

IATSIC DEFINITIVE SURGICAL TRAUMA CARE (DSTC) COURSE

14th - 16th July 2025
Tan Tock Seng Hospital, Singapore

The Definitive Surgical Trauma Care (DSTC) course was developed by the International Association for Trauma and Surgical Intensive Care (IATSIC) of the International Surgical Society. This benchmark course serves as a forum for advanced surgical trainees and qualified surgeons who have to deal with trauma in their surgical practice. It assumes prior knowledge of the principles of ATLS.

This 3-day course offers you the opportunity of working with local and international faculty members who are experts in the field of trauma. The course comprises comprehensive and interactive lectures, panel and group discussions and an animal laboratory session.

At the animal laboratory, participants will operate in small groups under the guidance of the faculty and will obtain hands-on experience in surgical techniques used in managing challenging injuries to the major organ systems.

COURSE FEES

All prices stated below are inclusive of prevailing 9% GST.
