechanics               |                 |
|               | and anatomy is the key                             | Cimerman        |
| 13.20 – 13.30 | Spondylodiscitis T7/8 with acute                   |                 |
|               | neurological deficit                               | Neumann         |
| 13.30 – 13.40 | Ankylosing spondylitis fracture failure            | Matějka T.      |
| 13.40 – 13.50 | Total Enbloc Spondylectomy L3/L4                   |                 |
|               | in Ewing Sarcoma - 10 years later.                 |                 |
|               | What to do?                                        | Neumann         |
| 13.50 – 14.00 | Middle age man L2 fracture complete failure        | Matějka         |
| 14.00 – 14.30 | Discussion                                         |                 |
| 14.30 – 15.00 | <i>Session 4: Knee</i>                             | Grechenig/März  |
| 14.30 – 14.40 | Complex knee injuries-how to stabilize?            | Grechenig       |
| 14.30 – 14.50 | Proximal tibia fracture complet failure            | März            |
| 14.50 – 15.00 | Osteomyelitis - always complex                     | Weber           |
| 15.00 – 15.10 | Proximal tibia fracture - infection complication   | Zeman           |
| 15.10 – 15.20 | Allograft transplantation in posttraumatic         |                 |
|               | tibial head necrosis                               | Worlicek        |
| 15.20 – 15.45 | Discussion                                         |                 |
| 15.45 – 16.00 | Coffe break                                        |                 |
| 16.00 – 17.00 | <i>Session 5: Foot</i>                             | Kopp/Grote      |
| 16.10 – 16.20 | Removal of a bent intermedullary tibia nail.       |                 |
|               | Case report and literature overview                | Grote           |
| 16.20 – 16.30 | Joint preserving osteotomy of calcaneal            |                 |
|               | malunion - whera are the borders?                  | Kopp            |
| 16.30 – 16.40 | Reduction and fixation of pilon fracture           |                 |
|               | - what is an update?                               | Nerlich         |
| 16.40 – 16.50 | Infected calcaneal non-union in                    |                 |
|               | a non compliant patient                            | Kopp            |
| 16.50 – 17.15 | Discussion                                         |                 |
| 17.15 – 17.30 | <i>Conclusion and summary</i>                      | Nerlich/Matějka |
