

18th International Symposium on CT Program at a Glance										
Optional Workshops June 19 (Sun)		Main Symposium June 20 (Mon)		Main Symposium June 21 (Tue)		Main Symposium June 22 (Wed)		Main Symposium June 23 (Thu)		
7:00			*Technical Advances <i>Featured Topics:</i> "Detector Technology - why is there so little change"		*Dual Energy/ Multispectral <i>Featured Topics:</i> "DECT: Useful tool or just glitz"		*Thoracic: <i>Featured Topics:</i> "Massive PE: what's important and why?"		*Pediatrics	
8:00	Dual Energy Workshop Tech. Workshop: Protocols, Iterative Reconstruction, and Dual Energy		"Iterative Reconstruction and Diagnostic Power"		"DECT workflow is too complicated and too long"		"Subsegmental PE - to treat or not to treat"		*Head, Neck, and Brain <i>Featured Topics:</i> "CT versus MRI for stroke"	
9:00									Technical Exhibition	
10:00			*Managing Radiation Exposure <i>Featured Topics:</i> "CT radiation dose - does the public care?"	Technical Exhibition	*Vascular & Contrast Materials <i>Featured Topics:</i> "Ultra low iodine dose protocols"	Technical Exhibition	Live Workstation Case Demonstrations	Technical Exhibition	"The best acquisition and reconstruction methods for optimal detection of subtle pathology on unenhanced head CT"	1:1 Scan Training: Protocols & Butto-nology
11:00				1:1 Scan Training: Protocols & Butto-nology	"Iodinated Contrast Nephropathy is a Myth"	1:1 Scan Training: Protocols & Butto-nology	Protocol Panel	1:1 Scan Training: Protocols & Butto-nology	"CTP versus CTA/CTA-collaterals for Triage for Intra-arterial Therapy"	1:1 Workstat-ion Train-ing
12:00			Lunch	1:1 Workstat-ion Train-ing	Lunch	1:1 Workstat-ion Train-ing	Lunch	1:1 Workstat-ion Train-ing	Lunch	
13:00				Poster Viewing		Poster Viewing		Poster Viewing		
14:00			*Cardiac <i>Featured Topics:</i> "Single beat CT for coronary arteries: Eh, who needs it??"		*Abdomen and Oncology <i>Featured Topics:</i> "Quantitative oncology response assessment with CT: opportunity or misery?"		*Image Processing and Workflow <i>Featured Topics:</i> "Technologies and Solutions that Allow me to Work Better/Faster"		*Practice Management and Informatics <i>Featured Topics:</i> "The prospect of Machine-Based CT"	
15:00			"What is more valuable for CAD: functional or anatomic cardiac assessment?"		"Perfusion CT outside of the head is dead, and besides, it has too much radiation"		"3D post processing: Should the Radiologist do it or can it be done by a Rad Tech?"		Interpretation: What are the Implications of IBM Watson?"	
16:00			"CT-FFR - Fab or Fad?"				"Maximizing a CT Team: Radiologist-Technologist Partnership and Communication"		"To do or not to do structured reporting for CT"	
17:00			Live Workstation Case Demonstrations				Live Workstation Case Demonstrations		"Diagnostic decision support - will it ever happen?"	
18:00			Poster Presentations		Poster Presentations		Poster Presentations			
Dual Energy Workshops Tech Workshops Sub-specialty Lectures Poster Presentations Lunch Time Technical Exhibitions <i>*The New Fundamentals" will be covered at the beginning of each session</i> ISCT International Society for Computed Tomography										

International Society for
Computed Tomography
